A BRIDGE

Prologue

We will realize as we enter union of One Mind, that the tension of opposites is the individuation process and that we are the Bridge. We are the Bridge to Oneness. Our Creator is the Bridge to His Children. We are the Bridge to our brothers and sisters. They are our Bridge as the mirrors to us. We will also be the Bridge between war and Peace, sadness and Joy, sickness and Health, and uselessness and Good. We will to turn anger to gladness, tears to laughter, and replace weariness with rest. But we will still know all of these. We will claim our responsibility to know the All of Everything, the emptiness of nothing and our relationships will Bridge the realms to really become cause and effect, means and end. We are all One.

In 1955, a Revelation called “The Urantia Book” authored by Our Father’s Celestial Beings was introduced on earth, our plane of existence. Ancient Wisdom unknown to contemporary humans reveals that Urantia is, and has been, the name of our planet since the time of its inception.

The Urantia Book includes four parts that reveal that we humans really do not have a semblance of any relevant understanding concerning how it all came to be, and what our purpose is in all of this. The explanations are astounding.

It is at the same time a Spiritual, philosophic and scientific documentary that is far beyond our experience, mental capabilities, or imagination. It introduces us to concepts concerning humanity that have not been found anywhere in our history, teachings, or any documented human experience that we have heretofore been exposed to. The four parts include: The Central and Superuniverses; The local Universe; The History of Urantia; and The Life and Teachings of Jesus Christ.

Synopsis Of The Urantia Book

The Urantia Book is a revelation of facts and Truths which have long been sought after by scientists, historians, philosophers, and neo-religionists, Urantia is the Universal name of our planet.

The book gives as its authorship superhuman, Divine beings who would, understandably, have access to certain information not available to human mortals. The authors, however, make use of all human concepts and word symbol information possible, and resort to superhuman sources only when absolutely necessary.

The subject matter of the entire book centers on the general purpose of making clear "man's Divine and Eternal Destiny, the age-long progress from animal to ascending human, from ascending human to spirit, from spirit to the Supreme Father."

It is to clarify this fundamental, unifying theme of humanity's eternity-long evolution that all the various phases and topics of the subject matter are included in the book's more than two thousand pages. The basic ideas and philosophy of the Urantia revelation may be stated briefly as follows:

The Cosmos

The scene of this drama of man's continued development and the arena in which it occurs, is the entire stretch of the starry universes of space. Thus, must we understand something of the vast cosmic stage on which all the action unfolds. There is given a word-map, a sort of blueprint of what our telescopes are beginning to reveal; the hitherto unimagined magnitude of the galaxies and universes of space.

The book tells of the revolutions and ordered movements of component systems and sub-systems; of the origin and basic constitution of matter, including its absolute unit, the ultimaton; of the relation of matter to mind, energy and spirit; and of the eons-long evolution of matter into nebulae and starclouds, suns and planets, and finally into stabilized universes.

At the eternal center of this immeasurable swing of the huge far-sweeping galaxies, holding it all in absolute control, is the Isle of Paradise, which is the dwelling-place of God, the Universal Creator.

Personalities of the Universes

This vast cosmos, says *The Urantia Book*, is inhabited by a tremendous population of living beings - divine personalities, angels and mortals like us on earth. The purpose for bringing into existence all this infinite stretch of universes and personalities is this: That God desires a human creature experience in order to realize His own experiential growth and realization. He gave a non-personalized Fragment of Himself to humans subject to our free will to assist the Ascension of the Soul if we so choose. Our Father also willed not to be self-contained, wishing to share the Joy, the adventure of being, to the very farthest extent possible, even down to such lowly animal-origin creatures as the mortals of earth.

There are millions of planets inhabited by human beings similar to us, and the Father loves us every one. There is in the Mind of God a Plan that fully embraces every creature of all his vast domains, and this Plan is an eternal purpose of boundless opportunity, unlimited progress, and endless life. The infinite treasures of such a matchless career are ours for the striving.

The History of our Planet

Since our planet, Urantia, is the starting point of the eternal career of earth mortals, it is fitting that we better understand its beginning and our own evolution from animals.

We are therefore told of the earth's astronomic origin, of the gradual, but violent, formation of its stone crust and the oceans, of the superhuman implantation of life, which evolved through countless ages into animals, until finally there appeared the first human family, and of this, we have a fascinating, detailed account; of primitive peoples including the genesis of many different races, their early clans, pre-civilizations, and strange rites of religious passage, for from these evolved the moral imperative, that is the prerequisite for Spiritual growth.

We mortals are the very lowest order of being capable of infinite Spiritual development, and this is predicated on the fact that the human HeartMind has evolved to the point where it can be indwelt by a Spark of The Father's Eternal Divinity. The planets are the spawning-ground of the will creatures farthest Beingness from God who nevertheless possess the potential of finding Him.

The Continuation of Evolution

If we mortals sincerely choose in this life to follow the gentle leading of the Divine Spark of Creator within us, we can continue life and development on the Mansion Worlds, and further, on literally millions of other spheres of learning and training.

On these mansion worlds the tragic incompletions, the injustices, the huge inequalities of opportunity of earth life are rectified; but we earn each and every inch of progress, by study and training under the guidance of Angels and other Celestial Beings, and also by imparting knowledge learned, in service to those following us.

We do not, however, in this universe age, return to our native planet. There is no communication here, says The Urantia Book, with our departed loved ones. The entire stellar itinerary of our inconceivably lengthy evolutionary journey toward Spirit Status is described, including graduate courses held on the billion worlds of Havona.

We humans have begun an endless unfolding of an almost infinite sojourn, a limitless expanding of never-ending, ever-widening spheres of adventure and opportunity for exhilarating service, matchless learning, a continuous uncertainty, and boundless attainment. Such is the long, alluring path to Paradise. Such is the Soulular Ascension Plan.

The Downreach of God

The mortal Soulular Ascension Plan is a two-way proposition. Not only does humanity ascend toward God, but also God reaches down toward to humanity. The initial basis for God's extension of Love, the very first step away from absolute self-containment, was the creation of the Eternal Son and the Infinite Spirit, thus forming the Trinity.

Of course the Trinity has existed eternally yet to our time-bound, linear and finite minds, these existential personalizations of Deity must necessarily be presented in sequence. The absolute First Source and Center attenuated Himself further in the creation of many additional Divine personalities, less than absolute, more and more nearly approaching the finite.

About two thousand years ago, one of these Divine Creator Sons of God incarnated Himself on Urantia, in part, in order to enable mortals to realize that we too are Sons of God, Indwelt by Divine Light. "The kingdom of God is within you."

This inner guidance can lead us in timeless evolution, life after life, toward perfection. Jesus literally meant it when He commanded, "Be ye perfect." But there is an added reason for Jesus' incarnation. By His life in the flesh He was earning His own Sovereignty as the Creator Son Michael of His and His mate Spirit Mother Nebadonia's Universe They called Nebadon. We now refer to our Father/Brother as Christ Michael, and Nebadonia as Our Mother Spirit.

The Urantia Book teaches that this same Son, who became the carpenter of Nazareth, was the actual and literal Creator of the earth, the solar system, and our entire "local" universe, with its potential of ten million inhabited worlds. And out of all those possible planets where He might have lived His life of the flesh, He chose to come to Urantia.

The moral and Spiritual backwardness of Urantia in comparison with other planets, is due, we are told, to certain unfortunate events of long ago, such as are always possible in finite worlds, where imperfect beings have free-will choice.

Six times before, on other spheres, this Divine Son of God had bestowed Himself and lived the life of one of His own creatures, thereby, with this seventh and final one, in the likeness of the lowest order, earning complete and absolute Sovereignty over the Universe He created.

Jesus did not come to Urantia to placate a God of wrath nor to give Himself as a ransom by dying on the cross. The cross was wholly human's doing, not God's requirement.

He came to say that God is a Loving Father, that humans are Daughters and Sons of the eternal God, and that all men and women are brothers and sisters. By these seven bestowals, He enriched His Spiritual and Perfect Personality, making it not only complete, but replete. He thus became the Son of Man, as well as Being the Son of God.

Many other orders of being, created Perfect, add to Their Divine natures by ministering to ascenders on the path to Paradise. Perfect beings descend to serve those who ascend, thereby, a two-way plan.

The Supreme Being

All this life experience of both ascenders and descenders is gradually being synthesized and coordinated into an evolving, ongoing universal

consciousness, a growing Oversoul of Creation, eventually to become Personalized as the Supreme Being, the administrator of the perfected, finite universes, so relates The Urantia Book Teachings. The evolution of this developing God of time and space, even we mortals are contributing to by our individual life experiences. This concept of a growing, finite Deity has been propounded by some philosophers of our planet.

The Life and Teachings of Jesus

The account of the Life and Teachings of Jesus in The Urantia Book is much more complete than that of the New Testament, and is not really contradictory. The Celestial Authors base their narrative on records that are available to them of everything that took place in every moment of the life of Yeshua ben Joseph who became Jesus Christ during His Life on this planet. They give definite dates and many hitherto unknown details, which create an exceedingly readable, simply told story. This biography occupies the last third of the book; the foregoing two-thirds constitute an informative introduction, a universe backdrop, for the enthralling drama of Our Father Christ Michael's human-Divine bestowal life on our troubled planet, and for all the beings of His entire Universe from their beginning to the end of time, and beyond.

The presentation, thereby of the picture of this matchless life in its cosmic frame of reference, is understandably the climax, and fitting conclusion of the Urantia revelation. The opening paragraphs of the book repeat often an invitation-command of the Creator Father of all the universes to his family of far-flung finite, mortal children, "Be ye perfect"; and the following pages spell out details and steps to each and every unique and individual mortal human ascension path of perfection attainment.

For us mortals, Jesus inspirationally points the way. Indeed, His Life and Teachings, in their actual original form, unencumbered by tradition, dogma, and human ego, are by far the greatest possible assistance that mortal man can hope for in his ongoing ascension to the Perfection of Our Supreme Father, which is begun here and is continued on the numberless spheres of space.

The last two paragraphs of the Urantia Book which was given to humans on this planet in 1934 and 1935, relate the promise of ongoing revelation in and through Jesus, that shall not fail, and makes it clear that Our Father's Truth has been, and will always be, available to us as we ask for, and will to receive.

The great challenge to the modern human is to achieve communion with the I AM Indwelling Divine Monitor, Spirit-Self, a Fragment of Our Creator which dwells within the HeartMind of every reason capable human. Thus, humanity's greatest adventure in the flesh consists in the well-balanced and sane effort to advance the borders of HeartMind Consciousness out through the dim realms of embryonic Soul-consciousness through the Will-Self in a WholeHearted effort to reach Spirit-Self consciousness, contact and communion with the Indwelling Divine I AM Presence. This sublime experience constitutes God-Consciousness, a State of Being that is Truly absolutely confirmative of the pre-existent Truth of the religious experience of knowing God. Such Spirit-Consciousness is the equivalent of knowledge of the actuality of Sonship with God. Otherwise, the assurance of Sonship is the experience of Faith and Trust.

And God-Consciousness is equivalent to the integration of the Self with the universe, and on its highest levels of Spiritual reality. Only the Divine Spirit content of any value is imperishable. All that which is True, Beautiful, and Good will not perish in human experience. If the human does not choose to survive, then does the ongoing Spirit-Self conserve those realities born of Love and nurtured in service. And all these things are part of the Universal Father. The Father is Living Love, and this Life of the Father is in His Sons. And the Spirit of the Father is in his Creator Sons' sons, corporeal humans. When all is said and done the Father Idea is yet the highest human concept of God.

Synopsis of A Course In Miracles

In 1975, another Revelation called “A Course In Miracles” authored by Jesus of Nazareth was brought to our world. The Course is explained in this fashion: Nothing Real can be threatened. Nothing unreal exists. When we are fearful, we are non-existent. In Truth, this fearful world does not exist at all. Herein lies the Peace of God. The Course In Miracles presents the inevitable possibility of the Eternal Singular Reality of Life.

It introduces us to a new lesson for each day of the year, a text indicating why we do not understand any of this experience with our mortal minds, along with the clear explanation of how we can become who we really are. It takes extensive Faith, Trust, patience and perseverance to continue the lessons and studies beyond the first year and this depends pretty much on our levels of willingness and Spiritual receptivity capability.

It is apparent to any who have any experience with “The Course” that it came from a mind with a capacity far beyond ours. It introduces us to the only enemy we ever had in the form of our human ego, and goes to great lengths in explaining how to teach it, and change its thoughtform program along with how to release ourselves from its imprisoning disempowerment.

Generally speaking, one of these Revelations, The Urantia Book, tells us who we really are and where we have the choice to go if we wish to actually participate in this magnificent Soulular adventure. It should be noted that we would always have the free will choice to not participate. The other one, A Course In Miracles, lets us know how and why we block our own pathway and specifically, how to release ourselves from this error.

We put forth this compendia of “The Urantia Book” along with “A Course In Miracles” because we feel that both approaches complement one another in ways that we do not really understand because the thoughts and ideas, although they deal with our human creature existence, each in its very own unique way, facilitate the recognition and acceptance by those of us who are ready to hear, of Our Creator’s Love, while it is apparent to us that they also emanate from the same Source of this Universal Truth.

What has been given us? The knowledge that we are a mind and Soul, in our HeartMind, sinless forever, wholly unafraid, because we were created out of Love. Nor have we left our Source, remaining as we were created. This was given us as knowledge which we cannot lose. It was also given as well to every living thing, for by that knowledge only does it live.

Christ's vision has one law. It does not look upon a body, and mistake it for the Son whom God created. It beholds a Light beyond the body; an idea beyond what can be touched, a purity undimmed by errors, mistakes, and fearful thoughts of guilt from dreams of sin. It sees no separation. And it looks on everyone, in every circumstance, and on all happenings and all events, without the slightest fading of the Light it sees.

This can be taught, and must be taught by all who would achieve it. It requires but the recognition that this world cannot give anything that can faintly compare with this in value, nor set up a goal that does not merely disappear when this has been perceived. And this we give today. See no one as a body. Greet everyone as the Daughter or Son of God they are, while also completely acknowledging that they are One with us in Holiness. We can not be released except with our brother and sister.

Thus are their sins forgiven them, for Christ has Vision that has power to overlook them all. In His Forgiveness are they gone, because they never were. Unseen by Him they merely disappear, because a vision of the True Holiness that lies beyond them comes to take their place. It matters not what form they took, nor how enormous they appeared to be, nor who had seemed to be hurt by them. They never were but illusory, and are no more. And all effects they seemed to have, are gone with them, undone and never to be considered real.

Thus do we learn to give as we receive. And therefore Christ's Vision looks on us as well. This lesson is not difficult to learn, if we remember that in our brother or sister we only see ourselves. If they be lost in sin, so must we be. If we see Light in them, our sins have been forgiven by ourselves. Each brother or sister whom we meet today provides another opportunity to let Christ's Vision Shine on us, and offer us the Peace of God.

Author's Preface

Ongoing Revelation

There is also included in these writings, the continuing revelation from On High as expressed by our Indwelling Father Fragment which we call Spirit-Self, Christ Michael and Mother Spirit Nebadonia, Our Spirit Parents, Our Avonal Son Monjoronson, brother of Michael and director of the Magisterial Mission, the Melchizedek Teachers, and many other Celestial Teachers and Guides including ascending and descending Sons of Father Mother God, Our Midwayer brothers and sisters and our Angelic Teachers and including the Elemental Kingdom, all members of our loving family.

The Living Way

"The way from the earth life to the eternal estate has not been made plain to you, but there is a way, there always has been, and I have come to make that way new and living. He who enters the kingdom has eternal life already he shall never perish." Jesus Christ

What time but now can Truth be recognized? The present is the only time there is. And so today, this instant, Now, we come to look upon what is forever there, not in our sight, but in the eyes of Christ. He looks past time, and sees eternity as represented there. He hears the sounds the illusory, senseless, busy world engenders, yet He hears them as if a whisper in the wind. For beyond them all He hears the Song of Heaven, and the Voice for God more clear, more meaningful, more near.

The time is Now. There is no past or future. This is a very difficult concept for many to understand. We have all heard about this before, this living in the Now, or living in the moment. What exactly do we mean by this? All that we are, all that we think and feel is happening Now, not in the past, not in the future, but Now in this moment. Yes, we all have our memory of past Now events, and we have our hopes and conjectures about the future Now, but everything there is exists only Now in the present moment. We actually can have life and have it more abundantly right Now, if we can keep living consciously in this Now, the present moment.

Many of us who are starting out on this path of Spiritual awakening are as well, dealing with past emotional and traumatic events that have shaped who we are in this Now moment. These personality-shaping events, most often occurring in early development, lead us into limitations of personality expression. Our Now moments are constantly being shaped by what took place in the past and we are constantly checking and comparing our past

experiences with our present Now moments and keeping our personality expressions in this template of how to think and feel based on the human expectations of the fear-based ego-self. This emotional template prepares our thinking for the future Now events that are yet to occur by listening to the ego-self's ideas concerning what is expected of us, that we must think, act, and react to, according to this framework. We are caught in a loop of Now moments that are really just a succession of past trauma experiences and future expectations that prevent us from living freely and consciously in the present Now.

How do we live in the present? Can we just forget our past experiences and all our traumas? The key to living in the Now is to forgive and forget, a very powerful phrase we have all heard. Forgiving ourselves and others for past wrongs is one way of letting go of those past Now moments that keep us in this checking the template mode of thinking. This is one of ego's favorite methods for taking us out of our present moment awareness. By accepting past Now moments as teaching moments and allowing human limitations of mortal awareness of those who we have perceived to have wronged us, will enable us to live in the present Now by freeing up all that wasted mind energy that is constantly working and checking the template.

This world we seem to live in is not really home to us. And somewhere in our Soul and HeartMind we know that this is true. A memory of another, a Truer Home keeps haunting us, as if there were a State of Being that called us to return, although we do not recognize the Voice, nor what the thoughts remind us of. Yet still, we feel an alien here, from somewhere all unknown. Nothing so definite that we could say with certainty, we are an exile here. Just a persistent feeling, sometimes not more than a tiny throb, at other times hardly remembered, actively dismissed, yet surely it returns to our HeartMind Center again and again.

No one really knows of what we speak, nor can it be defined. Yet some of us try to put by our human suffering in games we play to occupy our time, in futile effort to keep the sadness from touching our HeartMind. Others of us will deny that we are sad, and do not recognize our tears at all. Yet, still others will maintain that what we speak of is illusion, not to be considered more than a dream. But which of us, in simple honesty, and without egoic human defensiveness or self-deception, would deny we surely understand the words we speak?

We speak today for everyone who walks this world, for we are not at home. We go uncertainly about in endless search, seeking in darkness for what we cannot find, not recognizing what it is we seek. A thousand homes we make, yet none contents our restless HeartMinds. We do not understand

or cannot accept that we build in vain. The home we seek can not be made by us. There is no substitute for Heaven. All we ever made was ephemeral.

Perhaps we think it is our childhood home that we would find again. The childhood of our bodies, with its place of shelter, are a memory Now so distorted that we only hold a picture of a past that never happened. Yet there is a Child in us Who seeks Our Father's house, and knows that we are alien here. This Childhood is eternal, with an Innocence that will endure forever. Where this Child shall go is Holy Ground. It is Our Holiness that Lights up Heaven, and that brings to earth the pure reflection of the Light above, wherein are earth and Heaven joined as one.

It is this Child in us our Father knows as His Own Daughter or Son. It is this Child Who knows Our Father. We desire to go home so deeply, so unceasingly, our Child's Voice cries to us to let It rest a while. It does not ask for more than just a few instants of respite, just an interval in which It can return Home to breathe again the Holy Air that fills Our Father's house. We are this Child's home as well. The Child will return, for It has sworn to do Our Father's Will, and we can give It just a little time to become One with Ourselves, within the quietude that is Our home, resting in the silence that begets Peace and Love.

This Child needs our protection. It is far from home. It is so little and It seems so easily shut out, the tiny voice so readily obscured, the call for help almost unheard amid the grating sounds, the harsh and rasping noise of the world. Yet does It know that in us still abides Its sure protection. We will fail It not. We will go home together. This Child is our defenselessness, our True strength. This Child Trusts in us. It came willingly because It knew we would not fail. It whispers of Its home unceasingly to us. For this Child would bring us back together, that we both might stay, and not return again where we do not belong, and where we live as outcasts in a world of alien thoughts. This Child's patience has no limits, and It will wait until we hear It's gentle Voice within us, calling us to let It journey in Peace, along with us, to where we are at home as one.

When we become still an instant, when this world recedes from us, when valueless ideas cease to have value in our restless mind, then will we hear It's Voice. So poignantly the Child calls to us that we will not resist It any longer. In an instant, will we travel home together, and we will together in perfect stillness stay silent and at Peace, beyond all words, unfazed and untouched by fear and doubt, sublimely certain that we are Home.

We can learn from this Child the willingness to become completely, wholly vulnerable that we might learn of It, how invulnerable is the one who comes

without any defenses, offering only Love's messages to those who would perceive us as their enemy. This Child holds the might of Heaven in Its hand and calls everyone friend, and thus, gives Its unmatched strength to them, that they may see we would be friend to them. It asks that everyone protect It, for this Child's Home is far away and we will only return together.

Christ is reborn as just a little Child each time we, each a wanderer, would leave our home. For we must learn that what He would protect, is this Soul Child, Who comes defenseless and Who is protected by defenselessness. We can choose to go home with Him from time to time today in our quiet meditative Stillness. We are as much an alien here as He.

We can choose to lay aside our shield which profits nothing, and lay down the spear and sword we raised against an enemy without existence, that only our egoic conditioning imagined in fear. Christ has called us friend and brother. He has also come to ask our help in enabling Him to go home Now completed. He has come as does a little child, who must beseech His father for protection and for Love. He rules the universe, and yet He asks unceasingly that we return with Him, no longer taking illusions as our idols.

We have not lost our innocence. It is for this we yearn. This is our original HeartMind's desire. This is the Voice we hear, and this is the call which we cannot deny. The Holy Child remains with us. His home is ours.

We Give All Those Fellow Children of God we have perceived and projected an imaginary and illusory grievance toward, And All Those Fellow Children of God Who we have perceived to have projected imaginary and illusory ill or grievance toward us, to The Holy Spirit As Part of Ourselves. We know that we will be released unless we choose to use those illusory grievances to imprison ourselves. In The Name of Our Freedom, We Will Our Release, Because We Recognize That We Cannot Be Released Except With Our Brethren.

Through art and philosophy, material-oriented mortal human is led into the contemplation of Spiritual realities and universe values of eternal Divine meanings. We can use our newly found awareness to focus thought on achieving and manifesting our desires to perfect ourselves, pursue Truth, create Beauty, and exude Goodness by Lighting up the world around us. This is true happiness, to Live in the moment, free to Live, Love, and laugh without regret, without fear, without guilt, and without unworthy feelings. All reality is Now and our experience is of the Now. We will never again have the unique opportunity to experience this Now moment on our native planet, so let us seize the present and make these moments the absolute and most exciting, Loving Joy-filled moments we can, it is happening Now.

All thoughts, concepts, and ideas in this message are derived completely and directly from these Revelations, and not in any part consciously from our human minds, thus we see ourselves as messengers, no more, no less.

“I thank You, Father, for these holy ones who are my brothers as they are your Sons. My Faith in them is Yours. I am as sure that they will come to me as You are sure of what they are, and will forever be. They will accept the gift I offer them, because You gave it to me on their behalf. And as I would but do Your Will, so will they choose as well. And I give thanks for them. Salvation’s song will echo through the world with every choice they make. For we are one in purpose.” Jesus Christ

Introduction

We begin our learning experience on a planet the ancients called Urantia with a body, mind, Spirit, Soul, and personality. We define the body as the material or physical organism of man. The living electrochemical creature mechanism of animal nature and origin. We define the HeartMind as the thinking, perceiving, and feeling mechanism of the human organism. The total conscious, unconscious, and superconscious experience. The innate intelligence associated with the emotional life reaching upward through our worship and wisdom to the Spirit level. The explanation of the Spirit, Soul, and personality will be explained in later Thoughts much more thoroughly because they are eternal together with the evolving Spirit HeartMind if we so choose.

There is only one God who is the Father/Mother of us all. We are all Sons and Daughters of God and therefore, brothers and sisters of one HeartMind Consciousness. The family is the most important human structure. All of humanity is one family. Men and women are equal. All major religions do extend from Our Father Mother Creator.

The laws of Sustainability are well known in the universe on millions of planets, except ours. We are beginning to come into the awareness of sustainable social laws and political laws, not the laws written in books, but the laws of behavior, the laws of decision, this is the law of harmony, this is the law of Love. Our God, our Creator, the First Source and Center Loves us! What does that mean? It means simply that we Live; we were begotten in a universe that is benevolent, beneficent and wholesome, and outside of the decisions of selfish, egoistic human individuals who attempt to harm us, but really cannot, we live in a universe of Love. This means that good begets good, and that Oneness begets Wholeness.

Social Sustainability and the global spread of the basic three core values of Equality, Quality of Life, and Equal Growth Opportunity for all who seek it, along with the willing acceptance by all of the three core value-emotions of Love, Compassion, and Empathy, and their integration into each and every organization and human activity is essential to the Peace of this world, its stability and its eventual Social Sustainability and the genesis of the onset of the inauguration of the Days of Light and Life. All of these values are enfolded within The Great Circle of Life as the seventh value.

We count the year 2015, as the beginning of the true global introduction of Social Sustainability with the three core values along with the three core value-emotions to our world within The Great Circle of Life. They have something to say for everyone, to every family, and every human agency

that has a human activity involved, whether it is family planning, or whether it is the care of people in terminal illness cases, it is all necessary and all of these values are pointedly relevant to everyone who is making decisions for future generations.

Everyone should receive equal access to a Spiritual, civic, socioeconomic, scientific, and humanistic education, as well as the capability of exploring progressive and ongoing creative potential by providing artistic cultural opportunities connected to all areas of learning.

Science, philosophy and Spirituality are the same at the highest material levels of wisdom that are beyond human understanding at this point. We hope this work will enable us together as humans to provide stepping-stones in that direction.

Individual Spiritual experience will lead us all to Truth. Awareness of the experience awaiting us after letting go of the physical body will enhance confidence in continuous personal and Spiritual growth. This message will bring forth the axiom that is not always apparent to many of us, that we live in a friendly Universe surrounded by wondrous Celestial Beings who Love and encourage us.

Our goal is to focus on the necessity of recognizing and focusing on, our individual human Spiritual experience regardless of whether there exists religious affiliation or identification with any creed or belief, or not, as well as full acceptance of ourselves in each and every unique level of human existence in which we find ourselves no matter how we may positively or negatively judge it.

God is for all of us whether we believe or not, and the Kingdom of Heaven is within us all whether we accept it or not. Choosing to ignore this does not make it disappear. Accepting it fully enables us to engage in a wholly magnificent *Faith - Trust - Certainty* adventure that is our right and heritage but will never be forced upon any human, ever. Our free will is inviolable in the eyes of Our Father, all our brothers in the Celestial Realms, and our fellow mortal human brothers and sisters who are all children of Our Father Mother God whether they are aware of it or not.

There is a Light in us which cannot die; whose presence is so Holy that the world is sanctified because of us. All things that live bring gifts to us, and offer them in gratitude and gladness at our feet. The scent of flowers is their gift to us. The waves bow down before us, and the trees extend their arms to shield us from the heat, and lay their leaves before us on the very ground that we may walk on in softness, while the wind sinks to a whisper

round our holy head. The Light in us is what the universe longs to behold. All living things are still before us, for they recognize Who walks with us. The Light we carry is their own. And thus they see in us their Holiness, saluting us as Savior and as God. We accept their reverence, for it is due to Holiness Itself, which walks with us, transforming in Its gentle Light all things unto Its likeness and Its purity.

This is the way Salvation works. As we step back, the Light in us steps forward and encompasses the world. It heralds not the end of sin in death or punishment. In lightness and in laughter is sin gone, because its quaint absurdity is seen. It is a foolish thought, a silly dream, not frightening, only ridiculous perhaps, but who would waste an instant in approach to God Himself for such a senseless whim?

Our goal is simply to establish and provide the Wisdom of these Teachings as an informal meeting wherever two or more may gather in The Father's Name. We believe we are both student and teacher in every moment, and as messengers, we enhance both aspects of our Spiritual growth in that regard.

One of the most important ideas that emanates from ongoing continuous Revelation and both of these Revelations is that there is not any attempt to usurp or preclude any religious teachings or beliefs, but rather they all very much encourage active participation in our own individual progressive and dynamic learning process throughout our lives. Whether we make free will choice to remain with, become affiliated with an organized religion or other creedal belief system, or whether we choose to perceive ourselves Spiritual or not, does not matter in the least, because there is Wisdom in all earthly religions, and they may very well enhance our recognition of the Truth in these contemporary Revelations as well.

We also believe our best hope for our planet to embrace the State of Being referred to as "Light and Life", is our continual attempt to align with The Universal Truth, or The Will of God. The ultimate goal of human progress is the reverent recognition of the Father Motherhood of God and the loving materialization of the brother sisterhood of man.

We know from personal experience that studying and sharing this Divine knowledge is Communication with God, which is the essence of life. To allow our human HeartMinds to willingly open to the Wisdom and Truth shared in these Revelations is a transformational curriculum in Universal Transcendental Self-Realization of, by, and through, Love and Forgiveness.

Much of what appears here will fly in the face of almost everything we have been taught to believe throughout our lives. Our hope is that we present it in such a way that it will touch a part of us that is able to discern its Truth.

The confusion and turmoil of Urantia does not signify that Our Paradise Administrators lack either interest or ability to manage affairs differently. The Creator is possessed of full power to make Urantia a veritable Heaven on earth, but such an Eden would not contribute to the development of the strong, noble and experienced characters that the Gods are so effectually forging out on our world between the anvils of necessity and the hammers of challenge. Our anxieties and sorrows, our trials and disappointments, are just as much a part of the Divine Plan on our sphere as are the infinite adaptation and exquisite perfection of all things to their supreme purpose on the worlds of the central and perfect universe.

We firmly believe that Our Father Loves every one of us individually and we each bring something unique in our life experience on earth that cannot be duplicated by any other mortal creature anywhere, to enhance the overall meaning and Personality of The Supreme Father Mother God.

The Infinity of Our Creator is the supreme assurance that throughout all of endless futurity, ascending personalities will have before them the eternal possibilities of personality development and Deity association which even eternity will neither exhaust nor terminate.

What we refer to as daily prayers also includes invocations, meditations, petitions, agreements, declarations, and worship, which involve every act in every moment. The important aspect is to establish a daily routine of communing with God, by simply dwelling in the Silence which can be also identified as the Quiescence of God, as often as we remember to, and in whichever way is comfortable for us.

FIRST THOUGHT

Welcome Home

The Calling

Like a Voice from within, we hear it. A still, small Voice that stirs our very Soul ... The Calling ... Emanating from the vast expanse of the Universe, from the depths of eternity, across time and space to resonate and reside at the center of our Being ... The Calling ... Calling us Home to Goodness, Truth and Beauty, to Brother and Sisterhood, to Living Love

These Revelations present a proven direct method of restoring our human communication with the Creative Source of all that is or ever can or will be.

This is an invitation to an immediate contact with the Singular Power of the Reality of Eternal Life that surrounds us. We can realize that we have never really been separate from this totality of All Being. It is vital that we accept the Truth that there is not, nor has there ever been, anything whatsoever to fear.

A human being usually reaches sexual maturity and gains the capacity to reproduce, when puberty arrives around the 13th year of life. However, a boy or girl at 13 years of age is clearly not yet mature enough in life. They are not really prepared for life. Experience is essential to maturity, and we simply cannot skip it. Either we are mature, or we are not. Unfortunately, some people do not seek life experiences that will contribute to their viable personal maturity, and so it does not matter how old they are, they likely will never fully mature. Maturity, then, is a process in which several factors must coincide. Some of these, however, are most essential for anyone to reach maturity.

The first essential ingredient for maturity in life is the accrual of bona fide experiences. As well, there are experiences that are altogether quite pointless. Usually these kinds of experiences are the ones that result from our seeking to experience temporal pleasures, animal urges, gratification of vain desires, or selfish realization of will. Bona fide experiences are the ones that are the outcome of seeking superior realization of values which result in the understanding of higher meanings. We who choose to search for values and meanings are not just seeking knowledge. We are seeking wisdom. Bona fide experiences can be both intense events and serious cumulative achievements that produce an experiential balance in facing life and its vicissitudes.

Finally, maturity comes to a human being when that individual allows full Spiritual primacy to take over in all aspects of life. That is what we call Spiritual maturity, which cannot be reached without the poise and will of the individual, and of both the Spirit-Self, the Father Fragment Within, and our evolving Soul. The Spiritual dominance happens when our Spirit-Self is finally allowed by us to govern all our actions with Spiritual purpose and meaning. Spiritual dominance is a constant ongoing awareness of actual Spiritual value of life in all its aspects.

Healthy thoughts and attitudes can only be cultivated with the awareness of the responsibility we have for the thoughts we allow to remain in our consciousness and the willingness to do the work of discernment and evaluation from higher consciousness in coordination with our HeartMinds which entails the Guidance we are continuously being offered by our Spirit-Self, our Spirit parents, the Adjutant Spirits and those human personalities who are concerned with our health, welfare, moral, and ethical, as well as our Spiritual development. As the personality starts off in a human infant, it is basically a template and the individual potentials and characteristics of the personality are inherent in the unique and unrealized, as of yet, Divinely bestowed Gift, the nature of which cannot be adequately described by any mechanistic or biochemical nomenclature.

The personality requires careful and Divinely informed and guided Spiritual refinement and cultivation. The individual human must willingly cooperate to actively discern and acknowledge the aspects of the personality which are in need of development, sophistication, and enculturation, into the highest Spiritual expression of those rudimentary character traits. The early expressions of inherent personality traits will be projected through the developing egocentric infant but have the potential to be enhanced by their parents and the Adjutant Mind Spirits as the infants are guided, taught and steered, with encouragement, to express their growing personality.

The parents of a young child will notice early on that there are recognizable and unique qualities of personality present, which are germane only to that individual child. The important and exceedingly critical role of the parents and primary caregivers is to ensure that the child is positively reinforced when demonstrating healthy social and emotional behavior, and actively discouraged, without impatience or threat of violence, from anti-social or inappropriately aggressive or overly competitive behavior.

The parents must comprehend the tremendous importance of guiding the child in the direction that will enable the greatest positive and healthy, moral, ethical and respectful social relationships. Willingness on the part of the child to practice loving, respectful and helpful behaviors is also a

prerequisite for healthy and socially sustainable personality development. Without an active and ongoing system of positive feedback and effective non-violent disciplining and boundary establishment, the child will fail to learn how to monitor and self-regulate, intelligently modify, and apply the personality through the attitude, demeanor, approach to problem-solving, conflict resolution, and day-to-day choice-making.

The moral, ethical and behavioral standards of the parents, teachers, care givers, and the society all play a part in the personality development of an individual. The cultural, Spiritual and religious, as well as the educational frameworks which enhance Sustainability through the quality of life, their understanding of equality, and balanced growth in the child's environment, are all contributors in the personality development. By far, one of the most prominent influences in the development of the personality after the Gift of the Indwelling Father Fragment, is the degree of receptivity the child has to the leadings of this Indwelling Spirit-Self and the cooperative free-willed decisions made by the individual of person-status to attune and align with the guidance and direction being continuously and subtly offered. The Still Small Voice is indeed the Gift of Our Creator to His mortal evolutionary children of the space-time universes.

Personal maturity is a multi-faceted process that culminates in Spiritual maturity. We must seek out the experiences whose meanings will remain with us for all eternity. Among those, undoubtedly, are the ones motivated by Love, Truth, Wisdom, Goodness, and Beauty. Spiritual maturity is not gained automatically, it is personal, and it depends on each decision we make, reaffirming the Spiritual priority in all we do.

"If you would be truly triumphant over the temptations of the lesser and lower nature, you must come to that place of Spiritual advantage where you have really and truly developed an actual interest in, and Love for, those higher and more idealistic forms of conduct which your mind is desirous of substituting for these lower and less idealistic habits of behavior that you recognize as temptation." Jesus Christ

Throughout the daily ups and downs of life, we wish to remember always to Love one another, because we are all One. We do not strive with our sister or brother, even with those who are not ready to receive this Wisdom. We display only mercy even to those who despitefully fear this Truth because what we wish to share with them concerning these Revelations will always unequivocally show us that what we give to anyone we perceive as being separate, outside ourself, or another, is actually received by ourselves.

We strive to show ourselves to be loyal citizens, upright artisans, honest, devoted, and caring kinsmen, understanding parents, and caring neighbors as well as sincere believers in the brotherhood of the Father's kingdom. If we choose to embark on this Journey, we would simply request that each and every one take a moment to reflect on this thought – *What do we have to lose?* Actually, we have everything to gain with this Certainty, to fully believe our Father's Spirit is with us in every moment, Now, this day, and forever. It begins to change our lives immediately and substantially only because we begin to change our thoughts toward ourselves, and then as a direct result, toward each other.

In order to enhance this communication with our Father and our brothers, We include thoughts such as this along the way. It is suggested if any of these prayers – invocations – meditations – agreements – declarations – worship, resonate within, we recommend as we do, for each of us to feel free to make them our own by changing the verbiage to reflect our own unique and constantly growing, evolving state of HeartMind. They are not necessarily fixed, they can grow as we grow, dynamically in each moment.

Dear Heavenly Father, our HeartMind is beating in Your Peace. That which surrounds us is all the life that You Created in Your Love. It calls to us in every heartbeat and in every breath, in every action and in every thought. Peace fills our HeartMind and floods our body with the merciful purpose of Forgiveness. Now our HeartMind is healed, and all we need to save the world is given us. Each heartbeat brings us Peace, each breath infuses us with strength. We are Your messengers, directed by Your Voice, sustained by You in Love, and held forever quiet and at Peace within Your Loving Arms. Each heartbeat calls Your Name, and every beat is answered by Your Voice, assuring us we are at Home In You. Now, this day, and forever. So Be It.

The truest prayer is in reality, a dynamic communion between each mortal human creature and Our Creator, by the offering of each individual's own unique and consecrated will to the absolute doing of the Will of God. True praying is the sincere and trusting communication of the Spiritual nature of the finite creature with the Anywhere Presence of the Spirit of The Creator.

The purpose for part of this is to not necessarily engage in philosophical speculation or to be overly concerned with precise terminology because we wish to keep our message simple by directing our HeartMinds to the Truth, through thinking with our Heart, rather than engaging in one of our favorite human pastimes of thinking with our human sensory ego intellect. We are concerned only with Vision, or, the correction of perception, what

is referred to as Atonement, or correction of error. We like to image the term and idea as At-One-Ment.

Along with great Wisdom there is much in the way of mortal creature perceptual error that occurs whenever we humans become involved in attempting to interpret the meaning of this Wisdom. It does not facilitate our Spiritual process by dwelling on, or even perceiving error.

The means of the At-One-Ment is Forgiveness, and learning the actual True meaning of Forgiveness which is apt to be distorted by human ego through being perceived as an unfair sacrifice of righteous wrath on our part, a gift unjustified and undeserved, and a complete denial of the Truth. This is a mandatory requirement to effectually deal with the manifold decisions that must be absolutely in alignment with Our Father's Will to actually facilitate our eternal careers.

This twisted view of what Forgiveness really means is easily corrected, when we can accept the fact that pardon is not asked for what is True. It must be limited to what is false. It is irrelevant to everything except egoic illusions. Truth is God's creation and to pardon that is meaningless. All Truth belongs to Him, reflects His laws and radiates His Love. Does this need pardon? How can we forgive the sinless and eternally benign? Once we accept this Truth as part of our mortal creature construct, the ego fades and can find little rationale to delude us further.

So there is a duty involved in the process of Forgiveness. First is to Truly forgive the person who said something or did something offensive to us, knowing that they did not know any better; and second, is that we forgive ourselves for reacting, because we did not know any better, and that we need to grow and learn to be more Loving.

Feeling offense is an energetic reaction of an un-evolved Spiritual being. We have work to do, is what the Universe says to us, when we feel angry at some situation or something that somebody said. It means that we are not yet ready to seek Truth by asking ourselves, who are we in the presence of this? What is this about in us? Why are we projecting this? Where do we need to grow? What do we need to see to become more completely full, mature and evolved, so that we do not become angry and feel the need to forgive someone else, rather than forgive ourselves and begin to evolve?

The feelings that we receive from others, whether it is anger, resentment, jealousy, envy, lust or hate, are all reactions within us of incompleteness. They are statements that say, we need to grow. And the more we live in negative emotional reactions is a statement to our life indicating that we

need to mature immensely, to grow greatly. As we grow in fullness of our Being, meaning the fullness of our capacity to Love, these negative egoic emotions will no longer pervade our being, but we will be enveloped and filled with Love and Forgiveness, forbearance, tolerance and patience, to name only a few. These are the areas to grow into. As we grow in these positive values and positive emotional reactions, we will have grown in Spirit, so that we will not be offended by our brethren saying something to us that we misperceive through our own judgment as being negative.

When we Truly forgive our brother or sister and ourselves, we cocreate a knowing that that instant will always remain in our memory. What is hoped for from our Destiny Guardians and our Spirit-Self is that as we fully and absolutely let it go, we also defuse the energy in the image that is held in memory, so that it becomes a neutral memory, a photograph negative without energy, there is no color to it, it is simply black and white, it is static, it does not move, it is simply a recording in our mind without energy. All too often, we tend to say, we forgive you, but we will not forget, which only means that we are ready and armed in the future for this brother or sister to act out again, and we therefore still hold negative energy about that.

In other words, we have perhaps intellectualized our illusory Forgiveness without really defusing the energy, and we are therefore, only intentionally attempting to protect ourselves from acting out, because we are reminding ourselves to hold this in memory, but believe we have forgiven it, yet are ready to pull the trigger on our unforgiveness in the future. Truly, if we say, we forgive you but we will remember this, and honestly believe that we will remember it, but do not hold any grudges or readiness to strike out in the future, then we will begin to live in a Spiritual reality that maximizes our capacity as a mortal of our world.

To forgive energetically means to neutralize a hostile or an unforgiving energy within ourselves. If we maintain an energy of loathing, hatred, animosity, regret or resentment, any of these negative memory energetic constructs in our being, then we must remove them. We can take on or request the presence of, and forgiving activity of the Christ within us. This is the request that we can make of Jesus. However, if we were to choose to forgive energetically, we would assume the Christness of Jesus within our own Being to forgive and remove that energy from our mind and from our body. The emotional, energetic supports for those memories would hence, be gone, we would have removed them. This is the step that precedes our assuming the Christ position, that of the Master, where when something is directed to us for which we would have to forgive, we, in this state of Being do not even accept this into our body or our mind. We cognize what this

person is saying, but do not have any negative investment concerning their action within us energetically, neither in our mind, nor thereby, in the body.

To forgive energetically is releasing all energy through our consciousness; we do this by becoming aware of ourself in a much deeper and complete level and depth, than we have heretofore. We become more aware of who we are as a unique, growing, developing and evolving Spiritual being. This requires us to sit in stillness daily and reflect upon ourselves as well as our feelings. And when we review a memory that is negative in nature, where we have a need to forgive, we would review this to see where it resides in our being. If we react in our body and our blood pressure goes up, our heartbeat increases, and we feel tense in our muscles, we must forgive this energetic memory in our body and release it to be at Peace. And though we may not choose to forget it, we carry no hostile feelings or energy about the memory of the incident that occurred. Forgiving energetically is a Truly thoroughgoing process of greater personal self-examination, without being analytical or without being linear. We become HeartMind-centered, we care for ourselves as Spiritually growing individuals to nurture ourselves with Fruits of Forgiveness, which are Love, patience, tolerance and forbearance as well as all the other wonderful attributes of a Christ personality. We do grow, so that we remove the negative, we do not allow the negative in our HeartMind-self. As we rise in our consciousness and our maturity, less and less of the exterior negative influences reside in our HeartMind-self nor do they manifest as disease in our body.

All Controversy Is Of The Human Ego

All terms are potentially controversial, depending solely upon our personal perception and those who seek controversy whether unconsciously or with full conscious awareness find it. Yet those who seek clarification without conflict, argument or controversy, but rather in harmony in full recognition of Connectedness in Unity, Oneness and Wholeness, will find it as well. We can also be willing to overlook controversy by recognizing that it is an ego defense against Truth in the form of an egoic delaying maneuver. All such perception of error is egoic. Similarly, human dogma, theological, religious or philosophical considerations as such, are always controversial as they depend on belief, and can therefore be accepted or rejected. Therefore, at this point in our planetary evolution, such universal theology is not feasible however, universal experience is not only possible, but in human reality, it is definitely necessary. It is entirely this mortal experience toward which these thoughts are directed. Here alone does consistency become possible because here alone uncertainty ends. We can choose to become aware in every moment of whether we are being guided by separation thoughts or by harmonious thoughts in Oneness and Unity.

All religions have arisen as a result of man's variable intellectual response to his identical Spiritual leading. They can never hope to attain a uniformity of creeds, dogmas and rituals. These are intellectual, but they can, and will someday, realize a Unity in true Worship of the Creator of All for this is very Spiritual and it is Forever True, in the Spirit, all humans are equal.

Jesus began his work with the poor, the very class which had been so neglected by most of the evolutionary religions of preceding times. He harbored no negativity toward any human, even toward those who openly proclaimed Him as their enemy. His plan was worldwide, even universal.

When in honest doubt about the equity and justice of material situations, we can choose to allow our decisions to favor those who are in need, and also favor those who suffer by their poor choices which lead to hardships, by our choosing to live an exemplary life with Empathy, Compassion and Love.

The idea of duty for example, signifies that we are servant-oriented and hence, are missing the mighty thrill of doing our service as a friend and for a friend. The impulse of friendship transcends all convictions of duty, and the service of a friend for a friend can never be called a sacrifice.

And we as the Bearers of the Light of Truth are in a very advantageous position now to bring a direct experience to our brethren. We only have to ask as each brother or sister is before us, Mother and Father, this is Your Child. Open my HeartMind and Soul so that I may implant them in their being with the magnitude of Your Love so they can receive from me what they need to grow. And it will be given to us each and every time we remember to ask.

Understanding The Value Of Different Aspects of Self

We must open for discussion here that which is regarding our different aspects of self and our attempt to define and delineate these composite parts into their distinct categories that we may better begin to understand the difference between what we refer to as our Indwelling I AM Presence through our HeartMind, our ego, and our Soul. These distinctions are perhaps the human creature's greatest challenge, not only to define and distinguish, but also to control, balance and even master, that which we know is at any given time chosen and given latitude and brought to the fore.

In our attempts to describe these distinct and different components of the material human self, it is necessary to use words which provide us with a

meaningful sense of contrast to allow us to feel as though we can identify such aspects, and to become as fully aware of them as possible so that we can maintain symmetry and balance within our Being. And so, as with the use of any language, there is inherent discernment carried with definitions and denominations that are implied when using terms as higher, lower, as base and Divine, animal and Spirit. In our current phase of evolution we are all about reaching for higher, better, more Divine Principles, and it is quite natural to then assign those components of self which are less than these qualities, a term which grows to imply inferior or less or wrong somehow. We should allow the encouragement of our Celestial Teachers to monitor our completely human observation of these terms so as to not overlay any negative connotations on our efforts to simply define and distinguish. As was mentioned, if all these aspects were not necessary and part of our Divine Composition, they would not have been given to us.

The Father has all aspects included in our composition and does not refer to any one as unnecessary or inferior or inappropriate somehow. For instance, we may refer to the aspect of ego and declare that it is in direct contrast to the higher mind and therefore needs to be dominated and perhaps even eliminated. This would be an inaccurate assessment of the value contained in such an element as we refer to as the ego. The part of us thus referred to is quite a necessary component in our current material experience. If it were not for our ego and its attempt at self-preservation, we would not be here, as our ancestors would have been killed off because of their passive natures.

Our ego is a useful tool for propelling us forward and moving us to action, although it is quite true that there needs to be balance between our various components so as to bring into serviceability each aspect. If they are left without direction, any one aspect could cause a dangerous out of balance situation which would almost assuredly be unhealthy. We are living in a material realm and therefore our ties to our material existence serve us well. However, we are encountering the reality before us that there are other components of the self which are desiring to move us ever in a more Spiritual direction. Our Soul is, of course, eternal and only encapsulated temporarily in our present physical combination of atoms and as such, is destined to transcend and travel beyond this material existence.

Ironically enough it is our ego that comes into play which we may use to motivate us to pursue Spiritual avenues of pursuit, and therefore our material component can be an assistant to our Spiritual component. The goal is that there not be struggle between the various aspects of self. The goal is that there is harmony and balance and that the various components of self may be as a musical chord, complementary to each other, not as in

discord where one of the elements is out of synch or out of tune with the others. We should bless this diverse nature that we enjoy, and, while it is good to make attempts to identify the distinct aspects, the larger goal will be to unify the different aspects of ourselves.

Our ego is more accurately termed our driving force. We have the Gift of personality but personality may need a driving force before it is expressed and there is this force we refer to as the ego, because this force may be used for any purpose, to pursue Goodness and Beauty or to pursue those things which are not. Therefore we have witnessed ego traveling in both directions. It makes good people very good and it makes people with ill intentions sometimes extreme. It is the same driving force when used in either direction.

Our personality and our free will is what we use to choose the direction of this implementation of the driving force we call ego, and so it may well be considered our most valuable tool and asset, and therefore should not be considered as faulty, or shunned in any way. It is an aspect of us, a viable and valuable component and like other components of our being it may need to be brought under our control more mindfully and more consciously through ongoing awareness in every moment. It is no different than many other tools, we must choose how to use it, how much to use it, when not to use it, and how to be vigilant for its negative influence, also when to ask for and accept its influence when we need the courage to go on, the strength to pursue, the drive to move forward. These are what we get from that part of our driving force that may be used to propel the creative aspects of the personality and express them in time and space.

It is hoped a perspective such as this will assist us to become compatible with all our distinct, different and valuable components or aspects of being because they would not be part of us if they were not intended to assist us as part of our Soulular Ascension Plan. We must figure that all parts work for the eventual good of the Whole and that we would not be given such a thing as an ego if we did not need at times a driving force to propel us in our desires. So it is not to overcome or disregard, it is to fully accept the partnership and work with all the aspects of it for its strength and be ever mindful in every moment of its limitations.

This teasing out of the different parts of ourselves may be useful in terms of structuring our awareness and understanding, and it is respectfully requested that this dialogue will bring us a better understanding of the need to work together with all the aspects of the self and not be at odds with any of those aspects of our human nature. Some humans even tend

to scorn their animal creature side, and wish that they did not have that component to their being, and yet this should be a cherished part of our growth and continuing development which can only be experienced here and Now in this remote physical corporeal existence within time and space.

Our Ministry is currently involved in the world wide process of establishing Sustainability in every facet of our cultural experience through recognition of the absolute equality of every man, woman and child planetary wide, no matter how they are choosing to manifest their Soul's learning experience on this plane of existence. This is in perfect alignment with the acceptance that each and every individual deserves an equal quality of life along with every other in Oneness, Wholeness and Unity. And that Equal Growth and Educational opportunities be made available for all who seek them in their human journey. All of these states of Being can be attained along with Planetary Peace by each individual choosing to manifest Love, Empathy and Compassion toward all brothers and sisters in every moment. All of this is encompassed within the Great Circle of Life that we are all intimately interconnected with.

SECOND THOUGHT

We Are Spiritual Beings In A Physical Human Embodiment

Our creative Parent, who is in the center of the universe, bestow upon us Your nature and give to us Your character. Make us sons and daughters of Yours by Grace and Glorify Your Name through our eternal achievement. Your adjusting and guiding Spirit give to live and dwell within us that we may do Your Will on this sphere as angels do your bidding in Light. Sustain us this day in our progress along the path of Truth. Deliver us from inertia, evil, and all sinful transgression. Be patient with us as we show loving-kindness to our fellows. Shed abroad the Spirit of Your Mercy in our creature hearts. Lead us by Your Own Hand, step by step, through the uncertain maze of life, and when our mortal end shall come, receive into Your Own Bosom our Faithful Spirits. Even so, not our desires but Your Will Be Done.

Here is invaluable assistance for those who are genuinely determined to discover the whole new reality of Life that is the Eternal Love of God.

There is a way of living in the world that is not here, although it seems to be. We do not change appearance, though we smile much more frequently. Our forehead is serene, our eyes are quiet. And the ones who walk the world as we do recognize our own. Yet those who have not yet perceived the way will recognize us also, and believe that we are like them, as we were before.

We are all inherently teachers students of God when we come to our Father endowed learning experience on this mortal plane. A minister messenger of God's Truth is anyone who consciously chooses to be one. The only qualification is that somehow, somewhere, these individuals make a willing deliberate choice in which they do not see their personal interests as apart from some other entities. Once that has taken place, the path is readily established and the direction is sure.

To teach is to learn and to demonstrate, and the teacher and learner are the same. We will show in this Second Thought how this is true. There are only two thought systems – God's Truth and the human ego – and we demonstrate by our thoughts which engender the results by our perception and projection of that which we believe is true in any given moment.

What we desire we will see. Such is the real Law of Cause and Effect as it operates in the material world.

It is completely up to each of us to individually clear and choose to change our own minds. Much of this can be accomplished by fully realizing that we cannot perceive reality through our senses and that our material minds are incapable of engendering Vision or aligning with the Will of Our Father who is Love and Truth beyond our knowing. We waste a lot of time just by believing that our human sensory cerebral egoically conditioned and fear-based minds are capable of resolving the issues and disruptions that we are constantly challenged with, that continually confront us on this material human creature plane of existence. Until we fully realize there is no real hope for that to happen, we will continue to fall prey to our ego, thereby, effectively disempowering and imprisoning ourselves.

Our only real challenge is remaining cognizant in every moment that our ego is fully operative with any perception and projection of judgment, fear, comparison, attack, or grievance of any kind, and is absolutely capable of convincing us that any and all of this is fully justified on our part. Our ego is aware of what is in our unconscious and we are not, unless we learn how to discern such by realizing that any thought we have, whether positive or negative will readily appear before us in the guise of what we continue to look upon as another individual who we perceive to be separate from us. This is how we project our perceptions of what we are thinking consciously or unconsciously in any given moment. If we do not like what we see with our physical senses, our only viable option is to change our own thoughts.

We must first appreciate what our ego is. Spirit does not identify ego in the same fashion as we do. Spirit recognizes that everyone has an ego, a persona. Is it the ego of self-aggrandizement or the ego of the groveling self who feels so inferior to everyone else? Both positions are inadequate, neither position gives us the presence of being that we actually are. These are façades, illusory, and are something that we learn to discard eventually, to become who we really are. Our persona is something that we will always continue to have throughout our human life. In fact, until our fusion, we will continue to be challenged with our ego-self. When we are fused with our Spirit-Self there will come that moment when there is no equivocation with choosing to do what the little-self says, or the over embellished-self wishes to do. At that moment we will be in concert with God, and our thoughts will be one with God, and we will make choices appropriate for our continued growth.

We have to be willing to realize that what our little-self perceives through human perception is the projection of our own errors of thought and let them go rather than attempt to understand them, or continue to blame others or anything outside of ourselves, in order to allow the perception of

the Truth of what can be seen and understood and Loved through the Vision of Christ.

At this point, we would like to put forth the question, what if we all had a fragment or particle of God within us? If we can imagine the possibility of this, but we experience difficulty in hearing the Spiritual wisdom through ongoing communication with this Beloved Spirit-Self, can we will to allow ourselves the Faith, Trust, and Certainty in the Infinite Love of our Father to open the door no matter how long it takes?

Let us consider further the possibility that unless we are able to express the willingness to do this over the objections of our ego, even God our Father will not override or violate in any way, our free-will choice. Once we establish communication with our Spirit-Self, we begin to understand the meaning of the statement. With God all things are possible. We also get the extreme human challenges along the way by realizing that all things are really possible only to the level that the creative imagination of each and every one of us is willing and capable of accepting and allowing. We can greatly enhance this process by not attacking our ego, but by patiently attempting to teach it how its thoughtforms have arisen.

Father, because I fully realize that my self is my only real enemy, and that self is manifested as my ego in fear, I will to realize my greatest human victory through teaching my ego how its thoughtforms have arisen by willing myself completely Father, Into Your Loving Grace, Light, And Holiness, and Commending My Soul and Personality, Solely, Willingly, And Completely to Your Will in order to enable my Spirit-Self to expose and silence the Spiritually negative egoistic predilections of my physical mind, thus strengthening and enhancing my Faith through the absence of fear.

We must be willing to fully accept that any environment that is fraught with and overwhelmed by, strife, pain, grief, disaster, disease, age, and death, is illusory and therefore meaningless, and cannot be real unless we choose to value it. And if we, by our thoughts, choose to see any of this as reality we must be willing to admit that we value it at some level, and begin to change our thoughts if we wish to expose it as the altogether meaningless miscreation it is.

With our willingness and determination to See, we will enhance our present capabilities of looking upon the witnesses that show us the thinking of the world is changing. We will behold the proof that what is being positively accomplished through us is enabling Love to replace fear, abundance to replace loss, and laughter to replace tears, thereby also achieving in every moment, human Happiness, Joy, and Peace.

God did not create a meaningless world, or from another perspective, how can a meaningless world exist if God did not create it? Our Creator is the source of all meaning, and everything that is real is in God's Mind. It is in our mind too because he created it with us. Whatever we see reflects our thoughts. So it would greatly enhance the effects of Our Spirit-Self's True transforming actions, if we would be willing to train our minds to be aware of this in every moment, and begin to see the Truth, Beauty, and Goodness in every moment that is aligned with Our Father's Will. Anything that does not contain All of these three, does not come from God. We can then make the choice to change our thoughts to look upon the Real world and let this begin to show us that our will and the Will of God are one.

Our ego believes it is doing battle with the Spirit-Self and/or the Soul. But it is really only attempting to attack another level of itself while it continues to learn, albeit in complete confusion. Neither the Spirit-Self nor the Soul engage in battle nor align with anything but Our Father's Truth. Spiritual energy does not engage with the ego, which is simply illusory to them. All Spiritual Beings know exactly Who and What They Are.

So we begin with what may make no sense to the material human mind or the ego. We gratefully interject a few prayers throughout for reflection.

Nothing We See Means Anything. The reason this is so is that we see nothing, and nothing has no meaning. It is necessary that we recognize this, that we may learn to see. What we think we see now is taking the place of Vision. We must let it go by realizing it has no meaning, so that Vision may take its place.

Inner creativity contributes to ennoblement of character through selfhood unification and personality integration. It is forever true, the past is always just a lesson to learn, and only the future can be changed by the ministry of the present creativity of the inner self, which can be greatly enhanced by fully forgiving ourselves, while allowing Love to return to our thoughts and awareness in order to perceive a world of Peace and safety and Joy, thus witnessing that this is what we would choose to see Now, rather than what we heretofore have looked upon. When we forgive ourselves completely, we realize that we have also let go of all guilt, shame, blame, and right or wrong. How much easier does that make our lives?

We Have Given What We See All The Meaning It Has For Us... We have judged everything we look upon, and it is this and only this we see. This is not Vision. It is an illusion of reality, as our judgments have been made quite apart from reality. We are willing to recognize a lack of validity in our

judgments, because we want to see. Our judgments have hurt us, and we will no longer see according to them.

Only the human ego is capable of seeing error, judgment, and comparison. Although much of this is unconscious on our part, we must train our minds to discern the difference in every moment, with full awareness that our ego never sleeps. When we choose to allow the perception and projection of the fears of our ego, we cannot be aligned with the Will of God.

We Do Not Understand Anything We See. How can we understand what we see when we have judged it amiss? What we see is the projection of our own errors of thought. We do not understand what we see because it is not understandable. There is no sense in trying to understand it. But there is every reason to let it go, and make room for what can be seen and Loved and understood. We can exchange what we see Now for this only by being willing to do so. Is this not a better choice than the one we made before?

We must consciously choose to Change Our Hearts and Minds. The True pattern of temporal civilization is the mirror reflection of the eternal order of heaven. The Heart has no true desire to perpetuate miscreated illusions and so our prayers will be answered when we begin to know our own True HeartMinds, for it is only through our HeartMinds that communion with Our Father can clarify the dimensions of higher consciousness within our open and Conscious HeartMinds and they are exemplified by Love, unity, honor of life, respect, kindness, full integrity, and Spiritual justice. Within our True HeartMind our Essential Being knows no separation between Itself and Our Father's Will. There is no boundary within our Soul between us, the effect, and Our Father, the cause, thus are we aligned with God's infinite Truth. Cause and Effect are one and the same.

This is obviously not what we see in our world in this Now with our mind-set and collective contemporary perception, which virtually ignores our HeartMind and therefore, our human potential of Wholeheartedness.

Our Father, Who is in Paradise, Holy is Your Name. Your Kingdom come, Your Will be done, on Urantia, as it is in Havona. Give to us this day our Sustainable sustenance from Universal Substance, refresh our Souls with the Water of Life. And forgive us everyone our perceived grievance, as we also have forgiven those who have perceived grievance toward us. Show us how to save ourselves in temptation, deliver us from uselessness and unbelief, and increasingly, enable us to become more Perfect Like Yourself.

The imitation of God is the key to perfection, the doing of His Will is the secret of survival and of perfection in survival. This is a contemporary

variation of the Lord's Prayer that was given to us by Joshua ben Joseph, Jesus of Nazareth. It is interesting to note that the last phrase of The Lord's Prayer has been deleted in the contemporary rendition of His teaching. Our Father created us in His Image and Likeness. How could He wish us to become anything other than Perfect Like Himself?

These Thoughts Do Not Mean Anything. The thoughts of which we are aware do not mean anything because we are attempting to think without God. What we call our thoughts are not our real thoughts. Our real thoughts are the thoughts we think with God. We are not aware of them because we have made our thoughts to take their place. We must be willing to cognize that our thoughts do not mean anything, and to let them go, and choose to have them be replaced by what they were intended to replace. Our mortal thoughts are meaningless, but all creation lies in the thoughts we think with God.

It takes great human courage to be willing to accept that our entire way of being in this world has been heretofore meaningless. And it takes even greater courage to accept a new thought system based entirely on Faith, Trust, and Certainty, which is impossible to perceive with the slightest degree of human understanding. Faith is the total absence of fear.

We Are Never Upset For The Reason We Think. We are never upset for the reason we think because we are constantly trying to justify our thoughts. We are constantly trying to make them true. We make all things enemies, so that our anger is justified and our attacks are warranted. We have not realized how much we have misused everything we see by assigning this role to it. We have done this to defend a thought system that has hurt us, and that we no longer want. We must be willing to let it go.

Many of the temporal troubles of mortal humans grow out of our twofold relation to the cosmos. Humans are a part of nature, we exist in nature, and yet we are able to transcend nature. Man is finite, but we are indwelt by a Spark of Infinity. Such a dual situation not only provides the potential for mortal uselessness, but also engenders many social and moral situations fraught with much uncertainty and not a little anxiety, so it is absolutely up to us to learn how to recognize those thoughts that are completely illusory because they separate us from our brothers and sisters, and from the Truth and Oneness of Our Father.

We Are Upset Because We See What Is Not There. Reality is never actually frightening. It is impossible that it could upset us. Reality brings with it only perfect Peace. When we are upset, it is always because we replaced reality with illusions we made up. The illusions are upsetting because we

have given them reality, and thus regard reality as an illusion. Nothing in God's creation is affected in any way by this confusion of ours. We are always upset by nothing.

Since our inner life is truly creative, there rests upon each of us complete and absolute responsibility for choosing as to whether this creativity shall be spontaneous and wholly haphazard or shall be monitored, directed, and constructive. How can a creative imagination produce worthy children if the stage whereon it functions is already preoccupied by prejudice, hate, fears, resentments, revenge, and bigotries?

Could we start by changing our own thoughts? Have we not already, with our continuous specious perceptions and projections attempted to change everyone and everything else to no avail? What if it all begins and ends with us?

Angels of God our Destiny Guardians dear, to whom our Father's Love and our Love commits you here, ever this day, be at our side, to Light, to Guide, to Love, and Abide. Now, this day, and forever. So Be It.

We See Only The Past. As we look about, we condemn the world we look upon. We call this seeing. We attempt to hold the past against everyone and everything, making them our enemies. When we have Truly forgiven ourselves and remembered who we are, we will bless all, and everything we see. There will be no past, and therefore no enemies. And we will look with Love on all that we failed to see before.

What time but Now can Truth be recognized? The present is the only time there is. And so today, this instant, Now, we come to look upon what is forever here, not in our sight, but in the eyes of Christ. He looks past time, and sees eternity as represented here. He hears the sounds the senseless, busy world engenders, yet He hears them faintly. For beyond them all He hears the song of Heaven, and the Voice for God more clear, more clearly meaningful, more near.

Our Mind Is Preoccupied With Past Thoughts. We see only our own past thoughts, and our mind is preoccupied with the past. What then, can we see as it is? Let us remember that we look on the past to prevent the Now, Present, from dawning on our mind. Let us understand that we are trying to use time against God. Let us learn to give the past away, realizing that in so doing, we are giving up nothing.

Yet we have wasted many, many years on just this foolish thought. The past is gone with all its fantasies. These thoughts keep us bound no

longer. The approach to God is near. However, in the little interval of doubt which still remains, we may still perhaps lose sight of our Divine Companion, and mistake Him for the senseless, ancient dream that Now is past. Have no fear, we can no longer remain for very long in that illusory state of human miscreation, because we Now know we can choose to fully change our ideas and thoughts, and thus, begin to change our reality in any given moment.

We See Nothing As It Is Now. If we see nothing as it is Now, it can truly be said that we see nothing. We can see only what is Now. The choice is not whether to see the past or the present, the choice is whether to see or not. What we have chosen to see has cost us vision. Now we would choose again, that we might see. Truly, eye has not seen, nor ear heard, neither has it entered into the mind of mortal man, the things which the Universal Father has prepared for all those who survive the life in the flesh on the worlds of time and space. Christ gives us His Sight and Hears for us, and answers in our name the Call He Hears! How quiet is the time we give to spend with Him beyond the world. How easily are all our seeming sins forgot, and all our sorrows unremembered. On this day is grief laid by, for sights and sounds that come from nearer than the world are clear to us who will today accept the Gifts He gives.

There is a silence into which the world can not intrude. There is an ancient Peace we carry in our Heart and have not lost. There is a sense of Holiness in us the thought of sin has never touched.

Our Thoughts Do Not Mean Anything. We have no private thoughts. Yet, it is only private thoughts of which we are aware. What can these thoughts mean? They do not exist, and so they mean nothing. Yet our HeartMind is part of creation and part of its Creator. Would we not rather join with the thinking of the universe than to obscure all that is really ours with our ego conditioned fear-based meaningless private thoughts?

What makes this world seem real except our own denial of the Truth that lies beyond? What except our thoughts of misery and death obscure the perfect happiness and the eternal life our Father Wills for us? And what could hide what cannot be concealed except illusion? What could keep from us what we already have, except our choice to see it not, denying it is there?

The Stillness of Your Peace is ours Father, and nothing can intrude upon Your Peace that You have given to us Your Daughters and Sons. Now, this day, and Forever. So Be It.

Our Meaningless Thoughts Are Showing Us A Meaningless World. Since the thoughts of which we are aware do not mean anything, the world that pictures them can have no meaning. What is producing this world is indeed insane, and so is what it produces. Reality is not insane, and we have real thoughts as well as insane ones. We can therefore choose to see a Real world, if we look to our Real thoughts as our guide for seeing.

The Thought of God created us. It never left us, nor have we ever been apart from It an instant. It belongs to us. By It we live. It is our Source of life, holding us One with It, and everything is One with us because It left us not. The Thought of God protects us, cares for us, makes soft our resting place and smooths our way, lighting our HeartMind with happiness and Love. Eternity and everlasting life shine in our HeartMind, as the Thought of God has never left us, and will always abide with us. These are our Real ideas and thoughts. If we can maintain them, we will never feel upset.

We Are Upset Because We See A Meaningless World. Insane thoughts are upsetting. They produce a world in which there is no order anywhere. And only chaos rules a world that represents chaotic thinking, and chaos has no laws. We cannot live in Peace in such a world. We are grateful that this world is not real, and that we need not see it at all unless we choose to value it. And we do not choose to value what is totally insane and has no meaning.

All things are given us. God's Trust in us is limitless. He knows His Sons and Daughters. He gives without exception, holding nothing back that can contribute to our happiness. And yet, unless our will is one with His, His gifts are not received. And what would make us think there is another will than His?

A Meaningless World Engenders Fear. The totally insane engenders fear because it is completely undependable, and offers no grounds for Trust. Nothing in madness is dependable. It holds out no safety and no hope. But such a world is not real. We have given it the illusion of reality, and have suffered from our belief in it. Now we choose to withdraw this belief, and place our Trust in Reality. In choosing this, we will escape all effects of the world of fear, because we are acknowledging that it does not exist.

Here is the paradox that underlies the making of the world. This world we see is not the Will of God, and so it is not real. Yet those who think it real must still believe there is another will, and one that leads to other effects that are different from those God Wills. Impossible indeed, but every human mortal creature mind with an ego that looks upon the world and

judges it as solid, certain, trustworthy, and true, believes in either two creators, or in her or himself alone, but not in One God.

It is only the mortal human creature ego that believes we are separate from one another, and this mistake diverts our free-will choice to thus disallow alignment with the Will of God. We are all connected as One Mind because we are all Children of Our Father.

God Did Not Create A Meaningless World. How can a meaningless world exist if God did not create it? He is the source of all meaning, and therefore everything that is real is in His Mind. It is in our HeartMind too, because He created it with us. Why should we continue to suffer from the effects of our egoic insane fear conditioned thoughts, when the Perfection of Creation is our home? Let us remember the power of our decision, and thus recognize where we really abide.

The Gifts of God are not acceptable to anyone who holds the strange belief that to accept His Gifts, however evident they may become, however the urgency in which we may be called to claim them as our own, we believe we are being pressed to treachery against ourselves, and so, we must deny their Presence, contradict the Truth, and suffer to preserve the world we made. Again, our free-will is honored and respected by all Celestial Beings. To change our world, we can only change our thoughts and perceptions.

Our Thoughts Are Images That We Have Made. Whatever we see reflects our thoughts. It is our thoughts that tell us where we are and what we are. The fact that we see a world in which there is loss and suffering and death shows us that we are seeing only a representation of our insane thoughts, and are not allowing our real thoughts to cast their beneficent Light upon what we see. Yet God's way is sure. The images we have made cannot prevail against Him because it is not our will that they do so. Our will is His, and we will place no other gods before Him.

Help us to use the eyes of Christ today, and thus allow Spirit-Self and Holy Spirit's Love to Bless all things that we may look upon, that Their Forgiving Love may rest on us.

Our ancient fear has come upon us now, and justice has caught up with us at last. Human evolution has brought us to this point where we perceive a greater Truth and begin to allow Christ's hand to touch our shoulder. We then begin to feel and understand that we are not alone. We even begin to think the miserable self we thought was us may not really be our Identity.

Perhaps God's Word is Truer than our own. Could His gifts to us then be real? Is it possible that He has not wholly been outwitted by our egoistic human mortal creature plan to keep His Son in deep oblivion, by perceiving we were separate from one another, and thus go the way we chose without our Real Self?

We Have No Neutral Thoughts. Neutral thoughts are impossible because all thoughts have power. They will either make a false world or lead us to the real one. But thoughts cannot be without effects. As the world we see arises from our thinking errors, so will the real world rise before our eyes as we let our errors be corrected. Our thoughts cannot be either true or false. They must be one or the other. What we see shows us what they are.

Here is the only home we think we know. Here is the only safety we believe that we can find. Without the world we made we are outcasts, homeless and afraid. We do not realize that it is here we are afraid indeed, as well as homeless, outcasts wandering so far from home, so long away, we do not realize we have forgotten where we came from, where we go, and even who we really are.

We must be willing to fully accept that any environment that is completely overwhelmed with strife, pain, grief, disaster, disease, age, and death, is false, therefore meaningless and cannot be real unless we choose to value it. And if we by our thoughts choose to see this as reality we must value it at some level.

We See No Neutral Things. What we see witnesses to what we think. If we did not think, we would not exist, because life is thought. Let us look on the world we see as the representation of our own state of HeartMind. We know that our state of HeartMind can change. And so we also know the world we perceive can change as well.

With our willingness and determination to See, we will enhance our human capabilities of looking upon the witnesses that show us the thinking of the world is changing. We will behold the proof that what is Now accomplished through us is enabling Love to replace fear, laughter to replace tears, and abundance to replace loss, thereby to achieve in every moment, human Joy as well as Happiness and Peace.

We Are Not Alone In Experiencing The Effects Of Our Seeing. If we have no private thoughts, we cannot see a private world. Even the mad idea of our perceived separation had to be shared before it could form the basis of the world we see. Yet that sharing was a sharing of illusion. We can also call

upon our Real thoughts, which share everything with everyone. As our thoughts of separation call to the separation thoughts of others so our Real thoughts can awaken the Real thoughts in them. And a world our Real thoughts show us can dawn on their sight as well as ours.

Yet He reminds us still of one thing more we might have forgotten. For His touch on us has made us like Himself. The Gifts we received are not for us alone. What He has come to offer us, we Now must learn to give. This is the lesson that His giving holds, for He has saved us from the solitude we sought to make in which to hide from God. He has reminded us of all the Gifts that God has given us. He speaks as well of what becomes our will when we accept these Gifts, and recognize they are our own.

The Gifts are ours, entrusted to our care, to give to all who chose the lonely road we have escaped. They do not understand that they only pursue their own desires. It is we who exemplify for them Now. For we are learning of Christ that there is another way for us to walk.

Our thoughts, our eyes, our tongue, our hands, our feet today have just one purpose, to be given Christ to use to bless the world with miracles.

We Are Not Alone In Experiencing The Effects Of Our Thoughts. We are alone in nothing. Everything we think or say or do reaches all the universe. A Son of God cannot think or speak or act in vain. We cannot be alone in anything. It is therefore in our power to change every HeartMind along with ours, for ours is Now humbly aligned in gratitude with the power of God.

Grace is an aspect of the Love of God which is most like the state which is prevailing in the Unity of Truth. It is the world's most lofty aspiration, for it leads beyond the world entirely. It is past learning, yet, it is the goal of all learning, for Grace cannot come until the HeartMind prepares itself for its acceptance. Grace becomes inevitable instantly in those who have freely willed to prepare an altar where it can be gently laid and willingly received, an altar clean and Holy for the Gift.

Grace is acceptance of the Love of God within a world of seeming hate and fear. By Grace alone the hate and fear are gone, for Grace presents a state so opposite to everything the world contains, that those whose HeartMinds are Lighted by the Gift of Grace cannot believe the world of fear is real. An open HeartMind can hear the Call to awaken. It is not shut egoically against God's Voice. It has become aware that there are things it does not know, and thus is ready to accept a state completely different from experience with which it is familiarly at home. The True advances of civilization are all

born in the inner world of humankind. It is only the inner life that is Truly creative. The inner and the outer worlds have a different set of values.

We Are Determined To See. Recognizing the shared nature of our thoughts, we are determined to see. We would look upon the witnesses that show us the thinking of the world has been changed. We would behold the proof that what has been done through us has enabled laughter to replace tears, Love to replace fear, and abundance to replace loss. We would look upon the Real world, and let it teach us that our will and the Will of God are one.

Inner creativity contributes to ennoblement of character through thorough personality integration and selfhood unification. It is forever true, The past is a learning experience, only the future can be changed by the ministry of the present creativity of the inner self, which can be greatly enhanced when we forgive ourselves completely to allow Love to return to our awareness through our HeartMind thoughts and feelings in order to perceive a world of Peace, Love and Joy, thus witnessing that this is what we would choose to see Now, rather than what we heretofore have looked upon.

We Are Determined To See Things Differently. What we see Now are signs of disease, disaster and death. This cannot be what God created for His Beloved Children. The very fact that we see such things is proof that we do not understand God. Therefore, we also do not understand His Children. What we see tells us that we do not know who we are. We are determined to see the witnesses to the Truth in us, rather than those which show us specious illusions of ourselves.

We do not know the thing we are, and therefore do not know what we are doing, where we are, or how to look upon this world, or on ourselves. God is our Strength, Vision Is His Gift. Above All Else, we are determined to See by setting aside and letting go of all perceived and projected imaginary and illusory grievance and all ego, and placing ourselves solely, willingly, and completely in our Father's Loving Grace and Light. Our senses only seek to witness in every moment that which is perfectly aligned in every moment with Our Creator's Light.

What We See Is A Form Of Vengeance. The world we perceive is hardly the representation of Loving thoughts. It is a picture of attack on everything by everything. It is anything but a reflection of the Love of God and the Love of His Children. It is our own attack and defensive thoughts that give rise to this picture. Our Loving thoughts will save us from this perception of the world, and give us the Peace God intended us to have.

How thoroughly insane is the idea that to defend from fear is to attack. For here is fear begotten and fed with blood, to make it grow and swell and rage. And thus is fear protected, not escaped. Today we learn a lesson which can save us more delay and needless misery than we can possibly imagine. We make what we defend against, and by our own attempts to defend against it, we make it real and inescapable. We can choose to lay down our arms, and only then do we perceive it as the illusion it really is. It seems to be the enemy without that we attack. Yet our defense sets up an enemy within, an alien perceived by our own thoughts to be at war with us, and thus, we deprive ourselves of Peace. We are our only real enemy.

Our Attack Thoughts Are Attacking Our Invulnerability. How can we know who we are when we see ourselves as under constant attack? Pain, illness, loss, age and death seem to threaten us. All our hopes and wishes and plans appear to be at the mercy of a world we cannot control. Yet perfect security and complete fulfillment are our inheritance. We have tried to give our inheritance away in exchange for the world we see. But God has kept our inheritance safe for us. Our own real thoughts will teach us what it is.

Father, Your Way is what we choose today. Where You would lead us do we choose to go. What You would have us do, we choose to do. Your Way is certain and the end secure. The memory of You awaits us there, and all our sorrows end in Your Embrace, which You have promised to us Your Son who thought mistakenly that we had wandered from the sure safety and protection of Your Loving Arms.

The True pattern of temporal civilization is the mirror reflection of the eternal order of Heaven.

We Can Escape From This World By Giving Up Attack Thoughts. Herein lies Salvation, and nowhere else. Without attack thoughts we could not see a world of attack. As Forgiveness allows Love to return to our awareness, we will see a world of Peace and safety and Joy. And it is this we choose to see, in place of what we look on Now.

No one attacks without intent to hurt. This can have no exception. When we think that we attack in self-defense, we suggest that to be cruel is okay for protection, we are safe because of cruelty. We mean that we believe to hurt another brings us freedom. And we mean that to attack is to exchange the state in which we are in for something better, safer, and more secure from dangerous invasion and from fear. This is not Spiritual thinking.

We Do Not Perceive Our Own Best Interests. How could we recognize our own best interests when we do not know who we are? What we think are our best interests would bind us closer to the world of illusions. We are willing to follow the Guide God has given us to find out what our own best interests are, recognizing that we cannot perceive them by ourselves.

We think that death is of the body. Yet it is but an idea, irrelevant to what is seen as physical. A thought is in the mind. It can be then applied as our will directs it. But its origin is where it must be changed, if change does occur.

Ideas leave not their source. The emphasis this revelation has placed on that idea is due to its centrality in Our Father's Loving attempts to change our HeartMinds about ourselves. It is the reason we can heal. It is the True cause of healing. It is why we can choose eternal life. Its Truth established us as One with God.

We Do Not Know What Anything Is For. To us, the purpose of everything is to prove that our illusions about ourselves are real. It is for this purpose that we attempt to use everyone and everything. It is this alone that we believe the world is for. Therefore, we do not recognize its real purpose. The purpose we have given the world has led to a frightening picture of it. Let us open our HeartMind to the world's real purpose by withdrawing the one we have given it, and learning the Truth about it.

The human mind can think it sleeps, but that is all. It cannot change what is its waking state. It cannot make a body, nor abide within a body. What is alien to the mind does not exist, because it has no source. For HeartMind cocreates all things that are, and cannot give them attributes it lacks, nor change its own eternal, mindful state. It cannot make the physical. What seems to die is only the sign of mind asleep.

We, the human race can choose to become reconciled to a procession of changes, adjustments, and readjustments. Humankind is on the march toward a new and unknown planetary destiny which will begin to reflect Paradise.

Death is the thought that we are separate from our Creator. It is the belief that conditions change, emotions alternate because of causes we cannot control, we did not make, and we can never change. It is the fixed and false belief ideas can leave their source, and take on qualities the source does not contain, becoming different from their own origin, apart from it in kind as well as distance, time and form. This is not so.

What seems to be the opposite of life is merely sleeping. When the mind elects to be what it is not, and to assume an alien power which it does not have, a foreign state it cannot enter, or a false condition not within its Source, it merely seems to go to sleep awhile. It dreams of time; a human interval in which what seems to happen never has occurred, the changes wrought are substanceless, and all events are nowhere. When the mind awakes, it simply continues as it always was.

When we are healed, we are not healed alone. And we would share our healing with the world, that sickness may be banished from the mind of God's one Son who is our only Self.

Above All Else We Want To See. Recognizing that what we see reflects what we think we are, we realize that Vision is our greatest need. The world we see attests to the fearful nature of the self-image we have made. If we would remember Who We Are, it will become essential that we let this egoic specious image of ourselves go. As it is replaced by Truth, we will begin to look upon the world and on ourselves with Charity and Love.

God creates only mind awake. He does not sleep, and His creations cannot share what He gives nor make conditions which He does not share with them. God is Life! The thought of death is not actually opposite to a Real thought of Life. The physical body is merely set aside when we choose to stop learning on this plane of existence, and translate or transition to the next.

Forever unopposed by opposites of any kind, the Thoughts of God remain forever changeless, with the power to extend forever changelessly, but yet within themselves, for they are everywhere. Our immortal ascending Soul, personality, and Spiritual mind is the True Daughter or Son created by Our Father in His Love.

Above All Else We Want To See Differently. The world we see holds our fearful self-image in place, and guarantees its continuance. While we see the world as we choose to perceive it Now, Truth cannot enter within our HeartMind awareness. We would let the door behind this world be opened for us, that we may look past it to the world that reflects the Love of God.

Let us today be children of the Truth, and not deny our holy heritage. Our life is not as we imagine it. Who changes life because we shut our eyes, or make ourselves what we are not because we sleep, and see in dreams an opposite to what we are? We will not ask for death in any form today. Nor will we let imagined opposites to life abide even an instant where the True Thought of life eternal has been set by God Himself.

God Is In Everything We See. Behind every image we have made, the Truth remains unchanged. Behind every veil we have drawn across the face of Love, its Light remains undimmed. Beyond all our insane wishes is our will, united with the Will of Our Father. God is still everywhere and in all things forever. And we who are part of Him would yet look past all human appearances, and recognize the Truth beyond them all.

His Holy Home we strive to keep today as He established it, and Wills it be forever. He is Lord of what we think today. And within His Divine Thoughts which have no opposite, we understand there is one life, and that, we share with Him, with all creation, with their thoughts as well, whom He created in a Unity of Life that cannot separate in what we call death and leave the Source of Life from where it came.

God Is In Everything We See Because God Is In Our HeartMind. In our own HeartMind, behind all our insane thoughts of separation and attack, is the knowledge that All Is One forever. We have not lost the knowledge of who we are because we have forgotten it. It has been kept for us in the Mind of God, Who has not left His Thoughts. And we, who are among Them, are One with Them and One with Him.

We share One Life because we have One Source, a Source from which our perfection comes to us, remaining always in the Holy HeartMinds which He has created perfect. As we were, so are we Now and will forever be. A sleeping mind must waken, as it sees its own perfection mirroring the Lord of Life so perfectly it fades into what is reflected there. And Now it is no more a mere reflection. It becomes the thing reflected, and the Light which makes reflection possible. No Vision Now is needed. For the awakened HeartMind is one that knows its Source, its Self, its Holiness. We can also choose to awaken our HeartMind Consciousness on this human plane of existence completely as well.

In the universal realms, we are not considered as having possessed ourselves of knowledge until we have demonstrated our ability and our willingness to impart this knowledge and Truth to others.

We Are Not Victims Of The World We See. How can we be victims of a world that can be completely undone if we so choose? Our chains are loosened. We can drop them off merely by desiring to do so. The prison door is open. We can leave simply by walking out. Nothing holds us in this world. Only our wish to stay keeps us prisoners. We would give up our insane wishes and walk into the sunlight at last.

If we so choose, we can depart this world entirely. It is not death that makes this possible, but it is change of HeartMind about the purpose of the world. If we believe it has a value as we see it Now, so will it still remain for us. But if we see no value in the world as we behold it, and nothing that we want to keep as ours, or search for as a goal, it will depart from us. For we have not sought for illusions to replace the Truth.

We Have Invented The World We See. We made up the prison in which we see ourselves. All we need do is recognize this and we are free. We have deluded ourselves into believing it is possible to imprison a Child of God. We were bitterly mistaken in this belief, which we no longer want. A Child of God must be forever free. We are as God created His Children, and not what we would make of them. We are where God would have His Children be and not where we thought to hold them prisoner.

We are held in bondage in one form or other. This deals mainly with our habitual thoughts, which keep us bound to such an extent that we are not capable of thinking along creative and imaginative lines. These habitual thoughts have become like a security blanket from under which we dare not venture beyond the norm, to think outside the complacency box that never really existed in the first place.

There Is Another Way Of Looking At The World. Since the purpose of the world is not the one we ascribed to it, there must be another way of looking at it. We see everything upside down, and our thoughts are the opposite of Truth. We see the world as a prison for God's Children. It must be then, that the world is really a place where we can be set free. We would look upon the world as it is, and see it as a place where the Children of God find their complete freedom.

Generally, there are three different ways of life on this plane. The first includes those who have mainly lived ego centered lives. They live a daily material life with little or no thought to anything either religious or Spiritual. They have stored little in the way of HeartMind centered or Spiritual values.

The second includes those who are staunchly religious. It is not that they find themselves out of place after release of their physical body, since they believe in a new life, but rather that before learning and truly grasping and accepting more, there is a definite need for them to unlearn ever so much of what they have been taught or simply assumed. These entities tend to spend more time together. Often their inability to let go is related to their strong allegiance to their religion or creed.

The third are the Spiritual ones. Their lives of caring, intuition and Soul-felt consideration, as well as, above all, Love for the Father Creator, frequently places them in their ideal environment after letting go of the physical body, which allows them to awaken much sooner. They are soon ready to move on to higher spheres in Soul ascendancy. Soul growth, or the development of the mid-mind, is key to their progress, assimilation, acclimatization and expansion of the higher HeartMind. In other words, if we begin here on this mortal plane, we can facilitate the eternal ascendancy of our collective and surviving Soul, HeartMind, and personality.

We tend to follow one another without thinking independently concerning how this could serve us in our personal individual Spiritual experience. Is it not time for us to realize how we are keeping ourselves in bondage? Our Creator intended for each individual, born on every planet in space, to think for themselves and grow into the Divine blueprint He bestowed upon each living and thinking mortal personality. If He had desired a race of mortal clones, He would have created them so. Instead He gave all unique human personalities the capacity to think for themselves and make their own free-will decisions.

We Could See Peace Instead Of This. When we see the world as a place of freedom, we realize that it reflects the Laws of God instead of the rules we made up for it to obey. We will understand that Peace, not war, abides in it. And we will perceive that Peace also abides in the HeartMinds of all who are sharing this planet with us.

Heaven is a decision that we must make. We make it Now and will not change our HeartMind because it is the only thing we want.

Early evolution is characterized by the survival of the biologically fit, but later civilizations are better promoted by intelligent co-operation, unified and understanding fraternity, and Spiritual brotherhood. Worship is fully intended to anticipate the better life ahead and then to reflect these new Spiritual significances back onto the life which Now is. Our thoughts in any moment create our reality in the next moment, and so on.

Think what we can do to acquire clarity of our way of thinking, thereby freeing ourselves so our thoughts do not run amok creating a shambles within our HeartMind to further foment the insanity that prevents our planet from moving into Light and Life where there is only Peace. How hard can it be to choose another way of looking at this mortal human creature learning experience and free our thoughts to more Spiritually useful and elevated matters? It is certainly in our power to achieve this. We can choose to cut the cords that bind us to a tedious and false train of thought, where all the

stations are the wrong stations. Simply choose to stop this and get off that train for another more hopeful and positive scenario. There is so much for us to enjoy in life, as our Creator has given us the free-will to open ourself to the magnificent blessings which we may heretofore have unconsciously chosen to pass by and leave unnoticed.

Our Mind Is Part Of God's. We Are Very Holy. As we share the Peace of the world with our brothers and sisters, we begin to understand that this Peace comes from deep within ourselves. The world we Now look upon has taken on the Light of our Forgiveness, and shines Forgiveness back at us. In this Light, we begin to see what our illusions about ourselves kept hidden. We begin to understand the Holiness of all living things, including ourselves, and their Oneness with us.

Our Father is so close to us we cannot fail. Father, we give this Holiness to You in gratitude to Christ Who taught us how to leave the world of sorrow in exchange for its replacement given us by You. We do not look backward Now. Instead, we look ahead, maintaining our focus in every moment, and also set our HeartMind upon the journey's end. Accept these little gifts of thanks from us, as through Christ's Vision we behold a world well beyond the one we made, and take that world to be the full replacement of our own.

Our Holiness Envelops Everything We See. From our Holiness does the perception of the Real world come. Having forgiven, we no longer perceive ourselves as guilty. We can accept the innocence that is the Truth about us. Seen through understanding eyes, the Holiness of the world is all we see, for we can picture only the thoughts we hold about ourselves.

God is with us. He is our Source of life, the life within, the air we breathe, the food by which we are sustained, the water which renews and cleanses us. He is our Home, Indwelling where we live and move, the I AM Presence, Spirit-Self which directs our actions, offers us Its Thoughts, and absolutely guarantees our freedom from all pain. He covers us with kindness and with care, and holds in Love the Son He Shines upon, who also Shines on Him. How appreciative are we who know the Truth of what He speaks today.

Our Holiness Blesses The World. The perception of our Holiness does not bless us alone. Everyone and everything we see in its Light shares in the Joy it brings to us. There is nothing that is apart from this Joy, because there is nothing that does not share our Holiness. As we recognize our Holiness, so does the Holiness of the world Shine forth for All to See.

Our Father, let us See the Face of Christ instead of our mistakes. For we who are Your Holy Son are sinless. We would choose to only look upon

our sinlessness, for guilt falsely proclaims that we are not Your Son. And we would not forget You any longer. We are lonely here, and long for our Heaven, where we are at Home. Today we would return. Our Name is Yours, and we recognize and acknowledge that we are Your Children.

There Is Nothing Our Holiness Cannot Do. Our holiness is unlimited in its power to heal, because it is unlimited in its power to save. What is there to be saved from except illusions? And what are all illusions except false ideas about ourselves? Our Holiness undoes them all by asserting the Truth about us. In the presence of our Holiness, which we share with God Himself, all idols vanish.

Our true Identity is so secure, so lofty, sinless, glorious and great, wholly beneficent and free from guilt, that Heaven looks to It to give It Light. It Lights the world as well. It is the Gift our Father gave to us, the one as well we give the world. There is no Gift but This that can be given or received. This is Reality, and only This. This is illusion's end. It is the Truth.

Your grace is given us. We claim it now. Father, we come to You. And You will come to those of us who ask. We are the Son You Love. By Grace we live, by Grace we are released. By Grace we give, by Grace we will release.

Our Holiness Is Our Salvation. Since our Holiness saves us from all guilt, recognizing our Holiness is recognizing our Salvation. It also enables and facilitates the Salvation of the world. Once we have accepted our Holiness, nothing can make us afraid. And because we are unafraid, everyone must share in our understanding, which is the Gift of God to us and to the world.

All the inspiration and motivation needed to grow and advance Spiritually is already inside us. Once we have felt the call to serve our peers, which is one of the Fruits of Spiritual growth, we can begin to focus on that task without either hesitation or expectation. Let Our Father take care of the outcomes and do what He has inspired us to do, because this is the path He has prepared for us, and that path will take us to perfection and to our eternal goal.

We Are Blessed As Children of God. Herein lies our claim to all good and only good. We are blessed as a Son of God. All good things are ours, because God intended them for us. We cannot suffer any loss or pain, or deprivation because of who we are. Our Father supports us, protects us, and directs us in all things. His care for us is infinite, and is with us forever. We are eternally blessed as His Son.

Our home awaits our glad return. Our Father's Arms are open, and we hear His Voice. What need have we to linger in a place of vain desires and of broken dreams when Heaven can so easily be ours? God Goes With Us Wherever We Go. How can we be alone when God always goes with us? How can we be doubtful and unsure of ourselves when Perfect Certainty abides in Him? How can we be disturbed by anything when He rests in us in absolute Peace? How can we suffer when Love and Joy surround us through Him? Let us not cherish illusions about ourselves. We are perfect because God goes with us wherever we go.

Our all faithful Source and all powerful Center, Reverent and Holy be the Name of your all-gracious Children. Your Bounties and Your Blessings have descended upon us, thus empowering us to perform Your Will and execute Your Bidding. Give us moment by moment the sustenance of the Tree of Life, refresh us day by day with the living waters of the river thereof. Step by step lead us out of darkness and into the Divine Light. Renew our minds by the Transformations of the Indwelling Spirit, and when the mortal end shall finally come upon us, receive us to Yourself and send us forth in eternity. Crown us with celestial diadems of fruitful service, and we shall glorify the Father, the Son, and the Holy Influence. Even so, throughout a universe without end.

God loves His Son. Request Him Now to give us the means by which this world will disappear, and Vision first will come, with Knowledge but an instant later. For in Grace we see a Light that covers all the world in Love, and watch fear disappear from every face as Hearts rise up and claim the Light as theirs. What Now remains that Heaven be delayed an instant longer? What is still undone when our Forgiveness rests on everything?

God Is Our Strength. Vision Is His Gift. Let us not look to our own eyes to see today. Let us be willing to exchange our meaningless illusion for the Vision that is given by God. Christ's Vision is His Gift, and He has given It to us. Let us call upon this Gift today, so that this day may help us to understand eternity.

And so today we find our glad return to Heaven, which we never really left. The Children of God this day lay down their dreams. This day they come home again, released from sin and clad in Holiness with HeartMinds restored to them at last.

Today we ask of Our Father, the Gift He has most carefully preserved within our HeartMinds, waiting to be acknowledged. This the Gift by which He leans to us and lifts us up, taking Salvation's final step Himself. All the

steps but this we learn, instructed by His Voice. But finally He comes to us Himself, and takes us in His Arms and sweeps away the cobwebs of our sleep. His Gift of Grace is more than just an answer. It restores all of the memories the sleeping HeartMind forgot, all Certainty of what Love's True meaning is.

God Is Our Source. We Cannot See Apart From Him. We will to see only what God Wills us to see. We cannot see anything else. Beyond His Will lie only illusions. It is these we choose when we attempt to see through the body's eyes. Yet the Vision of Christ has been given us to replace them. It is through this Vision that we choose to see.

It is today that we are free, because our will is our Father's Will. We thought to make another will. Yet nothing that we thought apart from us exists. And we are free because we were mistaken, and did not affect our own reality at all by our illusions. Now we give them up, and lay them down at the feet of Truth, to be removed forever from our HeartMind. This is our Holy Instant of release. Father, we know our will is one with Yours.

God Is The Light In Which We See. We cannot see in darkness. God is the only Light. Therefore, if we are to see, it must be through Him. We have tried to define what seeing is, and we have been wrong. Now it is given us to understand that God is the Light in which we see. Let us welcome this Vision and the happy world it will show us.

We seek our own identity, and find it in these words. Love, which created us, is what we are. Now, we need seek no more. Love has prevailed. So still it waited for our coming home, that we will turn away no longer from the Holy Face of Christ. And what we look upon attests the Truth of the identity we sought to lose, but which our Father has kept safe for us.

God Is The Mind With Which We Think. We have no thoughts we do not share with God. We have no thoughts apart from Him, because we have no mind apart from His. As part of His HeartMind, our thoughts are His and His Thoughts are ours.

We were mistaken when we thought we lived apart from God, separate entities which moved in isolation, unattached, and housed within physical bodies. Now we know our life is God's, we have no other home, and we do not exist apart from Him. He has no Thoughts that are not part of us, and we have none but those which are of Him.

God Is The Love In Which We Forgive. God does not forgive because He has never condemned. The blameless cannot blame, and those who have

accepted their innocence see nothing to forgive. Yet Forgiveness is the means by which we will recognize our innocence. It is the reflection of God's Love on earth. It will bring us near enough to Heaven that the Love of God can reach down to us and raise us up to Him.

Love is never self-seeking, and it cannot be self-bestowed. Divine Love cannot be self-contained, it must be unselfishly bestowed.

Miscreation and error are synonymous error of thought. Full and complete Forgiveness occurs when there is no more resentment or hostility against an individual, that there is total acceptance that this one is a Child of God who has made the wrong decision in their relationship with God, although those decisions may have had a harmful or negative impact upon other people. It is simply accepting another as ourselves while not necessarily being aligned with, in agreement with, or resentful toward any actions that individual manifested in the past.

Forgiveness recognizes what we thought our brethren did to us has not occurred. It does not pardon sins and make them real. Would our Father create sin? He sees there was no sin. And in this view are all our sins forgiven. What is sin except a human egoic false idea about God's Son? Forgiveness merely sees its falsity, and therefore lets it go. What then is allowed by our free-will to take its place is the Love, Truth, and Will of God.

God Is The Strength In Which We Trust. It is not our own strength through which we forgive. It is through the strength of God in us, which we actually remember as we forgive. As we begin to see, we recognize His reflection on earth. We forgive all things because we feel the stirring of His Strength in us. And we begin to remember the Love we chose to forget, but which has not forgotten us.

What can we seek for, Father, but Your Love? Perhaps we think we seek for something else, a something we have called by many names. Yet is Your Love the only thing we seek, or ever sought. For there is nothing else that we could ever really want to find. Let us remember You. What else could we desire but the Truth about ourselves that You have kept safe for us until we chose to remember?

There Is Nothing To Fear. How safe the world will look to us when we can see it in Truth. It will not look anything like what we imagine we see Now. Everyone and everything we see will lean toward us to bless us. We will recognize in everyone our dearest friend. What could there be to fear in a world that we have forgiven, and that has forgiven us?

Fear is deception. It attests that we have seen ourselves as we could never be, and therefore we look upon a world which is impossible. Not one thing we perceive through human ego physical senses in this world is True. It does not matter what form in which it may appear. It merely witnesses to our own illusions of ourselves. Let us not be deceived today. We are the Child of God. There is no fear in us, for we are each a part of Love Itself. All fear is of the ego and is absolutely and completely illusory. When we truly recognize this, any semblance of fear disappears never to return.

How foolish are our fears! Would we allow Your Son to suffer Father? Give us Faith today to recognize Your Son and set him free. Let us forgive him in Your Name, that we may understand his Holiness, and feel the Love for him that is Your Own as well. We have always been without sin. We can only put that illusion upon ourselves. Our Merciful Father never has.

God's Voice Speaks To Us All Through The Day. There is not a moment in which God's Voice ceases to call on our Forgiveness to save us. There is not a moment in which His Voice fails to direct our thoughts, lead our feet and guide our actions. We are walking steadily on toward Truth. There is nowhere else we can go, because God's Voice is the only Voice and the only guide that has been given to His Son.

Father, we give You all our thoughts today. We would have none of ours. In place of them give us Your Own. We give You all our acts as well, that we may do Your Will instead of seeking goals which cannot be obtained, and wasting time in vain imaginings. Today we come to You. We will step back and merely follow You. Be You the Guide, and we the followers who question not the Wisdom of the Infinite, nor the Love Whose tenderness we cannot comprehend, but which is yet Your Perfect Gift to us.

We Are Sustained By The Love Of God. As we listen to God's Voice, we are sustained by His Love. As we open our eyes, His Love Lights up the world for us to See. As we forgive, His Love reminds us that His Son is sinless. And as we look upon the world with the Vision He has given us, we remember that we are His Children.

You are our goal Father. What but You could we desire to have? What way but that which leads to You could we desire to walk? And what except the memory of You could signify to us the end of dreams and futile, illusory substitutions for the Truth? You are our only goal. Your Son would be as You created us. What way but this could we expect to recognize our Self, and be at one with our True Identity?

Our Father in Whom consist the universe realms, uplifted be Your Name and all glorious Your Character. Your Presence encompasses us, and Your Glory is manifested imperfectly through us as it is in perfection shown On High. Give us this day the vivifying forces of Light, and let us not stray into the evil bypaths of our imagination, for Yours is the Glorious Indwelling, the everlasting power, and to us, the eternal Gift of the infinite Love of Your Son. Even so, and everlastingly True.

HOW SIMPLE IS THE GREAT WAY TO SALVATION. ALL IT SAYS IS THE WORLD WE SEE HAS NOTHING TO DO WITH REALITY. IT IS OF OUR OWN MAKING AND DOES NOT REALLY EXIST. ALL IT SAYS IS WHAT WAS NEVER TRUE IS NOT TRUE NOW, AND NEVER WILL BE. THE IMPOSSIBLE HAS NOT OCCURRED AND CAN HAVE NO EFFECTS. AND THAT IS ALL. CAN THIS BE HARD TO LEARN BY ANYONE WHO WANTS IT TO BE TRUE? WE NEED SIMPLY LET OURSELVES BE AS WE TRULY ARE AND HAVE ALWAYS BEEN.

THIRD THOUGHT

What Is Forgiveness?

Be In Our Mind Father, When We Wake, And Shine On Us Throughout The Day Today. Let Every Moment Be A Time In Which We Dwell With You. You Are Our Source. We cannot see apart from You. And Let Us Not Forget Our Thanksgiving In Every Moment Knowing You Have Remained With Us, And Always Will Be There to Hear Our Call to You And Answer Us. Throughout The Day, Let All Our Thoughts Be Still of You And of Your Love. And Let Us Journey Through This Day In Your Loving Grace, Light, And Holiness, Sure of Our Safety, Certain of Your Care, And Happily Aware We Are Your Son.

Miscreation and error are synonymous error of thought. Therefore full and complete Forgiveness occurs when there is no more resentment or egoic hostility against that individual, and there is total acceptance that s/he is a child of God who has made the wrong decision in their relationship with God, even though those decisions may have had a harmful or negative impact upon other people. It is simply accepting another as ourselves but not being in alignment or agreement or resentful towards those actions that individual took in the past.

Forgiveness recognizes that what we thought our brother or sister did to us has not in reality occurred. It does not pardon sins and make them real. It sees there was no sin. And in this view are all sins forgiven. What is sin except a false idea about God's Children? Forgiveness merely sees its falsity, and therefore lets it go. What becomes free through our free-will choice to take its place is now the Will of God.

An unforgiving thought is one which makes a judgment that it will not raise to doubt, although it is not true. The egoic mind is closed, and refuses to be released. The thought protects our projection, tightening its chains, so that distortions are more veiled and more obscure, less easily accessible to doubt, and further kept from reason. What can possibly come between a fixed projection and the aim that it has chosen as its needed goal?

An unforgiving thought does many things. In frantic action it pursues its goal, twisting and overturning what it sees as interfering with its chosen path. Distortion is its purpose and the means by which it would convince us of its righteousness as well. It sets about its furious attempts to smash reality, without concern for anything that would appear to pose any means of contradiction to its point of view.

Forgiveness, on the other hand, is still, and quietly does nothing. It offends no aspect of reality, nor seeks to twist it to appearance that it likes. It only looks and waits and judges not. We who would not forgive will judge, for we must justify our failure to forgive. But we who would forgive our sisters and brothers as well as ourselves must learn to recognize and welcome the Truth exactly as it is.

We can choose to do nothing then, and let Forgiveness show us what to do through Him Who is our Guide, our Savior and Defender, strong in hope, and certain of our ultimate success. He has forgiven us already; for such is His function that is given Him by God. Now must we share His function, and forgive whom He has saved, whose sinlessness He sees, and whom He honors as the Son of God.

Divine Forgiveness is inevitable, it is inherent and inalienable in Our Father's infinite understanding, in His perfect knowledge of all that concerns the mistaken judgment and erroneous choosing of the Child. Divine justice is so eternally fair that it unfailingly embodies understanding Mercy.

Forgiveness - The Face Of Christ

Forgiveness is for God and toward God but not of Him. It is impossible to think of anything He created that could need Forgiveness. Forgiveness, then, is an illusion, but because of its purpose, which is Spirit-Self's and the Holy Spirit's, it has one difference. Unlike all other illusions it leads away from error and not toward it.

Forgiveness might be called a kind of happy fiction, a way in which we, the unknowing can bridge the gap between our perception and the Truth. We cannot go directly from perception to knowledge because we do not think it is our will to do so. This makes God appear to be an enemy instead of that which He really is. And it is just this insane perception that makes us so unwilling simply to rise up and to return to Him in Peace.

And so we need an illusion of help because we are helpless, a Thought of Peace because we are in conflict. God knows what His Children need before we ask. He is not at all concerned with form, but having given the content, it is His Will that it be understood. And that suffices. The form adapts itself to need, the content is unchanging, as eternal as its Creator.

The Face of Christ has to be seen before the Memory of God can return. The reason is obvious. Seeing the Face of Christ involves perception. None of us as mortal humans are capable of looking on knowledge. But

the Face of Christ is the great symbol of Forgiveness. It is Salvation. It is the symbol of the Real world. Whoever of us chooses to look on this no longer sees the mortal world. We have chosen to change our thoughts and see the Real world, and are as near to Heaven as is possible outside the gate. Yet from this gate, it is no more than just a step inside. It is the final step. And this we leave in complete Faith, Trust, and Certainty, to Our Father.

Forgiveness is a symbol, too, but as the symbol of His Will alone it cannot be divided. And so the Unity that it reflects becomes His Will. It is the only thing still in the world in part, and yet is the Bridge to Heaven.

God's Will is all there is. We can but go from nothingness to everything, from hell to Heaven. Is this a journey? No, not in Truth, for Truth is always and everywhere. But illusions shift from place to place, from time to time. The final step is also only a shift. As a perception, it is part unreal. And yet this part will vanish. What remains is Peace Eternal and the Will of God.

The Last Judgment is generally thought of as a procedure undertaken by God. Actually, it will be undertaken solely by humans, with My help. It is a final healing, rather than a meting out of punishment, no matter how much humans may think punishment is deserved. Punishment as a concept is in total opposition to Right-Mindedness. The aim of the final judgment is to Restore Right-Mindedness to humans. Jesus Christ

The term Last Judgment is frightening, not only because it has been falsely egoically projected onto God, but also because of the association of Last with death. This is an outstanding example of upside-down perception. Actually, if it is examined objectively, it is quite apparent that it is really the doorway to life. No man who lives in fear is really alive.

Human's own final judgment cannot be directed toward themselves, only because they are not their own creation. They can apply it meaningfully, and at any time, to everything they have ever cocreated, and retain in their Real Memory only what is good. This is what their own Right-Mindedness will dictate.

The purpose of time is solely to give humans time to achieve this complete judgment. It is their own perfect judgment of their own creation. When everything that they retain is lovable, there is no reason for any fear to remain in them. This is their part in the Atonement.

There are no wishes Now for wishes change. Even the wished for can also become unwelcome. That must be so because the ego cannot be at Peace.

But Will is constant, as the Gift of God. And what He gives is always like Himself. This is the purpose of the Face of Christ. It is the Gift of God to save His Children. Only look on this and we have chosen to fully forgive ourselves. How lovely does the world become in just that single instant when we see the Truth about ourselves reflected there. It sees that Now we are sinless and behold our sinlessness. Now we are Holy and perceive it so. And now the Holy HeartMind returns to its Creator, the joining of the Father and the Child, the Unity of unities that stands behind all joining but beyond them all. God is not seen but only understood. His Child is not attacked but recognized.

Divine Forgiveness is inevitable. It is inherent and inalienable within Our Father's infinite understanding, in His perfect knowledge of all that includes and concerns the mistaken judgment and erroneous choosing of the Child. Divine justice is so eternally fair that it unfailingly embodies complete and absolute understanding and Mercy. Such is the True Last Judgment. There never was anything for us to fear. Our Father always was and always will be, a Loving Merciful God. We can choose to embrace our Father's Truth in any moment, and with that choice, Heaven is completely ours.

It is in the consideration of the technique of Receiving God's Forgiveness that the attainment of the righteousness of the Kingdom is revealed. Faith is the price we pay for entrance into Our Family of God, but forgiveness is the act of God which accepts our Faith as the necessary factor which gains us our admission. And the reception of the Forgiveness of Our Father by a Kingdom Certainty advocate involves a definite and actual experience and consists of the following four steps, which through our willingness opens the gate to the Kingdom steps of inner righteousness:

- 1. God's Forgiveness is made fully and actually available as the individual and unique personal experience of mortal humans, exactly in so far as we are able and willing to forgive our brothers and sisters.**
- 2. We can not truly forgive our fellows unless we Love them as ourselves.**
- 3. To thus Love our brethren as ourself is the highest ethic.**
- 4. Moral conduct, True Righteousness, becomes, then, the natural result of such Love.**

The revelation of the Father and the Son as One has been already set. But we have also said the mind determines when that time will be, and has determined it. And yet we are urged to bear witness to the Word of God to hasten the experience of Truth, and speed its advent into every HeartMind that recognizes Truth's effects on us.

Oneness is simply the idea God Is. And in His Being, He encompasses all things. No HeartMind holds anything but Him. We say God Is, and then we cease to speak, for in that knowledge, words are meaningless. There are no lips to speak them, and no part of HeartMind sufficiently distinct to feel that it is Now aware of something not itself. It has united with its Source. And like its Source Itself, it merely Is.

We Walk Together With You In Perfect Holiness. Our Holiness Envelops Everything We See. Our Holiness Is The Salvation of The World. It allows us to align our human thoughts completely with Our Spirit-Self to Let The World Know That We Are All Connected Together As One. Not by anything We say, and not by allowing our ego to preach about it, But Only By Our Quiet Knowing That In Our Holiness Are All Things Blessed Along With Us.

We cannot speak, or write, or even think of this at all. It comes to every HeartMind when total recognition that its Will is God's has been completely given and received absolutely. It returns the HeartMind WholeHeartedly to the endless Present, where the past and future cannot be conceived. It lies beyond Salvation, past all thought of time, Forgiveness and the Holy Face of Christ. The Child of God has merely disappeared into Our Father, as Our Father has in His Child. The world has never been at all. Eternity remains a constant state.

This is beyond experience we try to hasten. Yet Forgiveness, taught and learned, brings with it the experiences which bear witness that the time the HeartMind itself determined to abandon all but this, is Now at hand. We do not humanly hasten it, because what we offer was heretofore unrevealed from Him Who teaches what Forgiveness means.

All learning was already in His Mind, accomplished and complete. He recognized all that time holds, and gave it to all HeartMinds that each one might determine, from a point where time was ended, when it is released to Revelation and eternity. It has been repeated several times before that we only make a journey that is already over, for Oneness must be already here. Whatever time the HeartMind has set for Revelation is entirely irrelevant to what must be a constant state, forever as it always was, forever to remain as it is Now. We merely take the part assigned long since, and recognized

as perfectly fulfilled by we Who thought the script of Salvation in Creator's Name, and in the Name of His Creator Son.

There is no need to further clarify what no one in the human world can yet understand. When Revelation of our Oneness comes, it will be known and will be fully understood. Now we have work to do, for those in time can speak of things beyond, and listen to words which explain what is to come is past already. Yet what meaning can the words convey to those who still count the hours, and rise and work and go to sleep by them? Suffice it to say then, that we only have responsibility to play our part. The ending will remain obscure to us until our part is done. It does not matter. For our part is still what all the rest depends upon. As we will to accept the role that is assigned to us, Salvation comes a little nearer each uncertain HeartMind that does not beat as yet in tune with God.

We Are Here Only to Be Truly Helpful. We Are Here Only to Represent Christ Michael Who Sent Us. We do not have to worry about what to Say or What to Do, because He Who Sent Us Will Guide Us. We Are Content to Be Wherever He Wishes, Knowing He Goes There With Us. We Will That We Be Healed As We Allow Him to Teach Us to Heal.

Forgiveness is the central theme that runs throughout Salvation, holding all its parts in meaningful relationships, the course it runs directed and its outcome sure. And Now we ask for Grace, the final gift Salvation can fully bestow. Experience that Grace provides will end in time, for Grace really foreshadows Heaven, yet does not replace the thought of time except for a little while.

The interval suffices. It is here that miracles are laid, to be returned by us from Holy Instants we receive, through Grace in our experience, to all who see the Light that lingers in our face. What is the Face of Christ except our own who went a moment into timelessness, and brought a clear reflection of the Unity we felt an instant back to bless the world? How could we finally attain to it forever, while a part of us remains outside, not knowing and not awakened, in need of us as witness to the Truth?

Be grateful to return, as we were glad to go an instant, and accept the Gifts that Grace provided us. We carry them back to ourselves. And Revelation stands not far behind. Its coming is ensured. We ask for Grace for this we can give in the Grace that has been given us.

Jesus Is Speaking

There is no need for help for us to enter Heaven for we have never left. But there is need for help beyond ourselves as we are circumscribed by false beliefs of our Identity, which God alone established in Reality.

Helpers are given us in many forms, although upon the altar they are One. Beyond each One there is a Thought of God, and this will never change. But they have names which differ for a time, for time needs symbols, being itself unreal.

God does not help because He knows no need. But He creates all Helpers of His Son while he believes his fantasies are true. Thank God for them for they will lead us home.

The Name of Jesus is the Name of One who was a man but saw the face of Christ in all His brothers and remembered God. So He became identified with Christ, a man no longer, but at One with God. The man was an illusion, for he seemed to be a separate being, walking by himself, within a body that appeared to hold his self from Self, as all such illusions do. Yet who can save unless He sees illusions and then identifies them as what they are?

Jesus remains a Savior because He saw the false without accepting it as true. And Christ needed His form that He might appear to men and save us from our own illusions.

In His complete identification with the Christ, the perfect Son of God, His One creation and His happiness, forever like Himself and One with Him, Jesus became what all of us must be. He led the way for us to follow Him. He leads us back to God because He saw the road before Him, and He followed it. He made a clear distinction, still obscure to us, between the false and true. He offered us a final demonstration that it is not possible to kill God's Son, nor can His life in any way be changed by sin and evil, fear, malice, or death of a physical body. And therefore all our sins have been forgiven because they carried no effects at all. And so they were but dreams.

We Are Not a body, We Are Free, For We Are Still, And At Peace, As You Created Us, Perfectly Aligned In Every Moment With Your Grace, Holiness, Reason And Love, Father, Which Begets human Happiness, Joy And Peace. We Are Also Perfectly Aligned In Every Moment, Only With Your

Voice, The Voice and Guidance of The Holy Spirit, Our Spirit-Self, Mother Spirit, Our Guardian angels, Destiny Guardians, and the Living Spirit of Truth.

Arise with Him who showed us this because we owe Him this who shared our dreams that they might be dispelled. And shares them still, to be at one with us. Is He the Christ? Oh yes, along with us. His short life on this earth was not enough to teach the mighty lesson that He learned for all of us. He will always remain with us to lead us from this hell we made, fully and directly unto God. And when we join our will with His, our sight will be His Vision, for the eyes of Christ are shared.

Walking with Him is just as natural as walking with a brother whom we knew since we were born, for such indeed He is. Some bitter idols have been made of Him who would be only brother to the world. We forgive Him our illusions, and behold how dear a brother He would be to us. For He will set our HeartMind at rest at last and carry it with us unto our God.

Is He God's only Helper? No, indeed. For Christ takes many forms with different names until their Oneness can be recognized. But Jesus is for us the bearer of Christ's Single Message of the Love of God. We actually need no other.

Let this be then our gift to Christ. For this alone He needs, that we will hear the words He speaks, and give them to the world. We are His voice, His eyes, His feet, His hands, through which He saves the world. The Self from which He calls to us is really our own. To Him we go together. We take our brother's hand, for this is not a way we walk alone. In him He walks with us, and we with Him. Our Father wills His Son be One with Him. Who lives that must not then be One with us?

Our use for words is almost over now, yet, in these quiet moments of this time We gave to God together, you and I, We found a single purpose that We shared, and thus, you joined with Me. So what I am are you as well. The Truth of What We Are is not for words to speak of or describe. Yet, we can realize our function here, and words will speak of this and teach it too, if We exemplify the words in us. Jesus Christ

FOURTH THOUGHT

Spirit-Self

We Who Are Host to You Father, Spirit-Self, Beloved Spark of Light, Are Worthy of You. You Who Established Your Dwelling Place In us Created It As You Would Have It Be. It is not needful that we make it ready for You, but only that we do not interfere with Your Plan to Restore to us our Own Awareness of our Readiness, Which Is Eternal. We need add nothing to Your Plan, And to Receive It, we must be willing not to substitute our own plan in place of It.

Throughout The Urantia Revelation, the Celestial Authors refer to the God Particle, which indwells our mortal human HeartMinds on this planet, by many titles. Thought Adjusters, Mystery Monitors, Father Fragments, the Impersonal Self, Potential Personality, Divine Voice, Purple Flame, Creator Fragment and Heavenly Helpers as well as Thought Changers Thought Controllers, Indwelling Spirit, Pilot and the Individual Fragment of God the Father that lives within us mortals of survival potential. These are symbols and Thoughtforms that appeal in a variety of ways to the many facets of the diverse human personality. It arrives as a Gift, a prepersonal bestowal of Spirit of Our Universal Creator when the mortal first makes a moral human decision signifying a budding Soul, a Being of Spiritual potential, capable of seeking God and desiring to be like Our Creator.

They are all of this and, at one time or another, they each seem apropos in a specific mortal situation. It enables us to more fully recognize and really understand the omniscience of the Indwelling I AM Presence, Spirit-Self Who is like our Father, everywhere and in all things as well as all-wise and all-knowing. This Beloved Spark of Light Within is referred to most often in this Revelation as The Thought Adjuster, however, Spirit-Self is the actual descriptive form we Now feel most clearly delineates for us that Potential Personality whose Truth, Wisdom, Goodness, and Beauty is Now becoming more readily apparent to our immortal, evolving Soul, personality, Spirit and HeartMind. The origin of this Particle of God is universally believed to have emanated directly from the Universal Father, the First Source and Center.

These discrete Spirit presences are the pre-personal fragments of the Universal Father which hail from Divinington, and arrive to indwell the mortal of Their choosing at the moment the mortal signifies Soul potential by making their first moral decision, which is usually around the age of five years old. Although equal in endowment of existential Divinity, these

Father Fragments may vary in the amount of experience they have already accumulated by prior indwellings in non-fusion candidates. The more experienced Creator Fragments go to the HeartMinds of those mortals who have a higher type of HeartMind potential and Spiritual capacity, based on personality and hereditary forecasts. Once a Father Fragment is assigned to a mortal, the relationship continues as that Indwelling Spark of Light works with the mortal mind to create a new HeartMind for our eternal career as a Spirit being with uplifting, advancing illumination of Spiritual ideals.

They are not created beings, They are Fragmentized Entities constituting the factual Presence of the Infinite God. Together with Their unrevealed associates, These God Particles are undiluted and unmixed Divinity, as well as, unqualified and unattenuated parts of Deity, They are of God and as far as the Celestial Beings are able to discern, They are God.

Our Spirit Within has suggested to our evolving human self, that He would like to be known as Our Spirit-Self, while we remain His little spirit-self, to grow through communion into His greater Spirit-Self. He tells us He has existed within us ever since we could consciously think for ourselves and make our own decisions rightly or wrongly. Our Spirit-Self suggests we humans on Urantia are embarking on a new chapter, a higher stage in our evolutionary Soul development, and we mark this with a name change from Thought Adjuster to Spirit-Self.

Between God and us there is a tremendous distance of physical space and level of Divinity to be traversed. Stop and ponder the solemn fact that God lives within us, He has in his own way already bridged the gap. He has sent of Himself, His Spirit to live within us.

This evolutionary development indicates a very important occasion for the human Soul although it is not often noticed by many of the human creature personalities who host these Gifts From God. Our Spirit-Self also reveals that some time ago, He became our Thought Controller rather than our Thought Adjuster, and we are Now becoming more conscious of the fact that there are many ways to improve our earthly journey through continual communion as we become more attuned to the vibration of Our Indwelling Voice.

Even though this is a most intimate conversation between mortal human creatures and their Heavenly Helpers and Guides, Our Spirit-Self requests that this conversation be committed to print perchance there are others like us who have their own unique Soul challenges and may also perceive they have difficulty communing with their personal I AM Presence, God Within.

Spirit-Self suggests that even though The Creator Fragments all hail from The Source of All Being, They have unique experiences, and the mortals They dwell within share Their diverse experiences with Them.

Spirit-Self goes on to relate that human free will is Sacrosanct to the Potential Personality which constantly dwells within us and no Celestial Being would ever interfere with our free will. It is always, and will always be, the mortal free will that chooses immortality, or not. This Divine Axiom has been made possible and established by the Unconditional Love of Our Creator God.

We humans are capable of independent thought, and are also Gifted at birth with an urge in our personalities to return to Paradise after our Soul's Ascension Journey through the various levels of learning toward becoming perfected beings. Sometimes the choice to fuse our Soul and personality with our Spirit-Self can be accomplished on the planet of our birth however this fusion usually comes about during our Morontia Mansion World Divine learning existence where conditions for this fusion and new birth are more viable and sustainable.

At any rate, sometime before we become a young Spirit, we develop the Spiritual capacity to become One with our Godly Gift by method of fusion. This glorious and unparalleled occasion marks our second human birth, this one literally transforms mortality to the free will choice of immortality. Our Spirit-Self goes on to reveal that when we choose fusion, then We shall have become a new being and will receive a new name. As a result of this fusion, neither will our old being be changed, nor will Our Spirit-Self be diminished in any way.

This fusion will hail the emergence of the nature of a potential Finaliter. It is the consummation of Our Spirit-Self potential personality's continuous ongoing Mission to become a person with us through our personality urge to engage in the process of becoming Divine. The fusion will be so replete, this New Entity will display only one Personality and be fully accepted as One entity by even the most capable of Universe Celestial Beings.

The Spirit-Self further reveals that this new Being We will become will embody both Divinity and humanity, and that Being will still be us also, since our history will not be lost in becoming that new Being. Only our nature will have become Divine. At present, inhabiting us as a Beloved Spark of Light Within, our Spirit-Self represents the Will of The Father. Upon fusion, We will Become the Will of The Father in Oneness.

Following fusion, our New Person will be able to, as We progress in Our ascending career, and through progressive insights, draw from all the past knowledge and experience, events right back to the moment of Our Spirit-Self fragmenting from the Creator Father. Thereby, We will have in Us the potential to become highly Spiritized to the fringe status of an Absonite Being.

Every time a Spiritual reality actualizes in the universes, this change does necessitate the immediate and instantaneous readjustment of actual Spirit gravity, just as certainly as a mortal human becomes a Spiritized being, will they attain the Spiritual Son, the Center and Source of Spirit gravity.

As the Soul of joint HeartMind and Spirit-Self creation becomes ever more increasingly existent, there also evolves a new consciousness phase of Soul which is capable of experiencing the presence, and of recognizing the Spirit leadings and other supermaterial activities of the Mystery Monitors.

The evolving immortal Soul of man, the joint creation of the HeartMind and the Spirit-Self, ascends as such to Paradise and subsequently, when fully mustered into the Corps of the Finality, becomes allied in some new way with the Spirit gravity circuit of the Eternal Son by experiential technique which is known as Finaliter Transcendation. Such Finaliters thus become acceptable candidates for experience recognition as personalities of God The Supreme. And when these mortal intellects in the unrevealed future assignments of the Corps of the Finality attain the seventh stage of Spirit existence, such dual minds will become triune. These two attuned minds, the human and the Divine, will become glorified in union with the fulfilled experiential mind of the then actualized Father Mother Supreme.

This begs the questions: Why do we not aid our Spirit-Self in the task of showing us the Spiritual counterpart of all these strenuous human efforts? Why do we not allow Spirit-Self to strengthen us with the Spiritual Truths of cosmic power while we wrestle with the temporal challenges of creature existence? Why do we not encourage our Heavenly Helper to cheer us with the clear Vision of the eternal outlook of Universal Life as we gaze in near-constant perplexity at the problems of each passing hour? Why refuse to be enlightened and inspired by the Universal Viewpoint while we toil amidst the handicaps of time, and flounder in the uncertainties we continuously encounter in the maze of creature life existence on our mortal life journey? Why not practice daily Stillness and allow our Spirit-Self to commune with us and guide us to Spiritualize our HeartMind thinking and feeling even as our mortal feet are treading the material paths of our trying endeavor on this plane of learning? Why not indeed?

Retraining the Mind

We are going to examine the idea of the possibility that our Mind and God's are really the same. As we begin to undergo our transformation, this Divine thought will become increasingly invaluable to us. The Key to the Kingdom is within us and this idea holds the key to what our Real thoughts are. They are not what we envision we think, just as nothing that we think we see is related to Vision in any way. There is no relationship between what is Real and what we think is real. Nothing that we think are our thoughts of reality resembles our Real thoughts in any respect. Nothing that we think we see bears any resemblance to what Vision will show us.

So there really is, something else going on, something other than this. But while we value the thoughts we are having within our human conditioned sensory cerebral fear-based egoic mind, we will not think to question what it is we are experiencing as reality.

We think with the Mind of God, therefore we share our thoughts with Him, as He shares His with us. They are the same thoughts, because they are thought by the same Mind. To share is to make alike, or to make one. Nor do thoughts we think with the Mind of God leave our HeartMind because thoughts do not leave their source. Therefore, our thoughts are in the Mind of God, and so are we. They are in our HeartMind as well, where He is. As we are part of His Mind, so are our HeartMind thoughts part of His Mind.

Mortal mind is a temporary intellect system loaned to human beings for use during a material lifetime, and as we use this mind, we are either going to choose acceptance or rejection of the potential of eternal existence. Mind is about all we have of universe reality that is subject to our will, and the Soul, the Morontia self, through our HeartMind will faithfully portray the harvest of our moment by moment temporal decisions which our mortal self is making in alignment with Our Father's Truth.

Human consciousness rests gently upon the electrochemical mechanism below and delicately touches the Spirit-Morontia energy system above. Of neither of these two systems are we humans usually completely conscious during our mortal life, therefore must we work almost exclusively in the part of our HeartMind, of which we are consciously aware. And it is not so much what our sensory egoic mind comprehends, as what our HeartMind desires to comprehend, that ensures eternal Soulular survival. It is not so much what our human mind is like as what our HeartMind strives to be like that constitutes Spirit identification. It is not so much that we are actually conscious of God as that we yearn for God that results in Soulular universe

ascension. What we are today is not as vital or important as what we are striving to become day by day as well as in eternity.

We will that our Heartmind be Illuminated to hear Your Divine Voice that Continually Speaks within us, so that we may become partially conscious of the Wisdom, Truth, Goodness, and Beauty of Your Potential Personality which Constantly Indwells us. We Will That You, Our Spirit-Self, Our Most Beloved Spark of Light Within, And Our Ascending Immortal Morontia Soul and Personality Be Fused In Alignment With Your Will Father. We will that Your Will Be Done. We will that our will be solely, willingly, and completely Aligned with Your Will Father. Now, This Day, And Forever. So Be It.

Where, then, are our Real thoughts? In order to attempt to reach them, we will have to look for them in our HeartMind, because that is where they are. They must still be there, because they cannot have left their source. What is thought by the Mind of God is eternal by being part of His creation.

When we are no longer willing to tolerate the chaos that surrounds us, we will find true Peace of Mind in the undoing of all we once thought, and the practice or the willingness to apply these truisms will become invaluable to us.

We can gently tell ourselves that our Real thoughts are in our HeartMind and we would like to find them. Then try to go past all the unreal thoughts that cover the Truth in our HeartMind, by willing ourselves to enter the Quietude of God, and begin to reach to the eternal.

The phrase, Many are called but few are chosen, was meant by Jesus to be interpreted, All are called but few choose to listen, therefore, they do not choose Right. The chosen ones are only those who choose right sooner. This is the Real meaning of the celestial speed-up. Strong wills can do this Now, and we will find rest for our Souls. Our Father knows us only in Peace and this Is our True Reality.

All we are really doing is simply stepping back and allowing our Real ideas and thoughts to rise up in our awareness. We watch them and let them go with full awareness that they are completely meaningless unless they are perfectly aligned with Our Father's Truth. We do not have to sort out what we Think is valuable or not, they are all meaningless until we reach the space of no thought.

Under all the senseless thoughts and mad ideas with which we habitually clutter our minds are the thoughts we thought with God in the beginning.

They are there in our HeartMind Now, completely unchanged. They will always be in our HeartMind, exactly as they always were. Everything we have thought since then will change, but the Foundation on which it rests is wholly changeless.

Can we really hear that? There is no link of memory to the past. All the thoughts we ever had will change. We are going back to the moment of separation, in our human egoic mind. Why? Because that is where the correction Was Made by God. It is already over and done with. This mortal existence in time simply affords an invaluable learning experience for our ongoing ascendancy adventure, along with the experience gained by Our Father/Mother Supreme.

Here is our HeartMind joined with the Mind of God. Here are our thoughts One with His. For this kind of practice, it is only necessary to approach it as we would an altar dedicated in Heaven to God the Father and to God the Son. For such is the place we are going to reach. We may be reluctant as yet to realize how high we are attempting to go. Even with the comparative small amount understanding we have already gained, we should be able to remind ourselves that this is no idle game, but rather an experience in Soul Holiness and a sincere attempt on our part to reach the Kingdom of Heaven within us.

Honoring and respecting the mortal human creature free will choice by our Spirit-Self is what more fully enables us to engage and align with the Will of Our Father. We do not submerge or surrender our personality, nor do we lose our volitional selfhood by our willingness to so function. Our Souls, HeartMinds and personalities, are instead progressively augmented by the intimate participation communing with our Spirit-Self in this great Spiritual adventure. By such an ongoing union with Divinity, we exalt, enrich, unify and Spiritualize our evolving HeartMind to the very threshold of Supremacy through the fusion of our Spirit-Self with our ascending immortal Morontia Soul and personality in perfect alignment with the Will of Our Father.

Our Spirit-Self indwells us with complete Trust in our capability of fulfilling our agreement to willingly choose immortality within the ongoing Faith and Trust adventure of Spiritual and Divine ascendancy. How could any mortal creature who was aware of this possibility choose otherwise?

The Spirit-Self is a True Reality rather than a true personality. They are The Divine Presence and as such, are Realities of the purest order known in the universe of universes. The Spirit-Self is referred to as a Being and in view of the Spiritual phases of their ministry to mortal creatures, they are Spirit Entities.

We will that You our Spirit-Self subject the creature trends of our material mind to the transforming actions of the motivations and purposes of our emerging Morontia Soul. We also therefore completely Will that we more faithfully give You, our Spirit-Self, our sincere cooperation; more cheerfully endure the tasks of Your emplacement; more faithfully carry out all aspects of the program of Your arrangement; more patiently go through the trials of Your selection; more persistently and cheerfully tread the path of Your choosing; more humbly receive credit that may accrue as a result of Your ceaseless endeavors, and fully accept this admonition as the mortal of Your indwelling. We willingly and completely accept Our Father's bestowal of Your Supreme Devotion as our Divine Spirit-Self. We also fully accept that You, Our Spirit-Self, will function with Wisdom and Power until the very end, until the last earth experience is over; we fully and completely accept that You will be true to Your Personality Trust. We will to survive and not disappoint You, and never deprive You of the reward of Your patient and intense endeavors. We will that You achieve Our Personality and We achieve Our Divinity as Our Father Wills.

The Spirit-Self is the potential of our next order of existence, which is the advance bestowal of our eternal Sonship with God. With the consent of our will, our Spirit-Self has the capability to bring the creature trends of our mortal HeartMind in alignment with the transforming actions of the purpose and motivation of our emerging Morontial Soulular Ascension Plan.

When we human creatures first become cognizant of our Spirit-Self, it is indicative of the fact that God has already found us. It is entirely within our purview to change our perceptions of feelings of fear, to the Faith Certainty of Love, Faith and Trust in our Spirit-Self. In so doing, we willingly prepare an open channel for the God reality of our Spirit-Self to convey the Divine messages directly to our human intellects, thus effectively bringing God to man, and also effectuating the human mortal phenomenon referred to as:

AutoRevelation

This is communion with, and understanding of, the ongoing endeavors of our Spirit-Self to enable our HeartMind, personality, and Soul to attain our true status as Sons of God and thus enable our planet to move into Light and Life by fully enabling and engaging the Truth of Our Merciful Father and the Brotherhood of Man.

How could any of us mortal creatures fathom ourselves in pure Light? We can only imagine what we can choose to become with Our Soul's fusion in Our Spirit-Self. With God All Things Are Possible. Our Spirit-Self is Father

Mother Creator as related to us by our wondrous and supportive Celestial Beings in this revelation, and we can only attempt to relate as such to this very thought in every moment as we can only experience the phenomenon rather than attempt within our human creature's HeartMind to explain what can not be reached or understood in the symbols of language. We can only proceed patiently in complete Faith, Trust, Certainty and Will to create the inherent reality, which is our birthright, and which can curtail any creature egoic machinations that would only deter our process and curb our human imagination as it will continue to reach out unbounded in every moment.

We can choose to enter a phase of willingness to receive whatever learning experiences we need from our ever-loving and gentle Spirit-Self, to release anything and everything that emanates from our ego and challenges our Spiritual growth, as well as that which may continue to instill fear in our material human egoic mind, until we recognize completely that all fear is illusory. It does not exist. To those who will to journey on this path, mortal creature ideas of morality do not come close to the standards that those who aim for perfection require of themselves. It can be a very dynamic, vibrant, and exhilarating adventure as well as an unsurpassed learning experience. What do we have to lose?

Our eternal careers are experienced in an environment where the only Rule is Love, which we are preparing for with the assistance of our Spirit-Self to manifest on this plane of learning as self-governing individuals who are motivated through the highest Spiritual aspirations by maintaining our own unique individual dynamic Spiritual experience in every moment.

What is referred to as the psychic fulcrum occurs as we release ourselves from fear by accepting alignment with the decisions delivered ceaselessly in communion every moment by Our Spirit-Self enabling us to uplift and advance in our illumination, with complete Faith, Trust and Certainty that our Spirit-Self operates absolutely in the manner of Paradise Perfection.

We begin to see the results of aligning our thoughts with the Will of Our Father exemplified in our lives moment by moment, thus growing within HeartMind and Soulular confidence to the Certainty that we have made the choice for Paradise and will not change our HeartMind because it is really the only thing we Truly desire.

Perceived fear is complete illusion that can only manifest through our own thoughts when they are not aligned with the Will of Our Father. We have the Spiritual wherewithal to change our thoughts in every moment. We also have incessant support of our Spirit-Self and encouragement of all Loving Celestial Beings. How could we possibly not prevail with this team? All we

have to do is believe with Certainty that our thoughts create our individual reality. If we are not happy with our reality in any moment, we can choose to change our thoughts.

When we grow in Spirit, this growth becomes quite evident in the material world. If we were to be laboring in an enterprise in disharmony with the Will of the Father, we would feel motivated to make changes. When we begin to feel the desire to lovingly serve our brethren, we will probably be drawn to, and become inspired to dedicate our efforts to tasks that would make such selfless service possible. Many are already dedicating their mortal lives to such endeavors.

We are on the threshold of a Spiritual epidemic. Changes which will be forthcoming when groups of mortal human creatures, through evolutionary human HeartMind expansion, begin sharing thoughts and ideas that will become contagious because of the level of Truth they contain, and the concomitant obvious benefits that arise from their application. The ideas and thoughts that concern The Fatherhood of God and the Brotherhood of man together with Universal Citizenship, are not new to our world however, they have never really been put into practice nor seriously, honestly, and thoroughly considered by the majority of human creatures inhabiting this world.

The problem of sin is not self-existent in the finite world. The thought of finiteness is not evil or sinful in and of itself. The finite world was Thought into being by Our Infinite Creator, it is the extant in the handiwork of His Divine Sons, and therefore it must be good. It is our human judgment and miscreation engendered by egoistic thoughts that are not aligned with the Universal Truth of Our Creator, and continuously manifested in the misuse, distortion and perversion of the finite that gives origin to what we humans perceive to be evil and sinful.

The finite therefore, appears to afford God's children an education that once learned, is also indelibly ingrained in the HeartMind and personality that not only prevails throughout our universal ascendancy, but also fully enhances all universal intelligence and The Supreme in ways that mortal humans and even some Celestial Beings can only guess at or conjecture. Our Father becomes more complete with each and every experience we go through.

There is in the Mind of God a Plan which embraces every creature of all His vast domains, and this Plan is an eternal purpose of boundless opportunity and unlimited progress, in an endless adventure. And the infinite treasures of such a matchless career are ours for the striving.

Glorious Father and Mother, in one parent combined, loyal would we be to Your Divine nature. Your own Self to live again in, and through us by the Gift and bestowal of Your Divine Spirit, thus reproducing You, albeit imperfectly, in this sphere as You are Perfectly and Majestically shown On High. Give us day by day Your sweet ministry of brotherhood and lead us moment by moment in the pathway of Loving Service. Be You ever and unfailingly patient with us even as we show forth Your patience to our children. Give us the Divine Wisdom that does all things well and the Infinite Love that is gracious to every creature. Bestow upon us your patience and loving-kindness that our charity may enfold the weak of the realm. And when our career is finished, make it an honor to Your name, a pleasure to Your Good Spirit, and a satisfaction to our Soul Helpers. Not as we wish, Our Loving Father, but as You desire the eternal good of Your mortal children. Even so may it be.

FIFTH THOUGHT

Soul

Spirit Are We, Your Holy Son, Free of All Limits; Safe, And Healed, And Whole; Free to Accept And Allow Complete Forgiveness, And Free to Serve our world through setting aside and letting go of all humanly perceived and projected imaginary and illusory grievance as well as all human ego, thus Enabling Our Salvation Together With And Along With The Salvation of All of Our Fellow Daughters and Sons of God. We Are Light As Your Minister And Messenger Father, And We remain Humbly Grateful to Have Accepted and Allowed the Means to Recognize That We, And All Our Fellow Sons and Daughters of God, Are, Have Always Been, And Will Always Be, Fully and Completely Free, In Perfect Holiness, And Absolutely Without sin.

The Soul is that culmination of values and experiences that have to do with the identity of the individual that survives the life in the flesh and goes on to higher levels of perfection attainment through the process of ascension. Only those values and experiences that were received from the Indwelling Spirit-Self and which found a channel of expression in the individual Soul through the discovery of Truth, Beauty, and Goodness, survive to become the True Essence, Identity, and Personality of the ascending Soul, the Real Us.

Three factors in the evolutionary creation of a surviving Soul of ultimate destiny and unending career are:

- 1. *The human HeartMind* and all cosmic influences antecedent thereto and impinging thereon.**
- 2. *The Divine Spirit* indwelling this human HeartMind and all potentials inherent in such a Fragment of absolute Spirituality together with all associated Spiritual influences and factors in human life.**
- 3. *The relationship between material HeartMind and Divine Value* and carries a meaning not found in either of the contributing factors to such an association. The Reality of this unique relationship is neither material nor Spiritual but Morontial. It is the Soul.**

In continuance of our discussion on the Soul building process, we will Now look at the roles of the three Soul processors, the mind-self, the HeartMind, and the Indwelling Spirit-Self. Each of them plays a vital role in determining what experiences, meanings, and values are harvested for Soul building

and eternal survival. The order in which these three processors are listed here is sequential to the order in which all experiences are processed, from the physical aspect of human awareness, the brain and the five perceptual material senses, to the emotional center, the HeartMind, WholeHeartedly, to the Spiritual Monitor, Spirit-Self. All three are absolutely necessary as all three work together in accordance with the free will prerogatives that have been established by Our Universal Father which assure relative untethered and diverse harvest of human experience.

The Soul of humans is an experiential acquirement. As a mortal creature wills and chooses to do the Will of Our Father in Heaven, so the Spirit-Self will become the Father of a new reality in human experience. The mortal and material HeartMind is the Mother of this same emerging Reality. The substance of this new Reality is neither material or Spiritual, it is Morontial. This is the emerging and immortal Soul and Personality which is destined to survive mortal death and begin the Paradise Ascension.

The Sonship is our Salvation, for the Sonship is our Soul. As our Father's Creation it is ours, and thereby belonging to us, it is His. Our Soul does not need Salvation, but our human HeartMind needs to learn what Salvation Is.

Morontia is a term designating a vast level intervening between the material and the Spiritual. It may designate personal or impersonal realities, living or nonliving energies. The warp of Morontia is Spiritual; its woof is Truly physical.

The Midwayers, who are Celestial Beings who have assisted mortal human creatures down through the ages have long denominated the evolving Soul of man the mid-mind in contradistinction to the lower or material mind and the higher or Cosmic Mind. This mid-mind is really a Morontia phenomenon since it exists in the realm between the material and the Spiritual. The True potential of such a Morontia evolution is inherent in the twofold universal urges of mind: the impulse of the finite HeartMind of the creature to know God and attain the Divinity of the Creator, and the impulse of the infinite Mind of the Creator to know man and attain the experience of the human creature.

This supernal transaction of evolving the immortal Soul is made possible because the mortal HeartMind is first personal, and second, is in contact with superanimal realities and it possesses a supermaterial endowment of Cosmic Ministry which ensures the evolution of a moral nature capable of making moral decisions, thereby effecting a bona fide creative contact with the associated Spiritual Ministries and with the Indwelling Spirit-Self, our Creator Fragment.

The inevitable result of such a Spiritualization of the human HeartMind is the gradual birth of a Soul, the joint offspring of an adjutant mind which is dominated by a human will that craves to know God, working in liaison with the Spiritual Forces of the universe which are under the overcontrol of an actual Fragment of the very God of all creation, the Mystery Monitor that we discern as entering into and evolving the relationship between the Soul and the Spark of Light within each of us to emerge as our Spirit-Self. And thus does the material and mortal reality of the self transcend the temporal limitations of the physical-life machine and attain a new expression and a new identification in the evolving vehicle for selfhood continuity and thereby Salvation, the Morontia and immortal Soul.

We are definitely looking forward to transcending the temporal limitations of the mortal human creature body and very much anticipate the new expression and the new identification in the evolving vehicle for selfhood continuity, the Morontia and immortal Soul, which will allow us to look on all our brethren from our own Holiness as through the Eyes of Christ.

It then evolves to the Morontia and immortal Soul which is at first, wholly Morontia in nature but it possesses such a capacity for development that it invariably ascends to the True Spirit levels of fusion value with the Spirit of Deity, with the same Spirit of the Universal Father that initiated such a Real and creative phenomenon in our HeartMind, our very own Spirit-Self.

Both the human HeartMind and the Divine Spirit-Self are conscious of the presence and differential nature of the evolving Soul, the Spirit-Self fully, the HeartMind partially. The Soul becomes increasingly conscious of both the HeartMind and the Spirit-Self as associated identities, proportional to its own evolutionary growth. The Soul partakes of the qualities of both the human HeartMind and the Divine Spirit-Self but persistently evolves toward augmentation of Spirit control and Divine dominance through the fostering of a human HeartMind function whose meanings seek to coordinate with True Spirit Value. We believe this True Spirit Value, once attained by our HeartMind allows at least the partial consciousness of the presence of the Soul while on earth as mortal human creatures.

The mortal career, the Soul's evolution, is not so much a probation as it is an education. Faith in the survival of Supreme Values is the core of human Spirituality, and genuine religious experience consists in the union of these Supreme Values and Cosmic meanings as a realization of Universal Reality.

In so far as humanity's evolving Morontia Soul becomes permeated with Truth, Beauty and Goodness as a value realization of God Consciousness, such a resultant Beingness becomes indestructible. If there were no actual

survival of real eternal values in the evolving Soul of humans, then mortal existence would be without meaning, and life itself would be tragic illusion made up of poor choices. But it is forever True. What we begin in time we will assuredly finish in eternity, and we believe it is worthwhile finishing.

We also believe it is possible to become conscious of the presence of our Soul while on earth through the consecration of choice which entails the doing of the Will of God which is nothing more or less than an exhibition of creature willingness to share the inner life with God, with the very God who has made such a creature life of inner meaning value possible. Sharing is Godlike and Divine. God shares all with the Eternal Son and the Infinite Spirit, while they, in turn, share all things with the Divine Sons and Spirit Daughters of the Universes. The imitation of God is the key to perfection, the doing of His Will is the secret of survival and of perfection in survival.

We mortals live in God, and God has willed to live in mortals. As we trust the human to Him, so has He, and first, trusted a Fragment of Himself to be with us. God has consented to live in us and to indwell us with total and absolute respect for the free-will choice of us, the mortal human creatures.

Peace in this life, survival in letting go of the physical body, perfection in the next life, service in eternity, all these are achieved in Spirit Now, when the human creature personality chooses, consents, and wills to subject the creature will to the Father's Will. And already has the Father chosen to make a Fragment of Himself subject to the will of the creature personality.

Such a creature choice is not a surrender of will. It is a consecration of will, an expansion of will, a glorification of will, a perfecting of will, and such a choice raises the creature will from the level of temporal significance to a higher estate wherein the personality of the creature Child communes with the personality of the Spirit Father, and thereby becomes at least partially conscious of the presence of the individual Soul.

This choosing of the Father's Will is the Spiritual finding of the Spirit Father by the mortal human, even though an age must pass before the Daughter or Son may actually stand in the factual presence of God on Paradise. This choosing does not so much consist in the negation of creature will such as, "Not my will but Yours be done", as it consists in the creature's positive affirmation, "*It is my will that Your Will be done My Father.*" And if this Real choice is made, sooner or later will the God-choosing Child find full inner union and fusion with the Spirit-Self, as this same perfecting Child will find supreme Soulular and personality satisfaction in the Worship Communion of the Soul and human personality of the human with the personality of Our Maker, two personalities of whose creative attributes have eternally joined

in self-willed mutuality of expression resulting in the birth of yet another eternal partnership of the will of human and the Will of God.

We also have a Kingdom which our Soul has created. It has not ceased to create because we have allowed our human ego to imprison us on the road of perception. Our Soul's creations are no more Fatherless than we are. Our ego will never be anything but a miscreator, which simply means that nothing that we miscreate will be infinite. However, Our Soul and Our God will Always Be. We must be confident that our creations are as safe as we are. The Kingdom is perfectly united and perfectly protected, and a human ego will never prevail against it.

Human judgment is the affirmation of error, and error is a lack of Love. It is when we project this error onto others that we effectually imprison them as well as ourselves, but only to the extent that we reinforce mistakes and errors that they and we, have already made. This distortion makes all of us very vulnerable to our miscreation as well as that of others, since they have already judged themselves. To free ourselves as well as our brethren, we can only bless them from our Holiness and this undoes ego by engaging in complete Forgiveness, thus allowing the release of the Soul from the false and unreal prison of our own misguided choosing.

The human super-conscious, is in communion with God, and is capable of breaking into consciousness through our Will-self with guidance from the Spirit-Self. It starts with this beginning stage, which follows as expression of our Soul as it begins to gain enough strength through our Will-self to allow its freedom from bondage to the confused tyranny of the human ego and then, following its Divine guidance, our Soul requests its freedom to join Spiritually with its mate Spirit-Self. And if for some reason this natural process is not adhered to by our human creature egoic whims, our Divine magnificent Soul, like an unrequited bride, will soon begin demanding its freedom to join its mate, with the resulting relationship emerging as Our Spirit-Self. Once we will to allow this, it becomes impossible to ignore.

The Soul is in a State of Grace forever. Our Reality is only our Soul, and so therefore, we are in a State of Grace forever. God and the Souls He has created are symbiotically related, so they naturally are fully dependent on each other. The creation of the Soul itself has already been accomplished perfectly, but the creation by the Soul has not. God created Souls so He could depend on them because He created them perfectly. He gave them His Peace so they would not be shaken and thus be unable to be deceived. Whenever we are afraid, we are deceived. Our human mind is not serving our Soul until we begin hearing our Spirit-Self and aligning our thoughts with our Father's Truth.

The Higher Thoughts of Spiritually progressing individuals who are aligned with the energy of the Spirit of this time, will provide many opportunities for real and ongoing connections with the indwelling Spirit-Self, with Christ, and also with our Mother Spirit, as well as the other Higher Spirit beings who have Faithfully been available to us on this mortal plane of existence where the newly created human mortal creature is just beginning to learn the infinite experience available to the immortal ascending Soul, mind, and personality during this transitional, Transformational Epoch.

You go with us wherever we go Father. How can we be alone when You are always with us? How can we be doubtful and unsure of ourselves when Perfect Certainty abides in Your Truth, Beauty, and Goodness? How can we be disturbed by anything when You rest in us in Absolute Peace? How can we suffer when Love and Joy surround us through You? Let us not cherish illusions about ourselves. We are perfect because You go with us wherever we go. We Place Our Future, Solely, Willingly, And Completely, In Your Loving Grace And Light My Father.

SIXTH THOUGHT

Personality

The personality form is the pattern aspect of a living being, it connotes the arrangement of energies, and this, plus life and motion, is the mechanism of creature existence.

Without God and except for His great and central person, there would be no personality throughout all the vast universe of universes. Our Father is personality. We should not permit the magnitude of God, His infinity, either to obscure or eclipse His personality. The Universal Father is the acme of Divine personality, He is the origin and destiny of personality throughout all creation. God is both infinite and personal, He is an infinite personality.

The Father is truly a personality, notwithstanding that the infinity of God's Spiritual Person places Him forever beyond the full comprehension of His material and finite beings as we are in this, our corporeal existence.

Personality is the Gift of the Father, bestowed as a potentially eternal will endowment. It identifies a human as a Spiritual being, uniquely individual, thus allowing free will action. It responds to other personalities and to the personality circuit of the Father. It is bestowed before, and is independent of, the Spirit-Self, although the Indwelling Father Fragment augments the qualitative manifestation of personality. Personalities are representative of a series, type, order or pattern, but no two are alike. It is that part of us that enables recognition of others even if their form has changed, it is identity that is recognizable. Personality is involved in the actual grasp of universe meaning, unselfish Love, Spiritual choice, moral decisions, discernment of Truth, purposeful co-operation, cosmic insight, altruism, and as personality dedication to do the Will of God and to worship Him.

God is much more than a personality, as personality is understood by our human sensory cerebral mind. But it is utterly futile to discuss such levels of incomprehensible concepts of Divine personality with the human minds of material creatures whose maximum concept of the reality of beingness consists in the idea and ideal of mortal personality. Our material creature highest possible concept of the Universal Creator is embraced within the Spiritual ideals of the fully exalted idea of Divine Personality. And although we may know that God must be much more than our human conception of personality, we equally well know that the Universal Father cannot possibly be anything less than an Eternal, Infinite, True, Good, Wise, Merciful, and Beautiful Personality.

God is not hiding from any of His creatures. He is unapproachable to so many orders of beings only because He dwells in a Light which no material creature can approach. The grandeur of the Divine Personality is beyond the grasp of the unperfected mind of evolutionary mortals. Today, and as we are, we must discern the invisible Maker through His manifold, diverse Creation with our Faith, Trust, and Certainty as well as by the Revelation and ministration of his Sons and their numerous Celestial Beings.

Even though material mortals cannot see the person of God, we can still rejoice in the assurance that He is a Person, by Faith accept the Truth that portrays Our Universal Father as so loving His Creations as to provide for the eternal Spiritual progression of all His worlds and all of the inhabitants. It is known that Our Creator fully delights in All His children. God is also the Perfect exemplary of all of the superhuman and Divine attributes which constitute a Perfect, Eternal, Loving, and Infinite Creator Personality.

Our human personality is the time-space image-shadow cast by the Divine Creator Personality. And no actuality can ever be really comprehended by an examination of its shadow. Shadows can only be interpreted in terms of their True Substance.

God is to science a cause, to philosophy an idea, to religion a person, even as the Loving Heavenly Father. God is to the scientist, a primal force, to the philosopher, a hypothesis of unity, to the religionist, a Truly Living Spiritual Experience. Our inadequate concept of the Personality of our Universal Father can be improved only by human Spiritual progress in the universe and will become truly adequate only when the traversers of time and space finally attain the Divine Embrace of the Living God on Paradise.

We should never lose sight of the viewpoints of personality as they will be conceived by God and human. Mortal human views and comprehends the personality looking from the finite to the infinite; God looks from the infinite to the finite. Humanity possesses the lowest type of personality, God, the Highest, even as Supreme, Ultimate and Absolute. Therefore do the better concepts of the Divine Personality have patiently to await the appearance of improved ideas of human personality, especially the enhanced ongoing revelation of both human and Divine Personality in the Urantian bestowal life of Michael, the Creator Son of our Universe as Joshua ben Joseph who became Jesus Christ.

Personality Survival

The evolutionary planets are the spheres of human origin, the initial worlds of the ascending mortal career. Urantia, the ancient name for our planet is

our starting point, here we and our Divine Spirit-Self are temporarily joined in union as human and Indwelling Creator Fragment. We have been and will continue to be, endowed with a Perfect Guide, therefore, if we will sincerely tread the journey of time and gain the goal of Faith, Trust and Certainty, the reward of infinity will be ours. We will be eternally united with Spirit-Self as Our Indwelling I AM Presence, Spirit-Self.

Then will begin our real adventure, the ascending Soulular sojourn, to that which our contemporary mortal state is only the gateway toward eventually entering an exalted and progressive mission as God's finaliters throughout an eternity that stretches out infinitely before us. Within all the successive stages of our evolutionary growth, there is one part of us that is unaltered, absolutely completely, and totally, and that is personality, Permanence in the Presence of Change.

While it would be presumptuous to attempt the definition of personality, it may prove helpful to recount some of the things which are known about personality in the Celestial planes of existence.

- 1. Personality is that quality in reality which is bestowed by the Universal Father Himself or by the Holy Spirit, acting for the Father.**
- 2. It may be bestowed upon any living energy system which includes mind or Spirit.**
- 3. It is not wholly subject to the fetters of antecedent causation. It is relatively creative or cocreative.**
- 4. When bestowed upon evolutionary material creatures, it causes Spirit to strive for the mastery of energy-matter through the mediation of mind.**
- 5. Personality, while devoid of identity, can unify the identity of any living energy system.**
- 6. It discloses only qualitative response to the personality circuit in direct contradistinction to the energies which show both qualitative and quantitative response to gravity.**
- 7. Personality is changeless in the presence of change.**
- 8. It can make a Gift to God by dedication of the free will to the doing of the Will of God.**

9. It is characterized by morality by recognizing awareness of relativity of relationship with other persons. It discerns conduct levels and thereby chooses to discriminate between and among them.
10. Personality is unique, absolutely unique. It is unique in time and space; it is unique in eternity and on Paradise; it is unique when bestowed and there are no duplicates; it is unique during every moment of existence; it is unique in relation to God for He does not look upon persons, albeit neither does he add them together, for they are nonaddable and they are associable but nontotalable.
11. Personality responds directly to other personality presence.
12. It can be added to Spirit, thus illustrating the primacy of the Father in relation to the Son. Mind does not have to be added to Spirit.
13. Personality can survive mortal death with identity in the surviving Soul. The indwelling Spirit-Self and the personality are changeless; the whole relationship between them in the Soul is nothing but change, dynamic, evolution; and if this change, or growth, ceased, the Soul would cease.
14. Personality is uniquely conscious of time, and this is something other than the time perception of mind or Spirit.

The prepersonal Spirit-Self which indwells our mortal HeartMind carries, in its very presence, the valid proof of its actual existence, but the concept of the Divine Personality can be grasped only by the Spiritual insight attained of genuine personal Spiritual experience. Any person, human or Divine, is known and comprehended quite apart from the external reactions or the material presence of that person.

Our Father who is in the mystery, reveal to us your Holy character. Give us, your Children on earth this day what we need to see the Way, the Light, and the Truth. Show us the pathway of eternal progress and give us the will to walk therein. Establish within us your Divine Kingship and thereby bestow upon us the full mastery of self. Let us not stray into paths of the darkness and death; lead us everlastingly beside the waters of life. Hear our prayers for your own sake; be pleased to make us more and more like Yourself. At the end, for the sake of Your Divine Son, receive us into Your Eternal Arms. Even so, not our will but Yours Be Done.

Maturity in life is the fruit of meaningful personality unification. Personality is evident by function of will. It is in charge of existential unification, either the individual is conscious of it, or is not.

However, in its attempt to unify choices, factors that are incompatible may render the individual psychologically awry and produce a deviant character which may begin to favor uselessness and malevolence. The personality unification that readily produces ethical maturity is the one that, together with achievement of real bona fide values and meanings, brings a balance to the physical, emotional and intellectual factors resident in a particular individual.

Meaningful salient personality unification begins its realization when doing the Will of God is the free will choice made by an individual who sincerely desires to align with the Will of Our Creator during that person's mortal life.

We can also choose to utilize further aspects of our many subpersonalities by owning those parts which we attempt to judge, disown and project onto others. When we forgive ourselves for these illusory judgments, we can only then retrieve that part of our own personality that we heretofore had disowned, and in so doing, we can then accept in complete Forgiveness a part of us that by our ego judgment, we had effectively exiled and thereby impaired the union and completeness of part of our own personality. Men and women especially often choose to entrap ourselves in this human ego prison by choosing to judge each other rather than attempt to get to know one another more completely and fully in Love and Light.

I Am Sustained And Enabled, Solely, Willingly, And Completely, By Your Love And Truth My Father, Which Created Me Like Yourself. I Am One Self And Of One Kind United With You My Creator In Your Light.

The more completely we understand ourselves and appreciate the unique and individual personality values of our brethren, the more we will crave to know the True Original Personality, and the more earnestly such a Father seeking human will strive to become like the Original Personality. We can share and discuss opinions about God, but experience with Him and in Him exists above and beyond all human controversy and intellectual logic. The God knowing human shares individual Spiritual experiences, not to attempt to convince or proselytize unbelievers, but only to enable edification and mutual satisfaction of like-minded believers.

The personality of a mortal human is neither body, mind, nor Spirit; nor is it the Soul. Personality is the one changeless reality in a dynamic, constantly changing creature experience, and it unifies all other associated factors of a unique individuality. The personality is the individual bestowal that the Universal Father makes upon the living and associated energies of matter, mind, and Spirit, and which survives with the survival of the Morontia Soul.

God is Spirit, Spirit Personality. We are also Spirit, potential unique Spirit personality. Jesus of Nazareth attained the full realization of this potential of Spirit personality in human experience, therefore His life of achieving the Father's Will becomes our most real and ideal revelation of the Personality of God. Even though the Personality of the Universal Father can be fully grasped only in actual Spiritual experience. Jesus' earth life inspires us to exemplify by the perfect demonstration of such a realization and revelation of the Personality of God in a truly human experience.

We did not understand what made us free, nor what our freedom was, nor where to look to find it. Father, we have searched in vain until we heard Your Voice directing us. Now we would guide ourselves no longer. For we have neither made nor understood the way to find our freedom. We Trust in You. You Who endowed us with our freedom as Your Holy Child will not be lost to us. Your Voice directs us. The way to You is opening, and clear to us at last. Father, our freedom is in You alone, our will is that we return. We willingly and completely Accept and Allow the Peace, Holiness, Reason and Sinlessness that You Will for us Father.

The personality form is the pattern aspect of a living being, it connotes the arrangement of energies, and this, plus life and motion, is the mechanism of creature existence. Mortal human is a machine, a living mechanism; our roots are truly in the physical world of energy. Many human reactions are mechanical in nature; much of life is machinelike. A human mechanism, is much more than a machine; we are HeartMind endowed and Spirit indwelt; and though we can never throughout our material life escape the chemical and electrical mechanics of our existence, we can increasingly learn how to subordinate this physical life machine to the directive wisdom of mortal experience by the process of consecrating our human HeartMind to the natural execution of the Spiritual urges of our Indwelling Spirit-Self.

Personality is bestowed by the Universal Father upon His creatures as a potentially eternal endowment. Such a Divine gift is designed to function on numerous levels and in successive universe situations ranging from the lowly finite to the highest absonite, even to the borders of the absolute. And it is this very power of choice, the universe insignia of freewill mortal creaturehood, that constitutes our greatest opportunity and is therefore, our supreme cosmic responsibility. Upon the integrity of the human will and volition, depends the eternal destiny of the future finaliter; upon the sincerity of the mortal free will, the Divine Spirit-Self depends for eternal personality; upon the faithfulness of mortal choice, the Universal Father depends for the realization of a new ascending son; upon the sincerity, steadfastness, and wisdom of decision-actions, Supreme Father Mother also depends, for the actuality of experiential evolution.

Much difficulty experienced by us mortals in our study of mortal human personality could be avoided if we, the finite creature, could remember that dimensional levels and Spiritual levels are not coordinated in experiential personality realization. In other words, the human HeartMind is incapable of fully understanding the mindal process. It is only absolute Faith, Trust, and Certainty in the Will of our Father which is continuously given to us in every moment by Spirit-Self that will allow our alignment and progression.

Life is really a process that takes place between the organism, selfhood and its environment. The personality imparts value of cosmic identity and meanings of continuity to this organismal environmental association. Thus it will be recognized that the phenomenon of stimulus response is not only a simple mechanical process since the personality functions as a factor in the total situation. It is ever true that mechanisms are innately passive; as organisms, humanity is inherently dynamically active. Symmetry is needed.

Physical life is a process taking place not so much within the organism as between the organism and the environment. And every such process does tend to create and establish organismal patterns of reaction to this type of environment. All such directive patterns are highly influential in choosing goals.

It is through the mediation of mind that the self and the environment can establish meaningful contact. The ability and willingness of the organism to make significant contacts with environment is a response to a drive that represents and affects the attitude of the whole human personality.

Personality does not effectually perform very well in isolation. We humans are innately and inherently social creatures. We are moved by the craving of belongingness. It is literally true; humans do not live well by themselves.

But the concept of the personality as the meaning of the whole of the living and functioning mortal human creature means much more than just the integration of our relationships. It signifies the unification of all factors of reality as well as co-ordination of relationships. Relationships can exist between two objects, but three or more objects eventuate a system, and such a system is much more than just an enlarged or complex relationship. This distinction is vital, for in a cosmic system the individual members are not connected with each other except in relation to the whole and through the individuality of the whole.

In the human organism the summation of its parts constitutes selfhood, or individuality, but such a process has nothing whatsoever to do with our personality, which is the unifier of all these factors as related to cosmic realities. In all concepts of selfhood it should be recognized that the fact of life comes first, its evaluation or interpretation later. Human children first live and subsequently think about their living. In the cosmic realm, insight precedes foresight.

In aggregations, parts are added; in systems parts are arranged. Systems are significant because of organization, or, positional values. Within an effective system, all factors are in cosmic position. In an ineffective system something is either missing, displaced, or deranged. In the human system it is the personality which unifies all activities and in turn imparts qualities of identity and creativity that are necessary and effectual.

It would be helpful in the study of selfhood to remember:

- 1. That physical systems are subordinate.**
- 2. That intellectual systems are coordinate.**
- 3. That personality is superordinate.**
- 4. That the Indwelling Spirit-Self is potentially directive.**

The universe fact of God's becoming man has forever changed all mortal meanings and altered all values of human personality. In the true meaning of the word, Love connotes mutual regard of whole personalities, whether human or Divine or human and Divine. Parts of our self may function in numerous ways such as thinking, feeling, or wishing, but only the facile, co-ordinated attributes of our whole personality are focused in intelligent action. All of these powers are associated with the Spiritual endowment of the mortal HeartMind when a human being sincerely and unselfishly loves another being, human or Divine.

All of our mortal concepts of reality are based on the assumption of the actuality of human personality; all concepts of superhuman realities are based on the experience of the human personality with, and in, the cosmic realities of certain associated Spiritual Entities and Divine Personalities. Everything nonspiritual in our human experience, excepting personality, is a means to an end. Every true relationship we have with another, human or Divine, is an end in itself. And such fellowship with the personality of Deity is the eternal goal of universe ascension.

In mortal creature time, thinking leads to wisdom and wisdom leads thus to worship; in eternity, worship leads to wisdom, and wisdom eventuates in the finality of thought.

The possession of personality identifies us as Spiritual beings since the unity of selfhood and the self-consciousness of personality are Gifts of endowment from the supermaterial world. The very fact that a materialistic minded mortal can deny the existence of supermaterial realities in and of itself aptly demonstrates the presence, and indicates the working, of Spirit Synthesis and Cosmic Consciousness in the human HeartMind.

There exists a great cosmic gulf between matter and thought, and this gulf is immeasurably greater between material HeartMind and Spiritual Love. Human consciousness, much less self-consciousness, cannot actually be explained by any theory of mechanistic electronic association or any type of materialistic energy phenomena.

As mind pursues reality to its ultimate analysis, matter vanishes to the material senses but may still remain real to HeartMind. When Spiritual insight pursues that reality which remains after the disappearance of matter and pursues it to an ultimate analysis, it vanishes to human Mind, but the insight of Spirit can still perceive cosmic realities and supreme values of a Spiritual nature. Accordingly does science give way to philosophy, while philosophy must surrender to conclusions inherent in genuine Spiritual experience. Thinking surrenders to wisdom, and wisdom is lost in enlightened and reflective worship.

In science the human self observes the material world; philosophy is the subjective human description of this observation of the material world; religion, true Spiritual experience, is the experiential realization of the cosmic reality of the witnessing of the observation of all this relative synthesis of the energy materials of time and space. To build a philosophy of the universe on an exclusive materialism is to ignore the fact that all things material are also initially conceived as real in the experience of human consciousness. The observer cannot be the thing observed. True evaluation demands some degree of transcendence of the thing which is evaluated.

Our Father Who dwells in the secret places of the universe, honored be Your Name, revered Your Mercy, and respected Your judgment. Let the sun of righteousness shine upon us at noontime, while we beseech You to guide our wayward steps in the twilight, but be You Merciful and Love us as we desire to Love You. Look down upon us in kindness and forgive us in Mercy as we in justice forgive those who distress and injure us.

May the Love, devotion, and bestowal of the Majestic Son make available life everlasting with Your endless Mercy and Love. May the God of universes bestow upon us the full measure of His Spirit; give us grace to yield to the leading of This Spirit. Even so, in the name of the Bestowal Son and for the Honor and Glory of the Supreme Father.

We forgive ourselves for the false starts, erroneous decisions, and unwise choices we make in time during our mortal sojourn in serving ourselves through our service to evolutionary Deity, the Supreme Being, also as we learn from past mistakes, missteps or misguided attempts to appease the lower animal-origin mind. We human beings are Divinely Indwelt by a pure, loving, dedicated, super intelligent, pre-personal Fragment of Our Creator. Each evolutionary creature of space-time with the capacity of HeartMind and free-will which is part of the personality endowment, and who has made a Spiritually HeartMind, selfless, considerate moral decision to serve another being is given the Gift of the Indwelling Guide, Our Beloved Spirit-Self.

The language of the Heart is the communication our Indwelling Guide will teach us to hear, and then, translate the Will of God to the world and in the relationships among men and women. We must first attune to the higher frequency communications emanating from the Loving and intelligent Voice Within. This has been variously called: the Still Small Voice, Guide Within, Wisdom Within, Teacher Within, Spirit-Self, and many other names on this and other planets of which there are millions in creation. And yet the Creator knows All His children without exception.

Yet, so very much time is wasted in the material pursuits on our planet, and these have distracted we humans from our most valuable, positive, and meaningful relationship, the relationship with God Within, the Indwelling Spirit-Self that inhabits our HeartMind and makes the investments of Light and Insight, real Spiritualizing energies, including Morontia Mota. These are the high values necessary to continue on our upward progressive, Spiritual path, along with the leadings of Spirit-Self, which are constantly directed from the local Universe Creator Son, Christ Michael, and the Universe Mother Spirit. All these Celestial Beings fervently wish for us to recognize at some point during the experience of our human journey, that we must will consciously for the alignment of our will with the Will of Our Creator.

The Living Spirit of Truth on our world works with all of us humans as we sincerely seek to know the Creator Son. His Gift is continuously renewed with each new generation to provide a Spiritizing force that works within our HeartMind with the assistance of Our Spirit-Self, together with our own

sincere cooperation and humility. The Living Spirit of Truth is very active in the young child along with the Mind Adjutants of Mother Spirit, even before the first moral free will choice is made. Groundwork is also laid for the Spirit-Self by a healthy and Loving, Spiritually receptive, and morally principled parental influence.

Each human personality is a unique Gift of the Creator Father and in all of Creation, various orders of Beings are given aspects of Divine Personality which are qualified for certain roles as well as administrative and artistic services in the hierarchy of the Divine Plan. Within this hierarchy however, there is no competitiveness, as that would surely ensue in resultant chaos and disorder.

The cosmic order is designed intelligently and Lovingly and the Paradise and Heavenly Creations are perfect creations. Time and Space Creation which consists at this point of Seven Superuniverses circling Paradise and Havona, contain within them hundreds of thousands of uniquely individual discrete Universes and billions of planetary spheres, which are the gardens and nurseries of the growing Souls for trillions of mortal station creatures.

The inspiring bestowal of Christ Michael as Yeshua ben Joseph on this, our world, qualifies as a response to any discussion of Deity personality being able to function not only with total Reality, but also demonstrating a Divine supernal ability to carry on personal relationships with other personalities.

From Immanuel, Christ Michael's Brother and Fellow Son of God. Exhibit in your one short life in the flesh, as it has never before been seen in all of Nebadon, the transcendent possibilities attainable by a God-Knowing man during the short career of mortal existence, and make anew an illuminating interpretation of humanity and the vicissitudes of his planetary life to all of the superhuman intelligences of all Nebadon and for all time.

Also from Immanuel and Gabriel, Christ Michael's and Mother Spirit's first born Son, In all other details of your oncoming bestowal we would commit you to the leading of the indwelling Father Fragment, the teaching of the ever present Divine Spirit of human creature guidance, and the reason and judgment of your expanding human mind of hereditary endowment. Such an association of creature and Creator Son attributes will enable you to live for us the perfect life of human man on the planetary spheres, not perfect necessarily as regarded by any one man in any one generation on any one world, much less on Urantia, but wholly and supremely replete as this can be evaluated on the more highly perfected, perfecting worlds of your vast far-flung universe.

Joshua ben Joseph, the Jewish baby, was conceived and was born into the world just as all other babies before and since except that this unique and particular baby was the incarnation of Michael of Nebadon, a Divine Son of Paradise and the creator of all this local universe of things and beings. And this mystery of incarnation of Deity within the human form of baby Jesus, otherwise of natural origin on the world, will forever remain unsolved. Even in eternity we will never know the technique and method of the incarnation of the Creator in the form and likeness of His creatures. That is the secret of Sonarington, and such mysteries are the exclusive possession of those Divine Sons who have passed through the bestowal experience.

It was a trying experience for Joseph and Mary to undertake the rearing of this unprecedented combination of Divinity and humanity, and they should deserve great credit for so faithfully and successfully engaging in their day to day parental duties and responsibilities. Increasingly, Jesus' parents realized that there was something superhuman resident within this eldest son, but they never even faintly dreamed that this son of promise was indeed and in Truth the actual creator of this local universe of things and beings. Joseph and Mary lived and died without ever learning that their son Jesus really was the Universe Creator incarnate in mortal flesh.

The question, does this bestowal life of Christ Michael apply to the human nature, and why, makes sense for many reasons. We believe it does, of course, and this is brought out in many ways throughout Christ Michael's mortal life as Joshua ben Joseph while becoming Jesus Christ.

In the course of his fifteenth year, Jesus found a passage in the so-called Book of Enoch which influenced him in the later adoption of the term Son of Man as a designation for his bestowal mission on Urantia. He had also thoroughly considered the idea of the Jewish Messiah and He was firmly convinced that He was not to be that humanly hoped for Messiah. He still longed to help his father's people, but He never expected to be leading the Jewish armies in overthrowing the foreign domination of Palestine. He also knew he would never sit on the throne of David at Jerusalem. Neither did He believe that His mission was that of a Spiritual deliverer or prophesied moral teacher solely to the Jewish people. In no sense, therefore, could his life mission be the fulfillment of the Messianic prophecies and longings of the extant Hebrew Scriptures, at least, not as the Jews understood these predictions of the prophets. Likewise, He was certain he would not appear as the Son of Man depicted by the Prophet Daniel.

While turning all these problems over in his mind, He found in the library of the synagogue at Nazareth, among the apocalyptic books which He had studied, this manuscript called "The Book of Enoch", and though He was

certain that it had not been written by Enoch of olden times, it proved very intriguing to him, and He read and reread it many times. There was one passage which particularly impressed him, a passage in which this term "Son of Man" appeared. The writer of this so-called Book of Enoch went on to tell about this Son of Man, describing the work he would do on earth and explaining that this Son of Man, before coming down on this earth to bring Salvation to humankind, had walked through the courts of Heavenly Glory with his Father, the Father of all; and that He had turned his back on all this Grandeur and Glory to come to earth to proclaim Salvation to needy mortals. As Jesus read these passages, He well understood that much of the Eastern mysticism which had become admixed with these teachings was erroneous, He responded in His Heart and recognized in His mind that of all the Messianic predictions of the Hebrew scriptures and of all theories about the Jewish deliverer, none was so near the Truth as this story tucked away in this only partially accredited Book of Enoch, and He then and there decided to adopt as His inaugural title "the Son of Man." And this He did when he subsequently began his public work. Jesus had an unerring ability for the recognition of Truth, and Truth which He never hesitated to embrace no matter from what source it appeared to emanate.

This led to his teaching regarding, "Those who are born of the Spirit of God shall henceforth discern the word of God regardless of whence it appears to take origin. Divine Truth must not be discounted because the channel of its bestowal is apparently human.

He taught that, "Spirit is the basic personal Reality in the universes, and personality is basic to all progressing experience with Spiritual reality," to introduce us to the concept that although "We cannot search out God by knowledge, we can know Him in our HeartMinds by personal experience" which can enable us to accept, "We...begin the bold proclamation of a new religion...a religion which shall derive its authority from the fruits of its acceptance that will so certainly appear in the personal experience of all who really and truly become believers in the Truths of this higher Spiritual communion."

He also exposed us to the possibility of communing with Divine entities when He said, "Everything nonspiritual in human experience, excepting personality, is a means to an end. Every True relationship of mortal man with other persons, human or Divine, is an end in itself." He further taught us what we have the possibility of becoming when He explained, "You are Daughters and Sons because the Spirit of a Son has been poured out upon you, and has been freely and certainly bestowed upon all Urantia races. This Spirit ever draws you toward the Divine Son, who is its source, and also toward the Paradise Father, Who is the Source of that Divine Son."

We also have a lot of help in witness thereof, and attested to, as in this statement. "Urantians benefit by the Spiritual influences and activities of the local and the superuniverse, with their almost endless array of Loving personalities who ever lead the True of Purpose and the honest of Heart upward and inward toward the ideals of Divinity and the goal of Supreme Perfection."

Personality is our unique vehicle of expression and is absolutely necessary for our exploration of the meaning of the presence of Spirit-Self as well as the idea of God as a personality. They are important concepts to have at least some grasp of to help us in our unique understanding of our personal quest, our journey homeward, where one day, many millennia from now, we may reunite with our Source, with our Creator Father, to encounter these ideas in such a fashion that we may intellectually begin to comprehend the concepts of Spirit-Self and the meaning of the Gift of personality.

Without personality we would all simply be Fragments of the Divine Creator which will one day reunite, much as the droplets of moisture in the clouds eventually reunite with the ocean. They will evaporate and return again through the cycle over and over without moving onward. However, we are on a continuous journey. Our personality provides us with this vehicle of expression, and of interaction with one another and with various unseen personalities, and thence, eventually on to the Father.

Words are a hollow expression, it would in fact not be possible to have any relationship and fellowship except between personalities. It is a basic and fundamental Divine expression of Creation, a vehicle for sharing and thus expanding Truth within the vehicle of the HeartMind. The human capacity of the intellect of the evolving mortal HeartMind is really augmented by the personality, by the presence of attributes such as curiosity, yearning, and Divine Love of the Creation in which we, the mortal live, in Truth, Beauty and our appreciation of All of It, and an acquired comprehension of Divine Goodness.

Personality serves many functions on many levels throughout all universes yet, one of perhaps the most enduring qualities of personality is that it also provides such a great diversity, variety, interest and endless diversification of fragrance and color of all beings who are endowed with personality. We may also think of ourselves as delightful, interesting, colorful, and unique. All these various descriptions apply to every individual. Personality is also a Gift truly to be appreciated, to rejoice with thanksgiving that we have this possession, as uniquely our own.

We can learn to appreciate our discrete personality traits, even those which at times seem to hinder us, and which are our very own distinct and unique signatures, our very own expression in our world as well as throughout all of our Soulular Ascension progress.

It is the hope of all our Celestial Teachers, that we have gained some basic appreciation for the unique personalities of those Teachers with whom we have had the good fortune to be associated. It is through this sharing of energy association that the feelings of the reality of unique personality are thereby conveyed. So there need not necessarily be manifest any visible physical vehicle to contain the interacting personalities for the reality to be shared, or for any and all unique personalities to interact and to know one another, or to be recognized at any other time during Soulular progression.

There are no word symbols adequate to describe the rainbow of expression that is manifest in our physical world. This is something to be celebrated and embraced as a Divine Gift. In these coming evolutionary times, we will appreciate our own unique personality as well as all the other personalities of those around us. We can even learn to appreciate some factors of these discrete personalities that we may have heretofore not necessarily found to be our favorite aspects to embrace. For they too are part of our brethren as well as us, and therefore, they too are to be Loved as part of the Whole. We are all One, are we not? It is an intellectual knowing, yet really appreciating another's personality and fostering a fellowship between all of us enables us to bring into actual awareness this Oneness of which we speak.

We can begin in our one small corner of the world to embrace all individual personalities as brothers and sisters, connected with our own personality into a greater whole.

In Human terms, Truth is the answer our Soul and personality is seeking. The answer does not lie in data, experience, beliefs, or pushing the finite boundaries of human reality. The answer is at the HeartMind, Personality, Spirit, and Soul Center of our Being.

SEVENTH THOUGHT

What is Salvation?

Our senses seek to Witness in Every Moment Only That Which Is Perfectly Aligned in Every Moment with Your Light Father. You Go With us wherever we go. We Walk Together With You In Perfect Holiness. Your Voice Speaks For us in every Moment, thereby enabling us to Be Ready to Listen, Willing to Learn, And Able to Do Whatever You Will For us In Salvation and Miracle Consciousness. We Will to Do Whatever You Ask of us, And Also Will Not to Do whatever is not perfectly aligned In Every Moment With Your Light. We are As You Created us. We are Your Son Eternally.

Salvation is a promise, made by God, that we would find our way to Him at last. It is impossible that it not be kept. It guarantees that time will have an end, and all the thoughts that have been born in time will end as well. God's Word is given every mind that believes it has separate thoughts, which are not aligned with His Truth, and that He will replace any thought of conflict with the Thought of Peace.

The Thought of Peace was given to us, God's Son, the instant that our mind had thought of war. There was no need for such a Thought before, for Peace was given without opposite, and merely was. But when the mind is split there is a need of healing. So the Thought Which has the power to heal the split became a part of every fragment of the mind that still was one, but failed to recognize its oneness. Now it did not know itself, and thought its own identity was lost.

Salvation is undoing in the sense that it does nothing, failing to support the world of dreams and malice. Thus it lets illusions go, by not in any way supporting them, it merely lets them quietly go down to dust. And what they hid is now revealed; an altar to the holy Name of God whereon His Word is written, with the Gifts of our forgiveness laid before It, and the memory of God not far behind.

Let us come daily to this Holy Place, and spend a while together. Here we share our final dream. It is a dream in which there is no sorrow, for it holds a hint of all the Glory given us by God. The grass is growing ever upward through the soil, the trees are budding now, and birds have come to live within their branches. Earth is being born again in new perception. Night has gone, and we have come together in the Light.

From here we give Salvation to the world, for it is here Salvation was first received. The song of our rejoicing is the call to all the world that freedom is returned, that time is almost over, and God's Daughters and Sons have only a Holy Instant more to wait until their Father is remembered, dreams are done, eternity has shined away the world, and only Heaven Now exists at all.

Salvation is the awakening moment of the Soul from darkness and shadow, into Light and Life, where the Soul is reborn and is initiated and acclimated on a path of eternal destiny. The potential for survivorship and fusion with the Spirit-Self is Certain, provided the Soul continues on a forward path of progression and does not willfully embrace uselessness and iniquity. It is this critical moment where our HeartMind and Will-self make contact with the Indwelling Spirit-Self, and receive the revelation of our relationship with the Creator that we are the Child and heir to Our Father's eternal kingdom. In this moment we have become a true believer in eternal life and have Now come to the realization that there is more to life than that of an illusory ego material existence, whereby the calling from deep within has finally been answered.

For many of us, this moment of awakening can be definitively recounted as a demarcation of True Spiritual awareness and knowingness. For others of us, it is a slow and steady experience of discovering Truth that leads to the realization of God Consciousness. From that moment on, the kingdom of Heaven is the living experience of the newly born believer and that creature experience starts on this world and continues on, upon our letting go of the physical body in translation, thence, arrival on the Mansion Worlds, then to long awaited fusion with Spirit-Self, Havona, and finally onto Paradise and into the Corps of Finality, thereby continuing through eternity.

The Father has created us as imperfect experiential beings so that we may grow, learn, and discover all that there is to know and experience in this, our universe, thus we become cocreators with Him, Our Prime Creator. He has bestowed upon us the Gift of free will, and that is what separates us from a predestined automaton. It is this free will endowment that allows for the potential of uselessness, so that we may freely choose the Will of God and accept the challenge of the Supreme Adventure, to contribute of our own accord to the cocreation of Our Universe by sharing our life of mortal experiences through the ministry of Spirit-Self, with the Father Mother of all creation. It is this collective experience of all of God's creatures throughout the far-flung universes, that our Father Mother Supreme experiences as all life experiences through us on myriad levels of Reality.

So, we choose what kind of experiences we want to share with God, those of a sinful iniquitous life of pain and suffering, or a life of Love and Beauty in discovery of all the wonders of His eternal kingdom? The choice is ours and is simple, yet the path to Salvation is often difficult for many on planet Urantia, this rebellion stricken world, where the workers of Light are finally growing to the tipping point of critical mass of acceptance of our Father's Truth. The harvest of those in darkness was heretofore dominant until this Correcting Time of Christ Michael, our Universe Sovereign, which is Now settling in preparation for the imminent coming of the Magisterial Mission.

The illusion of the material world and the ignorance of Spirit values is a formidable challenge in the ongoing willingness to enlighten Souls to the Kingdom, but Our Father in His perfect wisdom has given us a Light in the darkness, it is the Light that Lights every Soul in every human, that perfect Light of the Indwelling Spirit-Self. It is His Spirit that will continuously and relentlessly attempt in every way to awaken us to Salvation, while at one and the same time, absolutely respect our right of free will choice. Spirit-Self will not give up on us, even until the very end, when those of us who have chosen to die the body and are at that doorway, to show us the better way to translate our Soul and to illuminate the path to the Kingdom of Heaven. The choice is, and always will be, solely ours to make, every step of the way.

God loves us all so very deeply, and we are never alone, for Our Creator is there with us through all our trials and tribulations, our triumphs as well as our achievements, and Spiritual Revelations. His ministers of Mercy fully abound all around us in the unseen realms, to assist and enable us to stay the course. We must take the first step to our own Salvation and ask for the Divine assistance to see clearly the path to the Kingdom. We must ask and will to receive, seek to find, and knock so the door will be readily opened to those of us who simply choose to make the request.

The teachings of Jesus constituted the first Urantian religion which so fully embraced a harmonious coordination of knowledge, Wisdom, Faith, Truth, Trust and Love completely and simultaneously to provide temporal tranquil status, intellectual Certainty, moral enlightenment and philosophic stability as well as God Consciousness and ethical sensitivity along with a positive assurance of personal survival. The Faith of Jesus pointed the way toward finality of human Salvation and to an ultimate of mortal universe attainment as it provided for all these following levels of Salvation.

- 1. Salvation from material fetters in the personal realization of Sonship with God, who is Spirit.**

- 2. Salvation from intellectual bondage. Humanity shall know the Truth, and the Truth shall set them free.**
- 3. Salvation from Spiritual blindness, the human realization of a Loving fraternity of mortal beings and the awareness of the brotherhood of all universe creatures, the service discovery of Spiritual reality and the ministry revelation of the Goodness of Spirit values.**
- 4. Salvation from incompleteness of self through the attainment of the Spirit levels of the universe and through the eventual realization of the Harmony of Heaven and the Perfection of Paradise.**
- 5. Salvation from self, through deliverance from the limitations of self-consciousness through the attainment of the cosmic levels of the Supreme mind and by coordination with the attainments of all other self-conscious beings.**
- 6. Salvation from time, through the achievement of an eternal life of unending progression in God recognition and God service.**
- 7. Salvation from the finite, through the perfected oneness with Deity in and through the Supreme by which we, the creature, attempt to learn through ascendance, the transcendental discovery of the Ultimate on the postfinaliter levels of the absonite.**

Forget not, once this journey is begun, the end is certain. Doubt along the way will come and go and go to come again. Yet is the ending sure. None of us can fail to do what God appointed for us. When we forget, we soon remember that we walk with Him and with His Word upon our heart. Who could despair when hope like this is theirs? Illusions of despair may seem to come, but we learn how not to be deceived by them. Behind each one there is Reality and there is God. Why would we wait for this and trade it for illusions, when His Love is only an instant farther on the road where all illusions end? The end is sure and guaranteed by God. Who would stand before a lifeless image when a step away the Holy of the Holies opens up an ancient door that leads beyond the world?

The sevenfold Salvation is the equivalent of the completeness and absolute perfection of the realization of an ultimate experience of Prime Creator, Our

Universal Father. And all this, in potential, is contained within the Reality of the Faith of the human experience of Spirituality. This can be contained as such, since the Faith of Jesus was nourished by, and was revelatory of, Realities beyond the ultimate, the Faith of Jesus approached the status of a universe absolute in so far as such is possible of manifestation in the ever-evolving cosmos of time and space.

We are strangers here. But we belong to Him Who Loves us as He Loves Himself. Ask only for His help to roll the stone away, and it is done in full accord with His Will. We have begun the journey. Long ago the end was written in the Stars and set into the Heavens with a shining Ray that also held it safe within eternity and throughout all time as well, and holds it still, unchanged, unchanging and unchangeable.

Be not afraid. We only start again an ancient journey long ago begun that only seems new. We have begun again upon a road we travelled on before and lost our way a little while. And Now we try again. Our new beginning has the Certainty the journey lacked 'til Now. Look up and see His Word among the stars, where He has set Our Names along with His. Look up and find Our Certain Destiny the world would hide but God would have us See.

Salvation of the World Depends on us

Here is the statement that will one day take all arrogance away from every human HeartMind. Here is the thought of true humility, which holds no function as our own, only that which has been given us. It offers our full acceptance of a part assigned to us, without insisting on another role. It does not judge nor does it decide our proper role. It only acknowledges the Will of God is done on earth as well as Heaven. It unites all wills on earth in Heaven's Plan to save our world, restoring it to Heaven's Peace.

Let us not fight our function. We did not establish it. It is not our idea. The means are given us by which it will be perfectly accomplished. All that we are asked to do is to accept our part in genuine humility, and not deny with self-deceiving arrogance that we are worthy. What is given us to do, by our Father, we have the strength to do. Our HeartMinds are suited perfectly to take the part that is assigned to us by One Who knows us well.

This idea may seem quite sobering, until we see its meaning. All it says is that our Father still remembers us, and offers us the perfect Trust He holds in we who are His Children. It does not ask that we be different in any way from what we are. What could humility request but this? And what could human egoistic arrogance deny but this? Now, we will not shrink from our birthright on the specious grounds that modesty is outraged. It is only ego

pride that would deny the Call of God Himself. All false humility we lay aside in this moment, that we may listen to God's Voice reveal to us what He would have us do. We do not doubt our real adequacy for the function He offers us. We will be certain only that He does know our strengths, our wisdom and our Holiness. And if He deems us to be worthy, so we are. It is only arrogance that judges otherwise.

There is one way, and only one, to be released from the imprisonment our ego's plan has brought to us, wherein we seek to prove the false is true, and that is if we accept the Plan our ego conditioned thought did not make instead. Judge not our value to it. If God's Voice assures us that Salvation needs our part, and that the whole depends on us, be sure that it is so. The arrogant must cling to words, afraid to go beyond them to really experience that which might affront their stance. Yet are the meek and humble free to hear the Voice which tells them what they are, and what to do.

Arrogance makes an image of ourselves that is not real. It is this ego image which quails and retreats in terror, as the Voice for God assures us that we have the strength, the wisdom and the Holiness to go beyond all our egoic illusory images. We are not weak, as is the egoic image of ourselves. And we are definitely not ignorant and helpless. Sin cannot tarnish the Truth in us, nor can misery come near the Holy Home of God.

All this the Voice for God relates to us. And as He speaks, the ego image trembles and seeks to attack the threat it does not know, sensing its false base crumble. Let it go. Salvation of the world depends on All of us, and not upon this little pile of dust. What can our human aspects of fear-based egoic conditioning tell the Holy Son of God? Why need we be concerned with it at all?

And so we find our Peace. We will accept the function God has given us, as we realize that all illusions rest upon the weird belief that our ego can make another for ourselves. Our self-made roles are shifting, they seem to change from that of mourning to ecstatic bliss of Love and Loving. We can laugh or weep, and greet the day with welcome or with tears. Our very Holy being seems to change as we experience a thousand shifts in mood, as our emotions can raise us high indeed, or dash us to the ground in human ego hopelessness.

Is this the Son of God? Could He create such instability and call it Son? He Who is changeless shares His attributes with His Creation. All the many images His Son appears to make have no effect on what He is. They blow across his HeartMind like wind-swept leaves that form a pattern for only an

instant, then break apart to group again, and scamper off; or like mirages seen above a desert, rising from the dust, or a will o' the wisp. These unsubstantial images will go, and leave our HeartMind unclouded and serene, when we accept the function given us. The images we make give rise to conflicting goals, which are impermanent and vague, uncertain and ambiguous. Who could be constant in these efforts or direct their energies and concentrated drive toward goals like these? The functions which the world esteems are so uncertain that they change ten times an hour at their most secure. What hope of gain can rest on goals like this?

In lovely contrast, certain as the sun's return each morning to dispel the night, our Truly given function stands out clear and wholly unambiguous. There is no doubt of its validity. It comes from One Who knows no error, and His Voice is certain of Its messages. They will not change, nor be in conflict. All of them point to one goal, and one we can attain. Our human plan may be impossible, but God's can never fail because He is Its Source.

We will to do as our Spirit-Self and Holy Spirit direct. And if They ask something of us which seems impossible, we remember Who it is that asks, and Who would make denial. Then consider which is more likely to be right. The Voice that speaks for the Creator of all things, Who knows all things exactly as they are, or a distorted image of ourselves, confused, unsure, bewildered, and inconsistent in everything? Let not our human ego voice continue to direct us. Hear instead a Certain Voice, which tells us of a True function given us by our Creator Who remembers us, and urges that we Now remember Him.

His gentle Voice is calling from the known to the unknowing. He would comfort us, although He knows no sorrow. He would make a restitution, though He is complete, a Gift to us, although He knows that we have all we need already. He has Thoughts which answer every need His Son may ever perceive, although He sees them not. For Love must give, and what is given in His Name takes on the form most useful in a world of form.

These are the forms which never can deceive, because they come from Formlessness Itself. Forgiveness is an earthly form of Love, which as it is in Heaven has no form. Yet what is necessary here, is given here, as it is needed. In this form we can fulfill our function even here, although what Love will mean to us when formlessness has been restored to us is greater still. Salvation of the world depends on us who can forgive, and thus Truly recognize our own self Forgiveness. Such is our function here.

Let us wait here in silence, and worship an instant in our gratitude to Him Who called to us and helped us hear His Call. And then let us arise and go

in Faith along the way to Him. Now we are sure we do not walk alone. For God is here, and with Him all our brethren. Now we know that we will never lose the way again. The song begins anew which had been stopped only an instant, though it seemed to be unsung forever. What has here begun will grow in life and strength and hope, until the world is still an instant and it forgets all that the dream of sin had made of it.

Our use for words is almost over now, yet in these quiet moments we gave to God together you and I, We found a single purpose that We shared, and thus We joined together. The Truth of what We are is not for words to speak of or describe. Yet, we can realize our function here, and words will speak of this and teach it too, if We exemplify the words in Us.

Let us go out and meet the newborn world, knowing that Christ has been reborn in it, and that the Holiness of this rebirth will last forever. We had lost our way but He has found it for us. Let us go and bid Him welcome Who returns to us to celebrate Salvation and the end of all we thought we made. The morning star of this new day looks on a different world where God is welcomed and His Children with Him. We who complete Him offer thanks to Him, as He gives thanks to us. The Son is still, and in the Quiet, God has given us, we enter our Home and are at Peace at last.

We are God's Son, complete and healed and whole, shining in the pure and wondrous reflection of His Love. In us, is His creation sanctified and also guaranteed eternal life. In us, is Love perfected, fear impossible, and Joy established without opposite. We are the Holy Home of God Himself. We are the Heaven where His Love resides. We are His Holy Sinlessness Itself, for in our purity abides His own.

Ours are the eyes through which Christ's Vision sees a world redeemed from every thought of sin. Ours are the ears that hear the Voice of God proclaim the world as sinless. Ours the HeartMinds which join together as we bless the world. And from the Oneness that we have attained, we call to all our brothers, asking them to share our Peace and consummate our Joy.

We are the Holy Messengers of God who speak for Him, and carrying His Word to everyone whom He has sent to us, we learn that It is written in our Hearts. And thus our HeartMinds are changed about the aim for which we came and which we seek to serve. We bring glad tidings to the Son of God, who thought he suffered. Now are we redeemed. And as we see the Gate of Heaven stand open before us, we will enter in and disappear into the Heart of God. Our Spirituality shall change from the human intellectual

belief in traditional authority to the actual experience of that Living Faith which is able to grasp the Reality of God and all that relates to the Divine Spirit of Our Creator. The religions of the human mind tie us hopelessly to the past. The Religion of the Spirit consists in Progressive Revelation and beckons us ever onward toward Holier and Higher Achievements in Spiritual Ideals and Eternal Realities.

All of humankind will come to a place of discovery wherein we realize that an aspect of ourselves, which can dwell in Spirit and enjoy meaningful exchanges of communion is Now available to all of us. To access this state of Being, requires only the ongoing Faith, Trust and Certainty that this is our True Birthright. It is an inherent trait bestowed upon us by Our Creator. Its utility requires purposeful choice and action on our part, as well as the motivating thought necessary to bring it forward and allow it to exist to enable us to be more Spiritually connected and conversant.

Our Individual Spiritual Experience

The Lord our God is one Lord. We will to Love Him with all our HeartMind while we attempt our very best to Love all His Children as we also Love ourselves. This One Supreme God is our Heavenly Father, in Whom all things consist, and Who dwells by His Spirit, in every human Soul. And we who are the children of God will to learn to commit the keeping of our Soul to Him as our Loving and Merciful Creator. All things are possible in full alignment with the Will of Our Heavenly Father. Since He is the Creator having made all things and all beings, it could not be otherwise. Though we cannot see God through mortal eyes, we can know Him by our daily living of the Will of Our Father in Heaven, and we can thus reveal Him to our brethren.

The Divine Riches of God's Character must be Infinitely Deep and Eternally Wise. We cannot search out God by knowledge, but we can know Him in our Hearts by personal experience. While His Justice may be beyond our understanding, we know His Mercy will be received by all our brothers and sisters even those who are humanly judged to be beyond help. While Our Creator Fills the Universe, He also lives in our HeartMinds. The mind of humans is mortal, but the Spirit of humans is Divine, immortal. God is not only all wise, but also all powerful. Our Loving Father in Heaven assuredly knows how to wisely Love us, His mortal children, and to bestow All of His Unlimited Blessings upon us.

Our perfect and righteous heavenly Father, this day guide and direct our journey. Sanctify our steps and co-ordinate our thoughts. Ever lead us in the ways of eternal progress. Fill us with wisdom to the fullness of power,

and vitalize us with your infinite energy. Inspire us with the Divine Consciousness of the presence and guidance of the seraphic hosts. Guide us ever upward in the Pathway of Light; justify us fully in the day of the great judgment. Make us like Yourself in Eternal glory and receive us into your Endless Service on High.

We will begin to worship God with the aid of the Spirit of Truth, which was given us by Christ upon His leaving this mortal realm. The Holy Spirit also becomes more available to our awareness as we become more fully God-knowing. We can Now begin to practice worshiping God as we learn how to do His Will on earth by beginning to see each of our fellow mortals just as we believe Christ would see them. And when we live this sort of a life in the flesh, we may ask many things of our Spirit-Self, and He will give us the desire of our Hearts that we may be all the better prepared to serve all our brothers and sisters. And all of this Loving service of the Children of God will enlarge our capacity to receive and experience the Joys of Heaven as well as the supernal happiness of the Ministry of the Spirit of Heaven.

The Father in Heaven Wills that all His mortal children desire to find Their Divine Father and truly will to endeavor to be like Him. Our Father Loves the mistaken mortals as well, and is always kind to even the ungrateful. If more humans could only realize the Goodness of God, we would certainly be led to repent of our errors and forsake all of our conscious miscreation.

All that is Truth, Beauty, and Goodness emanates from Our Father of Light, in Whom there is no variableness nor shadow of change. The Spirit of the True God is in our HeartMinds. He intends that all His children should seek to be brethren of One HeartMind reflecting His Love. We will all eventually begin to seek after Our Creator, as we begin our individual quest to know Him.

We live in God and God dwells in us. Those of us who realize this will no longer be satisfied to believe that God is only the Father of all His Sons and Daughters, but will henceforth begin to accept that He is also very Truly the Father of each of us as individual HeartMind, Soul, and personality, we who are each uniquely contributing to Our Supreme Father Mother's experience for which God created us.

Father, help us to perform whatever miracles You want of us today. Today we will make no decisions by ourselves. This means we are choosing not to be the judge of what to do. It also means we will not judge the situations where we will be called upon to make response. We will not look upon or see error. Throughout the day we will reflect on the kind of day You, our Spirit-Self want for us, the feelings You would that we have, the things You

want to happen, and the things You desire that we experience. If we make no decisions by ourselves, this is the day that will be given us. We have no question. We do not know what to decide. We want another way to look at this. What can we lose by asking? With God all things are possible.

We will every day to thank God for His ineffable gifts; We will to praise and worship Him for the miraculous interventions unknown to the children of men. To us He is the Almighty, the Creator, the Power, and the Mercy, but most of all, He is our Spirit Father, and as His earth children, we will to seek Him within ourselves. Our tutor, Jesus Christ, has said that by searching for Him we shall become like Him. By our Faith, Trust, and Certainty in God we will assuredly attain His Peace, especially during our relatively short mortal sojourn. This new Spirituality of ours is very full of Joy, and it will generate an enduring Happiness. We will to become confident that we will be ever more faithful as we experience more of this human mortal lifetime, and that then we will most assuredly receive the ultimate crown of eternal life, and continue to ascend ever closer in Spirit Realms to Our Beloved Father and Creator.

We are learning to question all things in every moment and adhere only to that which is aligned with the Will of Our Father. Whatsoever we would that any brother or sister should do to us, that we will to begin to will from our Sacred Holiness upon all our brethren. By this new Spiritual Perspective, we know that we may become aware that we are the Son of God. It may terrify us on this earthly plane from time to time, when we stop to think that all humans, no matter how we perceive their mortal manifestations and ego miscreations, are our brethren, but if we remember that Jesus despised no human and never looked upon error, we can release ourselves from any of our ego judgment and change our thoughts to reflect the true Fatherhood of God and thereby readily accept that all humans must be our brethren. Jesus tells us that the Crucifixion did not establish the Atonement. The Resurrection did. This is a point that many very sincere Christians have misunderstood. No one who was free of the scarcity fallacy could possibly have made this mistake.

If the Crucifixion is perceived from an upside down, or egoistic point of view, it certainly does appear as if God permitted, and even encouraged, one of His Sons to suffer because He was good. Many devoted ministers preach this every day. This particularly unfortunate interpretation, which actually arose out of the combined misprojection of a large number of Jesus' own would-be followers, has led many humans to be bitterly afraid of God. This particular anti-religious concept happens to enter into many religions, and this is neither by chance nor coincidence.

The True Christian would have to pause and ask, how could this be? Is it likely that God Himself would be capable of the kind of thinking which His own words have clearly stated is unworthy of humans?

The best defense as always, is not to attack another's position, but rather to protect the Truth. It is not necessary to consider anything acceptable, if you have to turn a whole frame of reference around in order to justify it. This procedure is painful in its minor applications, and genuinely tragic on a greater basis. Persecution is a frequent result, justifying a terrible human misperception that God Himself persecuted His Own Son on behalf of our Salvation. The very thought of this is meaningless.

It has always been particularly difficult to overcome this because, although the error itself is no harder to overcome than any other error, humans were unwilling to give it up because of its prominent escape value. In milder forms, a parent says, "This hurts me more than it hurts you", and thereby feels exonerated in beating a child. Can we believe that Our Father really thinks this way?

It is so essential that all such thinking be dispelled that we must be very sure that nothing of this kind remains in our HeartMind. Jesus was not punished because we were sinful. The wholly benign lesson that the True Atonement teaches is completely lost if it is tainted with this kind of egoic distortion in any form.

"Vengeance is Mine sayeth the Lord" is strictly a karmic viewpoint. It is a real misperception of Truth, by which man assigns his own perceived evil past to God. He did not create it, and He does not maintain it. God does not believe in karmic retribution at all. His Divine Mind does not create that way. He does not hold the evil deeds of a human even against Himself.

We must be very sure to realize how impossible this assumption really is, and how entirely it arises from misprojection. This kind of error is what is responsible for a host of related fallacies, including the misbelief that God rejected man and forced him out of the Garden of Eden, or that Jesus is misdirecting us. Jesus has made every effort to use words symbols which are almost impossible to distort, but the human ego is very inventive when it comes to twisting symbols around.

God Himself is not symbolic, He is fact. The Atonement too, is absolutely without symbolism. It is perfectly clear because it exists in Light. Only human attempts to shroud it in darkness have made it inaccessible to the unwilling, and ambiguous to the partly willing. The Atonement itself Truly

radiates nothing but the Truth. It therefore epitomizes harmlessness, and sheds only blessing. It could not do this if it arose from anything other than perfect innocence. Innocence is wisdom because it is unaware of evil, because it does not exist. It is however, perfectly aware of everything that is Truth. The Resurrection demonstrated that nothing can destroy Truth. Good can withstand any form of evil, because Light abolishes all forms of darkness. Humanity is fully released from all errors if they believe in this.

Nothing can prevail against a Son of God who commends his Spirit into the Hands of his Father. By doing this, the HeartMind awakens from its sleep, and the Soul remembers its Creator. All sense of separation disappears, and level confusion vanishes. The Son of God Is part of the Holy Trinity, but the Trinity Itself is One. There is no confusion within Its levels because they are of One Mind and of One Will. This single purpose creates perfect integration, the reign of the Peace of God.

But this Vision can be perceived only by the Truly innocent, and because their Hearts are pure, they witness True perception, instead of defending themselves against it. Understanding the lesson of the Atonement, they are without the will to attack, and therefore they See Truly.

We will learn to Love those who we perceive as enemies by changing our perceptions and taking responsibility for miscreating the thoughts and any ideas that we manifest as our projections and judgments. We will find Our Spirituality will allow us to establish Our Father as being more Loving, full of Goodness, Wise, Merciful, Personal, Beautiful, and Just. But most of all, this Great and Glorious Being is Our Supreme Father. We are His Sons and Daughters, and by no other means than our honest, innocent, and sincere desire to be like Him Who created us in His Image and Likeness, do we will to find Him during this mortal journey, and then continue eternally to Love Him. At last we have a Spiritual connection with Our Father, Who is, and has always been, a Kind and Merciful Creator Who Loves All His Children unconditionally. We must will the Kingdom of Heaven by means of Truly knowing and saying, "We know who we are, and we will to accept our own inheritance."

Never, can either science or religion, in and of themselves, standing alone, hope to gain an adequate understanding of universal Truths and the mortal relationships without the guidance of human philosophy and the ongoing illumination of Divine Revelation. In humble and grateful worship to Our Father Who created us in His Image and Likeness.

Epilogue

This is a message to all of us, the people of the Earth, for it matters not whether we are man, woman, child, religionist, or secularist; all who have ears to hear, let us listen. All that we see around us; the room in which we are; the floor, the chair, the table; the yard where our children play; the sky, the trees, the grass; the stars we gaze up at in the night sky; this is all a part of our reality born from an infinite and eternal Super Intelligence; the Primal Cause; that which created all life and all matter in the universe; everything that Is; the One we call Our Father Mother Creator.

This God is the original parent and pattern for all realities and living beings both physical and Spiritual. God is the Original Personality, for all other personalities could not exist were it not for the First Personality to create therefrom. There was none before Him; He is Prime Creator, paternal and eternal. God is perfect; He has all knowledge, is all wise, all powerful, and everywhere present. God is Spirit.

Because of His Perfection and totality unto Himself, Our Father desires to know and explore Himself in ways that cannot be dimensioned by His timeless perfection, and so in the past eternity moment, from the unseen potential, God brought into existence the finite universes and set in motion all matter and material as the theater for His desire to have experience, for experience of each human mortal creature in all the inhabited worlds of the multiverse including all those yet to come, is the one and only thing this Perfect Being does not yet possess in our idea of totality.

We, the people of Earth, who go to and fro, living life, raising our children, working, inventing, discovering, exploring the vastness of our world and the relationships with other personalities, are the living experiencers that fulfill the desire of the Creator to have all experience. How then does this Father Mother Supreme experience life in the universe? By monitoring our experiences through giving us a fragment of Himself, a pre-personal Spirit, some call the Spirit-Self, Beloved Indwelling Spark of Light, the Oversoul, or the Father's Presence, a Mystery Monitor to live in our HeartMind.

Our perfect and righteous heavenly Father Mother God, this day guide and direct our journey. Sanctify our steps and coordinate our thoughts. Ever lead us in the ways of eternal progress. Fill us with wisdom to the fullness of power and vitalize us with your infinite energy. Inspire us with the Divine Consciousness of the presence and guidance of the seraphic hosts. Guide us ever upward in the pathway of Light; Justify us fully the day of the great discernment. Make us like Yourself in Eternal Glory and receive us in Your endless service On High.

We were all made imperfect intentionally as mortal creatures, by His perfect Plan, and designed that way so that we would evolve and continue to grow more perfect through each of our unique, individual human experiences. The Father's Presence which lives within us is there to guide us through the universes of time back into His Presence in Perfection; *'Be you Perfect as I AM Perfect.'* Because we are His Children and a part of Himself, it is His intention to grant us eternal life should we decide to continue on with this experience, for that is our purpose; to be the eyes, ears, hands, and feet of Him in our realm wherever we find ourselves in the multiverse or multiple universes.

Since it is almost impossible for us to become perfected in our short terrestrial lives on the worlds of time and space, Our Father has a plan for the continuance of our autonomous identity and consciousness beyond this world and into higher realms where we can experience new and greater things. As we grow more perfect, like the Creator, we are given greater capabilities to experience universe energy and our HeartMinds and ever ascending consciousness are expanded to begin to comprehend the Truly sublime and astonishing adventures and learning experiences as we also continue to Ascend our Soul toward perfection. This is Our Father's Love and Appeal. It is that which moves the experiential engine of the universe; it is called Perfection Hunger in the Celestial Realms.

His Great Plan for the children of time is that we would become perfect by learning and experiencing greater levels of Divine Love. Love is the only condition for which all consciousness develops and evolves toward God's perfection, for without Love there is no forward movement, no life. What we understand of Love Now in our earth lives is only the very rudiments of Divine Love, which will continue to expand with our ascension toward perfection.

We are Loved completely by Our Father, yet we can only comprehend a very small facet of that Love. As we explore our lives and diversify our many experiences, we might keep in our HeartMind this Great Plan as the brethren, we are, and open ourselves to experience greater levels of Love in this world. This will carry us over into the worlds of Light where we can choose to continue a deeper exploration of that Love. We will then be fully enabled to see ourselves as explorers who are just starting out on a Great and Glorious Journey.

Natural, physical death is not a mortal inevitability. The majority of mortal advanced evolutionary beings, citizens on worlds existing in the final era of Light and Life, do not die; they are consciously translated directly from the life in the flesh to the Morontia existence.

This experience of translation from the material life to the Morontia state and fusion of the immortal Soul with the indwelling Spirit-Self increases in frequency commensurate with the evolutionary progress of the planet. At first only a few mortals in each age attain translation levels of Spiritual progress, but with the onset of the successive ages of the Teacher Sons, more and more Spirit-Self fusions occur before the termination of the ever lengthening lives of these progressing mortals.

We are ever evolving citizens of the universe, and this is the time for us to Now choose, as to whether or not to begin to see life, if we so desire, as an ongoing continuum that spans eternity. How Truly Blessed we are, all the Souls of the Earth.

Those who would have friends must find themselves friendly. These are the words of the Master as he was asked by his young traveling companion how it was that He could so easily make friends with new acquaintances. Jesus went on to explain to the lad that we must become both curious and interested in those things that are important to each unique individual and to get them to talk about themselves. Jesus wanted to know how human mortal creatures felt and how they thought about themselves and about the world around them. He was truly interested in them and when someone finds that we are interested in them, they tend to open up and connect with us, as they feel safe in sharing their thoughts and feelings without any fear of being judged. It is important for us students on the path, if we are to be Truly effective as the torchbearers of Truth in a dark world, that we begin to find ourselves friendly.

We cannot be a Light if we hide our lamp, and so we must put it on a lamp stand where it can be seen by everyone. If we only associate with those who are like us, then we may find that our circle of friends is small and all those wonderful qualities that we have within us may not be shared with those who are searching for Light. There are so many on our world who do not have a clue about the things of Spirit, yet they are searching for it and do not yet realize it. How then will they find this Light if those who have it move through the world without being willing to share our friendliness and brotherhood? Certainly we must use our discernment when choosing what to share and how much, yet we can open the door to those Higher Truths first by being interested in what others think and feel about themselves.

If we are blessed to have found ourselves on this higher path, then we must find it within ourselves to make new friends and to be an example of someone who is friendly and who can connect with others without judging them. We may find that some are too far away from us in their values and beliefs, and only a surface relationship is possible, yet there may come a

time when those we have befriended will reach out to us because their thirsting Souls, having been tested by the circumstances of time, will then recognize the Light within us. This is especially important to all of us who are parents to be patient as our children find their way through the difficult adolescent and young adult years.

If we are looking for kindred Spirits, how then will we find them except that we practice the art of friendliness and become truly curious and interested in others' thoughts and feelings? This is how we find them, and this is how we set our orbits of relationships, there will be those who are closer to us as intimate kindred Spirits and those who are farther away, which we can patiently and lovingly continue to hold in our HeartMinds. The world we see reflects our own internal frame of reference, those ideas, thoughts, desires, and emotions in our HeartMind consciousness. We see what is within our own HeartMinds, and from this, we decide the kind of world we want to see, then project that world outside, making this the Truth as we see it. We make it True by our interpretations of what it is we choose to believe and desire to see. The HeartMind as it begins to move from egoic human to Spiritual communion with Indwelling I AM Presence, Spirit-Self in every moment will inevitably dissociate from its egoic miscreations. Thus, having withdrawn belief from them, they can no longer continue to exist.

If we are misusing perception to justify our own error, our anger, our own impulses to attack, our lack of Love in whatever form it may take, we can not help but project these thoughts and feelings outward to see a world of evil, destruction, malice, envy, and despair. This must we learn to forgive, not because we are being good, charitable, or righteous, but because what we are seeing is simply not True Reality. We have distorted the world by our twisted defenses, and are only seeing what is not there, or, human ego illusory reality. As we learn to recognize our perceptual errors, we also can learn to look past them and Truly forgive what never needed Forgiveness in the first place. If we find ourselves thoroughly entertaining these egoistic thought forms, we can begin to forgive the only one we ever truly needed to forgive, which could only be ourselves, by our looking past our distorted self-concepts to our constant communion with Spirit-Self that Our Father created in us and as us.

Relationships are the Soul-treasure of eternity, for it is within each of our life purposes to have a diversity of experiences and relationships that will teach us how to discover those unperceived layers of Love that Truly exist everywhere in the universe. We must seek for those golden nuggets, by discovering the hidden treasures within our fellow Daughters and Sons of Our Creator, and by doing so, we enhance the probability of discovering the many unknown layers of Love within us that we were not aware of.

Light and Life

When human beings leave aside the desires of the ego and start to perform their actions for the good of their peers this world will enter an age of Love, Renaissance and Progress the likes of which has never been seen on this planet. The human experience today is one of competition, a way of seeing the world in which there is scarcity of resources which cannot be enjoyed by all. This way of thinking implies that the success of one must mean the failure of others and the privileged position of a minority is only possible at the expense of the majority.

This fear-based separation way of thinking must be replaced by a new way of appraising reality. The Reality of a world that aspires to Light and Life is that the many resources of the planet are for all. The success of each and every member of our civilization is success for all. Each one of us who also achieves our goals ceases to be a problem and becomes part of the overall solution that improves the world as a whole.

In this new way of thinking it is evident that any effort to help our brethren achieve the higher desires of their Souls, those desires of eternal value that are inspired by the Divine Presence, are wise investments that will actually contribute to the benefit of all, even our own. Thus we will start to realize that we do not help our brothers and sisters because it seems to be the right thing to do, or because these are the rules of the universe. We help our siblings because it WholeHeartedly makes sense. It is logical. It is wise.

We can start today to reap the benefits of this new way of living. Personal and collective success should be promoted and all possible help and much inspiration can be provided to those who need it. Our brethren's success is also our success and any improvement we make to the world today will be the gifts we will leave for our children tomorrow. We can choose to realize once and for all that in reality it is very little we need to live a fulfilling life and this planet already has plenty for all. We just need to learn how to better distribute our resources.

If we adopt this philosophy of success and learn to Truly share, we will be able to manifest Heaven on earth, even to satisfy our needs of pleasure and recreation. There are individuals who have accumulated more goods than many nations in our world. This reflects a great disparity in the distribution of resources and also the degree to which those Souls have sacrificed their own freedom enslaving themselves under the yoke of material wealth.

We must understand once and for all that many among us have not enough to live, only because a few among us have more than what they really need. We, as a human brother and sisterhood on this planet have even devised communist systems that really distribute poverty. It is time to come up with a better system where the wealth is shared and quality of life and equality among people are the main goals. The resources of a planet belong to all those who live on it. We are all part of the same family, the Children of our Divine Celestial Father Mother God, and all of us have the right to enjoy our Spiritual heritage.

The Calling

Like a voice from within

we hear it.

a still, small voice

that stirs our very Soul

... the calling

Emanating from the vast expanse of the universe,

from the depths of eternity,

across time and space,

to resonate at the center of our being

... the calling.

Calling us Home

to Truth, Beauty, and Goodness

to brotherhood,

to Living Love.

Consider what if, when we look out at the world of contrast that we see and we realize that things are not as they could be in perfection, what if our

Vision of perfection was our Gift of Grace from On High, our realization that things are not in a perfected state and we will that this brings to us a higher state of consciousness, of a better way? What if, instead of our becoming discouraged that things are not reconciled with our ideal of this better way, as is so common among us on our world, what if we allowed ourselves to go to that future state, that future moment of the eternal Now where things are in a more perfected state? What if we allowed ourselves to transcend the moment in which our ideal does not exist and proceed to the moment where our ideal does exist? What if when we use our Will-self to ask, "I want another way to look at this," our Faith, Trust and Certainty in Our I AM Presence through Spirit-Self would allow us to bring to this present Now moment, a picture of Reality that was aligned with Our Father's Will?

Then what if we were able to bring that moment back to have and to hold within, so that our realization of a more Divine scenario, a more perfect pattern, was reached for and grasped and brought back into this moment. If we were to apply ourselves to this manner of adjusting our thoughts, then states of perfection which do not currently exist in our immediate present environment actually do exist in our internal mindal environment. These states of more ideal patterns are out there to be grasped, to be latched onto, to be internalized and brought in to be owned by any and all of us.

This is our privilege, this is what happens when we Trust in the awareness that there is a Divine way, a better way, a higher way, and rather than just descending into frustration because it does not exist immediately before us, what if we set out to go find where it does exist in our HeartMinds and change our own thoughts, seize that moment, and consciously choose to live that moment here in this Now? They are as One. What do we have to lose if we consider these possibilities, these potentials before us? They are within our grasp; they are ours as a birthright as Divine Beings who do have an eternal ascension career ahead of ourselves, full of these moments of the eternal Now.

This will be the opportunity that we all have as life swirls around us, to look for and seize the moments, the opportunities, the places where we can act as a Spiritual fulcrum and then simply and naturally insert ourselves in the process. Let our will be done and let our will be a reflection of Our Father's Will so that His Will ultimately may be done. Let it be so through us and as us in the process. Let us do what our Master would have done. Let us say what Jesus would say. This is what the Celestial Teachers would wish for all of us, a rich and bountiful opportunity placed before us, one after the other, as we are ready and willing. This is what we will rise to the challenge of, one after the other, opportunities arising before us and our recognizing them and seizing them, and applying ourselves to the situation or scenario,

being used as an instrument of our Divine Parents because it is our will to do so in cocreation and alignment with Their Will.

We need not worry. There is time. We have all the time in the world. We preceded time and we will exist beyond it. Age is irrelevant, actually not anymore meaningless than any number. Forever, we have eternity. There is no dream we Now have that we will not manifest. There is no challenge we Now face that we will not overcome by transmuting it. There is no point in spending one more second of our awesome, amazing life, thinking about anything to the contrary. Our Spirit will live Forever.

Father – Mother – Life

You are my Life, my constant support, my health, my protection, my perfect fulfillment of every need, and my highest inspiration. I ask you to reveal the True Reality of Yourself to me. I know it is also Your Will that I will be fully illumined, that I may better receive awareness of Your Presence within and around me. I believe and know with Certainty, that this is possible. I fully believe that you protect and maintain me within Perfect Love. I know that my eventual purpose is to Express You.

As I speak to You, I know that You are perfectly receptive of me, for you are Universal Loving Intelligence which has so marvelously designed the world and brought it into visible form. I know that as I ask You to speak to me, I am sending out a consciousness call into Your Divine Consciousness and as I listen, You will be encompassing my human consciousness and still coming ever closer and more fully into my increasingly receptive Soul and HeartMind. I solely, willingly and completely commit myself and my life into Your Care.

Our Celestial Teachers strive to assist those of us who are marginal in our capacity to be self-observing, to assist us to grow into that strength. Our Spirit-Self has begun this process, even as it first was monitoring our first moral decision. This is the beginning of self-observation, and is the real beginning of moving into our Spiritual adulthood and into our Morontial childhood in this lifetime as well.

Book Description

We put forth this compendia of “The Urantia Book” along with “A Course In Miracles” because we feel that both approaches complement one another in ways that we do not really understand because the thoughts and ideas, although they deal with our human creature existence, each in its very own unique way, facilitate the recognition and acceptance by those of us who are ready to hear, of Our Creator’s Love, while it is apparent to us that they also emanate from the same Source of this Universal Truth.

Both of these Revelations clearly state they are not meant to become new religions, but rather Spiritual Updates that are relevant to our times and the many changes that we as humans as well as our planet are going through in moving to a new frequency of energetic vibration referred to as the Fifth Dimension. There is also an emerging worldwide reception of messages from Celestial Guides and Teachers that signals a rapid expansion of Transmitter/Receivers who come from all walks of life and are receiving Spiritually Universal or cosmic oriented transmissions that indicate a kind, friendly and Loving Celestial Family awaits us when we leave this plane of corporeal existence.

Author's Biography

I realized as a child being raised in a western religious environment that there was much in religious teaching that presented many questions to my average and curious young mind. Even though there eventually emerged a definite lack of enthusiasm for Christian religion, there was somehow, what felt like a solid connection with Jesus Christ that sustained me through difficult, challenging and frustrating teenage and young adult years.

Six years in the United States Marine Corps did much to instill in me the realization that I did not want to take human lives.

Twelve years in Law Enforcement in a large Metropolis, advancing in rank to detective lieutenant and watch commander, while attaining a degree in Political Science and a Master's Degree in Public Administration enabled me to see everyone more equally by beginning to discern the many shades of gray in human lives with the realization that we all were simply where we chose to be based on our own Life choices. It also engendered a definite uncomfortable awareness that whatever we were creating as a planetary assemblage of humanity was not working very well throughout all levels of our society.

After leaving law enforcement, I attained a Ph.D. in Jungian Clinical Psychology, and the continuing study of Spiritual doctrine and ways of being, engendering a more favorable connection to eastern philosophy for me, which led to ordination as a minister while continuing private practice in relationship, family and child counseling, however, at this point, and for the last several decades, there has been no charge for services.

Along the way, I was initiated as a Reiki Master and in turn, introduced and initiated fellow practitioners in healing modalities as well as the learning experience that those who would be healers must learn to step aside and keep the human aspects of egoic thought out of the process entirely.

My area of interest has always been focused on the Life and Teachings of Jesus Christ through many religious and philosophical teachings, both East and West, along with metaphysical Bible interpretation, Life and Teaching of The Masters of the Far East, A Course in Miracles, A Course of Love, The Urantia Epoch and the Buddhist Teachings of Thich Nhat Hanh, as well as the Eastern Philosophies of Baba Muktananda and Paramahansa Yogananda and continual ongoing Planetary Revelation here and Now.

Gerald has authored four books that are available through Amazon at minimal cost because he does not receive royalties for them. They are "Jesus and the ego"; "Bridge"; "I AM Spirit-Self" and "I AM A Spirit Child on a Human Journey".

Back Cover of A Bridge

It is with much appreciation and gratitude that this one greets those who are drawn to these thoughts. If you are reading this message, perhaps you are one of those fellow seekers and explorers who will take this ongoing work in progress to another level beyond this one's imaginative capacity. There are many of those of this generation who cannot or will not yet take in these ideas, but the ones who are Now coming in to this physical plane of existence may begin to see something that warrants further clarification from their level of human Spiritual knowing.

We, who are here Now have much to be thankful for just making it through and having been allowed to participate in these exhilarating times on our Beloved planet. It will take the ever-evolving Divine levels of Grace along with the many other ineffable and yet to emerge qualities these new entities bring with them in order to begin to manifest the Love, Compassion and Empathy necessary for an effectual emergence of the Coming Age of Light and Life.
